### **Floripiquita says**

Novela corta que coquetea con el BDSM y de la no me creí ni la historia ni a sus personajes. Cherise Sinclair debería darle clases a más de una.

[He broke up with her, comes back from war, she is overweight and thinks that was the reason they broke, but no, he has war regrets.

She loves him, he loves her. But I did know their feelings because I am the reader, but they do not talk between themselves, they just had a lot of intimacy but I was like "¿are you done, now can you two talk about the important stuff?" (hide spoiler)]

3 1/2 stars Patrick and Erin are engaged and have been together since high school. After high school Patrick went into the reserves and was called to duty now gone for two years Erin gets an email from Patrick telling her thats there relationship is over. Devastated by Patricks email Erin decides not to accept there break up and goes about her plan to seduce Patrick and to find out what really has happened. Patrick has always loved Erin but knows after the things that happened while he was at war and his darker desires that he isn't good enough for Erin. Patrick just never thought Erin wouldn't take no for an answer. I liked this short story but there was something missing and I think maybe a few more pages of there relationship would have helped to feel more contacted with Erin and Patrick. That being said I think this story was well written and the epilogue at the end was a great end and gave us a glimpse into their future.

**Judith says**

A compelling novella about a not-unusual situation with so many of our men and women overseas and dealing with the injuries to mind and spirit, not to mention body, that war causes. For this couple who had been dating for six years--they were "first love" for the other--and engaged for two years, their relationship takes a hit that may or may not be lethal. War has changed Patrick and when he receives pictures of Erin at an office party, sees her delight and good humor, remembers the joy she has in her family and friends, he knows that he has changed. The war has ripped away his ability to laugh, to find anything positive about life. So he breaks their engagement by email. Luckily for him, he has a girl that won't let go, and when he returns home and finds her ensconced in his apartment, the tussle for Patrick's spirit, his inner health, and their future is on. It is a short story but there's lots here in these few pages. It is really a study of a relationship that could go either way.
