HAKAN

Hakan never apologizes for being a lethal, barely civilized Hunter, but he understands that he has to be careful when it comes to his future mate, Payton. The pretty young Geek captured his heart long ago, but he was forced to keep her at a distance until she was mature enough to handle his feral nature. When he discovers she's been captured, however, he's done waiting. It's time to claim his female. Unfortunately, he didn't anticipate that Payton might refuse the mating.

Payton understands that there's nothing more important than discovering why their newest enemies are targeting the Pantera. And if that means putting herself in danger, then that's exactly what she's going to do, no matter what the arrogant Hakan might say. Of course, that's easier said than done. Especially when Hakan is clearly determined to seduce her. Does she listen to her pride, or give in to the urgings of her fragile heart?

SÉVERIN

Humans have always been the enemy.

Séverin has lived the last ten years of his life in his puma form. He is feral, predatory and angry at the human world. Born in captivity, the male is haunted by years of torture and abuse. And when he comes upon a human female running scared through his Wildlands domain, he wants nothing more than to get her back to the border. But as she finds shelter with him in his rustic treehouse, the male inside him starts to emerge, threatening his still-caged heart.

Until he meets her.

Running from her abusive ex, Taylor is desperate for a place to hide. She believes her only chance at life is the magical Wildlands. But with a war brewing, the Pantera species aren't too keen on letting a stranger into their fold. Luckily, there is one Pantera who might want the beautiful teacher to stay. A male who, like Taylor, is running scared. Can they both listen to their hearts and allow the first real love of their lives in?

Two short stories that while are entertaining they are both pretty short and the second one ends fairly abruptly. A little forward momentum with the clinic so that was nice. Overall good stories but not ones that I will remember next week.

~ 4 Hakan/Séverin Stars ~

Hakan/Séverin are book 11 & 12 in the Bayou Heat series. This series follows different couples and the events that plague them. Shakpi's curse is gone now and the humans have found out about the Pantera. A new and dangerous enemy has emerged and it wants the Pantera.

Individual reviews on each story below:

Hakan

By Alexandra Ivy

- 4 Stars -

Hakan & Payton are mates. Yep, he spurned her for her own good. Hakan is a very dominate Pantera. He needs a women who is sure of herself and enjoys his dominant nature. Payton at the time was a teenager, so she needed to grow into the women that she is. The sex is hot and steamy. I enjoyed that he had to woo her, seduce her heat back into caring for him. It was sweet! Holly hell in a hand basket the epilogue. Oh my god!

Séverin

By Laura Wright

- 4 Stars -

Taylor, human and running from her ex. Wants a safe haven in the Wildlands. Séverin, Pantera and spends his time as an animal, because he was imprisoned. We only get a little bit on what happened to him. He does not want to feel, but *"her scent, her touch, made him feel good and comfortable. She made him a male"*. I wasn't sure how Taylor would fit into the plot, but we find out. We also learn why this new and dangerous enemy wants the Pantera.

I have enjoyed each installment in the Bayou Heat series. They are fun, sexy, sweet, and romantic short reads. This series is designed to be read in order.

Torie says

Hakan pushed Payton away 20 years ago so she could grow and mature into a strong woman. Now she is every bit the strong woman he wanted her to be. He wants her to forget about the past and become his mate, Can Payton get past the pain he caused her so many years ago?

Taylor was in an abusive relationship. She was beaten and broken. She flees to the Wildlands to seek refuge from the abusive ex. She runs into Severin in his puma form. She isn't scared of him. She is attracted to him. Severin never shifts out of his puma form until he sleeps next to Taylor. For the first time in forever she feels safe. Will Taylor be what Severin needs to get back to using his human form? Will Taylor's ex just let her go? What is the reason Severin never wants to shift into human form?

I love this series!!! The authors make it easy to connect with these characters. They feel real. They have flaws but they love with an intense passion that makes you want to find a puma shifter all your own. I highly recommend this series but I recommend you start reading from the first book because you might end up a little lost if you don't. The only bad thing I can say is that these stories are way shorter than I would like them to be.

