Bridled 3

Bridled and Bucked

[Siren LoveXtreme Special Edition: Erotic Cowboy Menage Romance, M/F/M/M/M/M/M/M/M, bondage, sex toys]

Lynlee Lewis McCain is a targeted woman. Unable to understand why she's another madman's bull's-eye, Lynlee relies on the McCain brothers to save her. But after one lunatic is put to rest, there's another one awaiting his turn—and he shows his face when he's least expected.

Blaine McCain wanted to love and protect his wife. In order to do that, he had to share her with those who were most capable of guarding her. Entrusting Lynlee's life in the arms of his brothers and best friend, Blaine works with his family to help defend the woman he loves.

Will the McCain brothers and Rhett Mitchell save Lynlee from a serial killer's protégé? And what risks will they take to safeguard the only woman they'll ever truly trust and love?

*Note: This book contains double vaginal penetration. There is no sexual relationship or touching for titillation between or among siblings.*

Genre: Contemporary, Western

Length: 40,485 words

# From Reader Review Bridled and Bucked for online ebook

## ValerieC says

I had to stretch to give this a 2 rating, but I made myself read it because I wanted to see what happened from the story angle and I have read the previous 2 books. I imagine that this is the last of this 'Bridled' series because it seemed to wrap up things instead of leaving a suggestion that there may be more to come.

I have read quite a few Natalie Acres books (10 +) and I have noticed that the last books in her series are not as good as the first... almost as if she just wants to get it over with and move on.

This is a sex book. It has a ridiculous story line, but some readers might not care about that since it's just a sex book. Our Lynlee Lewis from Book 1 morphed from a virgin in love with Blaine McCain (Book 1) into a nymphomaniac who now services Blaine and all of his brothers, plus their 'adopted brother', Rhett.

Amidst one psycho after another showing up to try to kill Lynlee, there are long, long sex scenes that are all but incomprehensible if you try to follow what they would be like visually. From the description, you would think someone is already on the bed, then they are put on the bed, then it seems they aren't actually there, and it's almost impossible to keep up with what guy is doing what to Lynlee. On top of that, no one wears a condom, which jacks up the EWWWW! factor greatly considering there are up to 8 guys involved. At some point, a person just has to skim through the whole mess and look to see if there is any significant conversation (no).

If you decide to read this, start with Book 1 or you won't understand who the characters are, or what previously happened. I don't even recommend this to people just looking for a sex book because it's all such an incomprehensible mess.

Natalie Acres has written much better books and this one really disappointed me.
