This book starts out on a very serious note, suicide. I think it would have been good if the author put the number for a suicide prevention hotline in the beginning and end, just in case the book touches a nerve.

Garrett is the strong silent type. He's been through a lot in his life, suffered a lot of losses and taken a lot of lives in his military career as well as his MC one. Now he's at a precipice in his life and jumping seems to be his only option.

Paige has recently lost her sister to suicide following a horrific incident, Paige blames herself for both. She too feels her only option is to end her life. Ending up at the same location, at the same time to attempt the same act just may be what these two need to save their lives.

This book has a lot of sad parts so be warned, it could be tear inducing. I liked both Garrett and Paige, but my favorite character is Saint.

“The baby-faced biker, wearing the kutte of a 1% MC, smoking a joint and drinking tea with a shot of vodka...wearing a thick gold cross around his neck and reading the Holy Bible.”

I really want the next book to be about Saint, but I don't think it will be.

This book has an interesting story line dowsed with steamy scenes. 4.5 stars Miss Cooke!

For me this series just gets better. As the series progresses I keep finding more and more story characters to be my favorite but, I think Garrett has turned into my absolute favorite character. This story was a page turner and we loved it from cover to cover and we couldn't put it down. For me there was always so much going on in the story emotional as well as the continuing club drama making it intriguing and suspenseful.

I loved both the main characters as you were at times overwhelmed with their pain and sorrow that both carried within them. For this couple you had to believe in fate as Garrett and Paige were put in one another's path for sure each becoming the others savior.

One thing that I love about this club and its members is that they are trying to make right the wrongs others are doing to innocents. This club has been trying to take down as many human traffickers as possible who are dealing in women and children. You got to love them for their cause. Being in this position of saving innocents Garrett was able to relate to Paige in more ways than one.

This tale really touched my heart and tugged at your emotions. Paige's pain was due to the fact that she believed she was responsible in some way for her sister's death. Garrett's pain was due to the loss he suffered from being at war and protecting our country and its rights as well as our freedom. So many of our soldiers end

up like Garrett and it breaks your heart thinking of the horrific things they have done and seen yet come away broken and unable to cope in the life they return to. For Garrett his brothers were his saviors for a really long time but, never really seeing how much pain he was really in. For me the most touching part of the story had to be the letters and the effect that it had on his loved ones. I have to say right then in there the tears started to fall and continued falling throughout the rest of the story. I love when a author is able to bring you to tears.

I always pick who's going to be my favorite character and mine is going to be Garrett. I just loved how protective and kind as well as loving he was. I loved how he took charge of Paige all the while putting his own life on hold as well as ending his own demons. This couple were good for one another and truly understood the kind of pain each other were in. Love was the true healing balm for this couple.

The chemistry between this couple was amazing. Holyhotness! These two were each others soul-mate for sure. I love being on this couples journey of healing and sacrifice.

Although the story was emotional and suspenseful it had many other secrets come to life that you were like omg! how did I not pick up on that before now! It was good to be surprised in that way and made things even more interesting. I love when you never saw that tidbit of info coming to light.

I love when you are able to connect with the characters that you are reading about and I was able to do that as I started loving them for the onset of the story. Let's not forget the other brothers as they made this story even more entraining as we love them as well. Each of them are so different from the other but, you see the love they share for each other how protective they are of each other and love and laughter is always guaranteed among this family of misfits.

I loved this story and I am loving this series. Arecommend read to all and it series!

Received an ARC at no cost to author.. We have another great book by Jessie Cooke, and we get a couple of different feels. We have Garrett "Bear" Banks who if we are familiar with series is a sniper, a killer, someone who has done a lot of things he can no longer take, he is a broken soul and it is time for soul searching. Then we have Paige, another broken soul, at whits end and thankfully they were what each other needed. My friends have tissues, and if you are not familiar with this series, I ask "What?"

Michelle Brace (Wicked Babes Blog Reviews) says

This book was such a hearbreakingly beautiful story of two lost people who have reached the end of their line and have decided to end it. Paige has lost someone close to her and the guilt, nightmares and so much more has become too much too live with. Bear has done stuff in his life that makes him feel as if everyone would be better off with him gone. He's a killer whose had enough but when he comes across Paige life is about to take a turn.