Hakan and Payton book 11

Hakan has kept Payton at arms length waiting for her to mature enough to mate with her (20 years!) but

hearing she is missing sends him on a quest to find her.

Hakan is sexy in the extreme and he and Payton set the pages on fire. She's resentful that he rejected her when she was young and though he explains why he did what he did, she doesn't want to just fall into his arms.

Payton annoyed me a bit with her game playing, she was purposely trying to punish Hakan and though she did eventually give in it didn't endear her to me.

The story progression is good, with more information about the sinister fertility clinic revealed.

Severin and Taylor book 12

Severin was abused at the clinic for years before escaping and now lives in his puma shape. Taylor (a human) is running from an abusive ex and is discovered by Severin who protects her. Both are drawn to each other and feel safe together.

I liked both of them and there is more information about the clinic and what the enemies are after. But the story was just too short and ended abruptly.

So This series is AMAZING!!! I have been in a paranormal funk lately not wanting to even touch a paranormal book because I read SO many for so long, but this series...I make time to read this series because not only is it an amazing series but the co-writing between Alexandra Ivy and Laura Wright is just so flawless it's like you're not reading something from two different authors.

Hakan

by Alexandra Ivy

5 stars

In Hakan we learn a little more about the Clinic and what is going on there...we also see the relationship between Payton and Hakan go from ice cold to volcano in a matter of minutes. Payton was hurt 20 years ago when she told Hakan he was her mate...he walked away and stayed away for 20 years. So now Payton "hates" Hakan but when they are alone tempers and passion flair and Payton can no longer fool herself into thinking she hates Hakan anymore.

Hakan regrets hurting Payton so long ago and when he finds out she has been captured and held in the clinic all thoughts and reason for staying away vanish and he sets out to find and claim his mate.

We also see a little more about Hiss (and he...I cannot WAIT to read Hiss's book)...Hiss has always known in his heart that his family wasn't killed and now he wants answers but while trying to get answers he finds himself in the mercy of the very man who may well have taken his family. There is a surprise in the Epilogue with Hiss...I won't give it away but it will be interesting to see how Hiss's story turns out.

Séverin

by Laura Wright

4.5 stars

Although I did LOVE Séverin's story...I loved Hakan's more.

Séverin had such a horrible past being captive at the Clinic and then he found refuge in the Wildlands but refused to come out of his puma state.

Taylor was a captive in her own right and neither one knew just how close to one another they had actually been. Taylor's ex Edgar works for Locke in the Clinic...where oddly enough is where Séverin was poked and prodded for who knows how long until he was able to escape.

When Séverin finds Taylor he is untamed and most definitely wild...unable to or just not wanting to shift. Taylor brings him out of his wild state and gives him something he never thought he would find.

By the end we still don't know who Locke really is or who he is working for. We know little about Christopher and even less about what they want with Hiss but we are also left anticipating what will happen next.

These two have once again given us an amazing book with Hakan/Séverin and I cannot wait until the next installment comes out!

"Bayou Heat: Hakan - Severin" by Alexandra Ivy and Laura Wright. Books 11 & 12 in the Bayou Heat series.

I am loving this novella series! Alexandra Ivy and Laura Wright have created a world of large-cat shifters, the Pantera, that you can't help but fall in love with. The female characters are just as strong and intriguing as the alpha male characters. Each novella flows into the next seamlessly.

The first story is **Hakan** by Alexandra Ivy.

Payton is a Geek for the Pantera. Her computer skills are a great value to the community and now she's going to use those skills to help the Pantera find out why Pantera females have been kidnapped by a human named Stanton Locke. When she gets captured, it's exactly what she wants, giving her time to break into the computer system to download files with information that can help. The last thing she expects is to be "rescued" by the last person she wants to see...Hakan. He broke her heart 20 years ago and now he thinks he can just come back and claim her? Well, he has another think coming!

