From Reader Review Everything Erotic Volume I for online ebook

Read2review says

As part of the Red Hot Book Tour we were asked to review these magazines. This review is the first of our reviews for Everything Erotic. Everything Erotic is a magazine that is produced each month with a print collection every quarter.

Where do I start?.....

Alice Gaines wrote some totally awesome stories! I loved Wonder Slut but it ended way too soon! I cant wait to read the next part in the second Everything Erotic!

Boone Brux introduced me to a different side of the Romans, one that I didn't know about. I was fascinated by the information she provided. Who knew the Romans were so randy!

C.J. Ellisson I cant wait to read her full work. The excerpt from "Johnny Living Dangerously" really made me want to pick up the novel and read it as soon as possible. It is now waiting for me on my eReader.

The above were my favourite from the collection however I would really like to say that the others were amazing too and I thoroughly enjoyed each of the shorts/excerpts and there are now a lot of books and authors on my wish list.

I cant wait to read more of this series!

I give Everything Erotic (Issue 1) a scorching hot 5/5.

Jennifer says

Review coming soon.

The Project says

There's some difficulty for me in piecing together a review for Everything Erotic, Volume I, II, and III, because by design, these compilations are a variety of articles, excerpts and short erotic tales from a group of smutalicious authors over at the Everything Erotic page. I don't really want to go into detail on each story, because, due to length, it would be too easy to spoil the plots for interested readers. So I'll try to give an overview without giving the stories away.

These three collections are definitely erotica. Not for the faint of heart. The stories get right to the down and dirty, and are explicit. I say this only so it is made clear to anyone who might trend toward the sweeter side of the romance genre: these are not for you. These stories are for the adventurous reader, and those looking for a bold smut-fix. The themes are varied. You've got a dash of BDsM here, a sprinkle of humor there, and the steam rolling off all the stories is scorching.

My favorite tidbits in the collection? I instantly latched onto Wonderslut, by Alice Gaines for the snappy, snarky dialogue. Randy Romans, by Boone Brux stands out because, well, I'm a geek, and I loved finding a hidden history/mythology lesson amidst the passionate plotlines. But believe me, what Boone is exploring is nothing close to what we read in our high school textbooks. Halloween Special-Cemetery Blues by Nickie Asher was an eye-catcher for me because I do love a dark edge to my stories at times. C.J. Ellison's sex toy discussion tackles the daunting question of, "What the heck does that Cone thing do, anyway?"

I think this is a great idea, the Everything Erotic collection, and I must rate on the concept as much as the content. It serves up a tempting appetizer for the erotica reader, and successfully showcases the various voices of the Everything Erotic authors. I liked the mish-mash of offerings: erotic tales, interviews, history lessons and more. This isn't just an erotica showcase. It's a test-drive to see what authors fit your tastes in terms of future erotica deliveries. It's an excellent introduction to the writers and a smart marketing device. If you're an avid erotica reader, it's almost a must that if you're willing to buy one book, you will need to buy all three to follow continuations of stories in the successive volumes.

--Joey, The One Hundred Romances Project

Kayla says

I have read erotic short stories before, and in this book these short stories tease you and leave you begging for more.

This is the first time I have read anything from this group of wonderful writers. Everytime I was really starting to get into each story it stopped and said "the story continues in Volume II" and I was like WHAT!!???? I wanted the stories to finish because they were so darn HOT and interesting.

My two favorite short stories from this Volume were the Erotic Vampire Hotel, and the Irish tale. I will definitely have to read Volume II to find out what happens next. I really enjoyed this Volume, and I just want to let you know that if you plan on reading this be ready to be bothered because these are some sexy and steamy sex scenes. I love how in each story I was able to actually visualize everything that was happening in them.

Everything Erotic Volume I will leave you pleading for more, so I suggest that all of you Erotica lovers go buy this and see for yourself. I stayed up late at night reading it because I just couldn't put it down. These writers are truly talented at writing this genre, which I'm sure is very hard to do.

In Erotic romances I've always read the normal tension building and then the characters have sex with no emotion. So it is "just sex". In Everything Erotic the short stories are fun, creative, emotional, and sexy. Another favorite part of mine was the Sex History, it was very enlightening and I enjoyed it. Definitely be looking for reviews on Everything Erotic Volume II very soon.

Thanks ladies for writing some steamy stories that kept me up at night because I couldn't put it down!

Annette M Guerriero Nishimoto says

Today's review will be on the Everything Erotic collection, volumes I, II, & III

Warning: These books contain explicit Sexual Content. Graphic Material. Adult Content. Mature Readers Only.

The Everything Erotic series is a collection of short erotic stories from authors Whitley Gray, Greta Goddard, M.K. Elliott, Nickie Asher, Scarlett Jameson, Boone Brux, Alice Gaines, CJ Ellisson, Danielle Gaven and Delilah Devlin.

Each of these fabulous writers brings forth stories that will curl your toes, make you blush, as well as leaving you wanting more and more. You will most assuredly want to grab your significant other to satisfy your own needs and hopefully his or hers as well. It's really to bad there is no snow on Kauai because I could have used some to cool off as I read each of these volumes.

Not only will you become aroused by these books, you may learn some interesting facts about the history of sex. There is some helpful advice on some toys and other products that may spice up your sex life. From lubes to rings it's all spelled out with where to get them and how to use them.

This series is a GREAT gift for the holiday season! It's time like these that I wish my family were Jewish. I could get one book for each day of Chanukah and read them all the season long. Pick up your copies early and check out the toy's section too. They would, along with the books make FANGTASTIC stocking stuffers!! I know I want some!! :)

4 of 5 stars for volumes I - III

Yekaterina says

The stories are too short to even count. They start and stop in 5 pages. It's not even tease worthy, just lacking. However if they were complete stories, it's a 4 star at least because the writing is enticing and serves its purpose.