Will their connection be enough for them? Will they be able to move past their demons? One is about to get another hit in life, will it be the one that does them in or will they be able to heal and find their happy ending?

I highly recommend this book. Jessie did such a wonderful job with this book. The story line was gripping and had me completely engrossed in the story.

Oh my dear lord this author will drive me insane... Wanna know why? Because she has another MC book for me to read and I couldn't be happier. I love this series so freaking much.

Jessie Cooke is amazing and her books shows just that. Her writing is hot, raw, intense, fantastic and invigorating. Every single book made me love not only her writing but also this series as well and that, for me, is the cherry on top of the cake.

Have you read the Southside Skulls MC series yet? If you have you know why I'm like this, if you don't.... Dayum you really should. Despite all books are standalones you should read them all in order to understand this story better.

Garrett is her latest release and tells the stories of Garrett and Paige.

Garrett is a sniper in need of a change. He had his fair share of killings and now he's having second thoughts. He needs a change but how can he? His demons are haunting him and the nightmares are driving him crazy. Paige is hurting and sometimes when we are feeling like this we can only think of ending everything. And them Garrett enters her life.

How can these two tortured souls heal? How can they get back the joy of living? How can they trust each other to do the right thing when they don't trust themselves?

I knew that I was going to love this book but I couldn't imagine just how much. If I thought that the other books were emotionally exhausting now I'm not so sure.

The plot is intense, magnificent, engaging, suspenseful but also so emotional and raw. The interaction between the characters is beautiful and the way they help each other is breathtaking.

The story progressed in a way that I couldn't maintain calm. I wanted to keep reading and reading until I had all my answers. I'm stunned and happy as well.

The level of feelings portrayed in this book as well as love will make you rethink your life's purpose. There are things that we need to fight for but there are others that it's better to ignore them and move on.

Oh Jessie... What can I say that I hadn't said before? Let me just say that you my dear are amazing. Your books made me dream, made me smile, made me curse, made me cry and I wouldn't change a thing.

So just tell me! What's next? How long will I have to wait?

Wow this book smashed all my expectations. I love this series and this author's writing and this latest instalment certainly did not disappoint.

Garratt ?? who wouldn't want a 6ft 6" man mountain to steal your heart after saving you from making the biggest mistake of your life? Yup I'm at the front of that line. This man thought he was a monster and to some his actions may make you agree, but not me, not sure what that says about me ?? He had the biggest

heart and his interactions with Jessie - his daughter were beautiful and sweet and I just wanted to hug him. Paige, well other than her almost biggest mistake I loved this lady she had sass and didn't take any bs from Garratt, oh and she ask saves him so she's A ok in my books.

A story full of emotion, on more than one occasion I had a lump in my throat and tears in my eyes. Beautifully written with just the right amount of alpha male, drama and angst; everything I love in an MC book, this author captured. It wasn't overly violent, but as a standalone it was perfect. Looking forward to Wheelee.

Oh wow I was so waiting for this book after the sneak peak at the end of **Hunter** and wow Jessie Cooke has not disappointed me. Can I just say how totally swoon-worthy this gentle Giant Bear Garrett is!!!!!! Her writing is so beautifully raw and real. Her stories are intense and gripping.

Garrett and Paige are two beautifully damaged souls that have reached the end of what they can cope and live with and a chance encounter when they are at their lowest point might just give them back the will to live.

This plot is completely heartbreakng, its so raw and emotional. The relationship between Garrett and Paige is so beautiful to watch grow.

Each book in this amazing series draws me in more and more. I can't wait for the next book **Wheelee's**

Sweeet ending but tearful

This story was different than all the others. I felt so sorry for Garrett for the guilt he was carrying around about Beau. That was so sad and then Saint. My heart hurt so much for these 2 and Garrett having to live through it. No wonder he could not open up to anyone. Thanks to Paige and Saint, Garrett learned some lessons. The ending is sweet and sad so you will have read this story. It is a Happy ending but it will be a tearful one. I loved this one the most I think.

