(In the anthology An Apple for the Creature)

A tale from the Jane Yellowrock universe.

Rick LaFleur, former New Orleans undercover cop, now a black were-leopard stuck in human form, is at the PsyLED academy, training to become a special agent of the government agency that would, at one time, have preferred him to be dead, on a slab, and under autopsy. When he discovers that students have gone missing, he and his team go on the hunt to find out why.

Read December 2012 in An Apple for the Creature

Reread April 2015 in Blood in Her Veins: Nineteen Stories from the World of Jane Yellowrock

Lila says

Read as part of An Apple for the Creature anthology

Story is set between Raven Cursed and Death's Rival.

As my experience proved to be, Rick is not my favorite, but short stories in JY universe told from his pov are the ones I like and enjoy the most.

This covers Rick's training on his new job in PsyLED Spook School for the trainees. He ended up with two furry companions after the events of Raven Cursed - baby grindylow called Pea, and werewolf stuck in his wolf form named Brute by Jane. That's half of cuteness there already. :)

It's procedural story, not very relevant to Jane and overall arc.

Holly Booms Walsh says

Interesting look at PsyLed training

Carolyn F. says

I read this as part of the anthology An Apple for the Creature. It was not the audiobook.

Rick's life has changed so he's being trained for the new phase in his life. At the training, he helps to solve a mystery there. 3-1/2 stars.

[I sure hope Nell didn't get the same treatment from her fellow trainees! (hide spoiler)]

Delta says

3.5 stars

Karol says

3 stars. Would definitely read series

Julie (Jewls Book Blog) says

I'm not a huge Rick fan, however I did like this story. I loved Pea, Brute is growing on me, and Soul-Rick's trainer-was a hoot..in a scary kind of way, lol. And Rick himself was actually a bit likeable!

Choko says

*** 4 ***

Rick is training to be a special fed agent at the PsyLED academy. The little green creature that chose him as its pet is the best part of the story, of course):):)

Michelle Watson Forbes says

Rick has a new gig and it's very interesting. It's indicating a start of a new series. Should be good!

Short story during Rick's training at PsyLED with Soul as his mentor.

Jessica ✶▷ Silverbow▷ ✶▷ Rabid Reads-no-more says

3.0 stars

Short story from Rick's perspective. Takes place during his training with PsyLED.

I hate Rick.

At least there's Pea. *glares daggers at Rick*

Marianne says

3.5 stars.

Even though I love Jane Yellowrock stories, this one featured the Frenchy cheater at Spook school, and I'm not a fan of Ricky.

One thing though; when did Brute drop out of spook school? In the new book, he's living with Edmund - not working cases with Rick and his team.

Lisa says

Great to get to know rick and sol a little better!!