This is the 8th book in this awesome series and is Garrett “Bear” and Paige’s story. Bear is an ex military sniper, who struggled to find his place in civilian life, and joined an MC, but he turned nomad after being so restless and unable to settle. Paige is haunted by her sister’s rape and suicide, and feels unable to carry on suffering all of these demons, and decides to end everything. She is rescued unexpectedly by Bear. These two recognise in each other the demons they both suffer. No spoilers though; this is an absolute must read, you will not be disappointed!

This talented author always does an amazing job with the depth of her characters, and I was instantly enthralled with this story. I highly recommend this authors’ work for all MC lovers out there, and cannot wait to read more of her work.

Brilliant work Jessie!!

Great series

I do love these books. Not so sure about last two's place (this and previous one) as they're tenuous links to the Skulls. I'd have thought a better place would b as their own spin off series. Having said that u do see old characters popping in so it's not 99% out on its limb.

Also it would b nice for the action to b described in the moment and not as after thoughts. It feels stale when it's done completely in someone's head.

Wow, this story is so emotional. I cried, laughed and smiled throughout. This story hits on some heavy topics, but it was done tastefully. This kept me on my toes, and guessing what will happen.

I loved Garrett, he is so caring, and kind. The size of him might scare you, but he has a big heart. He is hopeless of showing his feelings, but when he cares for someone he cares with his whole heart. He loves his daughter, and the brotherhood. He is loyal.

I loved Paige, she is funny, sassy and feisty. She works hard at her job, but she is also connected to herself. She cares deeply for those she cares about, and would do anything.

I loved this book, it goes to show divine intervention can happen. I recommend this whole series. wtmo

4 Star Review

Garrett is book 8 of the Southside Skulls Motorcycle Club by Jessie Cooke. I have not read all the books in his series, but the beautiful thing about this author is you can read these out of order and still understand the series because each book is about a different member. This book talks about suicide so please be warned that the two main characters meet when they both are about to commit suicide. But the 9th way it's written is wonderful, it shows the progression of disparate a person must feel to contemplate suicide and then reflects on all that would have happened if they did leave this earth as well as making it clear they both have so much to live for.

Julie says

Garrett "Bear" Banks is a sniper, a killer. He's been asked to do plenty of bad things through his life, but he's had enough...his conscience can take no more, and he's decided his life has to change, drastically. But having a woman as an audience: was not what Bear had planned.

Paige wants her tortured existence to end. She needs help and Bear is only too willing to help out, making sure she makes the right decision, and ends her nightmares.

A story of two broken people who are searching for peace and find different lives and each other.

A very emotional story, with a tender storyline. Garrett was a surprise, he had many endearing qualities. And their closeness brought out feelings they'd both thought they'd never feel. A great story, that was well written. I'm looking forward to the next book "Wheelie".

Jennifer Pierson says

Garrett aka Bear and Paige meet when he comes upon her getting ready to commit suicide, so he decides to basically kidnap her, and take her to his club. What she doesn't know, is that he came upon her because he was planning to do the same thing. Both of them are battling serious demons that taking their toll, but fate has stepped in for these tortured souls to change their paths. Garrett was an angst filled journey that tried to bring me to my knees more than once throughout the telling of it, and my eyes did leak a time or two. Paige was a great heroine, that had gone through some bad things, while Garrett had a darkness in him through no fault of his own, that he couldn't work through, so his pain had my heart in a vice as I loved him so much. And the cast of secondaries added more depth to the story, and at times, made me laugh through all the pain as well. The storyline was fast paced & written very realistically with the emotions leading to people at the end of their rope. Jessie Cooke keeps getting better & better (if possible) with each new book in this series with her talented & writing style, and I'm very addicted to this series, so cannot wait for the next book!

HIGHLY HIGHLY HIGHLY RECOMMEND!

I received this in exchange for an honest review.

This is a story of two lost souls needing the comfort of each other. Never in a million years did Paige think that she would fall for a biker. And Garrett had his life planned out but what he didn't count on was a woman getting in to the mix of it. This book brought tears and laughter. It also brought a sense of loyalty.

I took a chance with this author seeing how I had never read any of her previous work. Sometimes it works and sometimes those chances don't. BUT. I fell completely in love with her words and story line! I can't wait to download the rest of the series and binge!