Hakan is a Hunter for the Pantera. The moment he learns that Payton is in trouble, he has to rescue her. He's feels terrible about what happened between them 20 years ago and he'll do anything he can to make up for it. Payton was too young to claim back then, but now she's grown into a beautiful, independent, strong-willed woman. The perfect mate to stand up to him and put him in his place.

As Payton and Hakan work together to solve the mystery of the missing female Pantera, they also find out that Hiss, a fellow Pantera male, has been kidnapped by Stanton Locke right before he was to be questioned about his betrayal to the Pantera.

This story ends with a very exciting cliffhanger and a shocking revelation for Hiss about his family. (He is

part of the overall new storyline for the series.) The storyline is fast paced and gets right down to the details needed to further along the overall new storyline that started in the last novella "Roch."

The second story is **Severin** by Laura Wright.

In this story, we meet Taylor, a human woman running for her life from her ex boyfriend that won't take no for an answer. She runs to the Wildlands hoping that she can find refuge with the Pantera. When a puma literally knocks her over, she pleads her case but he won't turn human to speak with her. She needs to speak with the leader of the Pantera, Raphael. Surely he can help her and keep her safe. But she can't deny that she feels safest with this mysterious puma. When she does see him shift into a human and tells the other Panteras, they can't believe her. Because Severin hasn't shifted since he's come back to the Wildlands...in 10 years.

Severin can't explain why Taylor is so appealing to him. He hates all humans since he was kept prisoner by them and abused mentally and physically. He needs to stay a puma. He's safe as his puma. No one can hurt him when he's a puma. But with Taylor, he needs to be a human male. When she tells him of her past, he can't help but feel protective of her. But can he overcome his own past to be happy with a human woman? Does he even deserve to be happy?

This story was so well written! You could really feel the emotional struggle both Taylor and Severin have to deal with regarding both their pasts. As the love story progresses between Taylor and Severin, more information is revealed regarding the overall series plot. Why the Pantera males and females are being taken and why human females are being impregnated with Pantera sperm. No real cliffhanger ending in this one but you are left wondering what is going to happen with the overall series plot.

Overall Comments

I really really loved these two novellas! The imagery and descriptions in both were so vivid and beautiful. You can't help but fall in love with all the characters. The chemistry between the couples, Payton and Hakan, Severin and Taylor, is off the charts HOT HOT HOT! I'm loving the new series plot and can't wait to find out what is happening with Hiss and his family! I can't wait to read the next one! Bring on more Pantera!

REVIEW: HAKAN is the eleventh novella in the Bayou Heat paranormal romance series. Written by Alexandra Ivy, HAKAN focuses on Pantera Hunter Hakan as he is pushed to his limits when his unclaimed mate Payton places herself in danger as she attempts to download encrypted information from the computers located at a facility where a number of Pantera shifters have previously been held captive and tortured.

HAKAN is a storyline where two Pantera shifters know they are one another's mates but twenty years have passed without Hakan claiming Payton or letting his feelings known. It is only when Payton risks everything for the secreted files does Hakan realize it is time to claim his wayward mate.

Alexandra Ivy continues to engage the reader with her up close and personal accounts of the Pantera shifters of New Orleans. The Bayou Heat series is a wonderfully enchanting series about a species on the brink of extinction, whose hope blooms with the birth of the next generation.

A male who, like Taylor, is running scared. Can they both listen to their hearts and allow the first real love of their lives in?

**REVIEW : SEVERIN** (written by Laura Wright) is the twelfth novella in the Bayou Heat paranormal romance series focusing on a species of shaping shifting felines known as the Pantera. This is feral Pantera shifter Severin and Taylor's storyline.

The focus of the storyline finds Taylor on the run from her human ex whose made it clear that she belongs to him. Hoping to find freedom and protection in the Wildlands of the Bayou, Taylor heads for places unknown. Face to face with a Pantera male in all of his unshifted beauty, Taylor knows that the Wildlands is where she belongs.

Severin has not shifted into his human form in over ten years but finding a human female stirs something deep within Severin –a call to mate; a need to claim. But the other Pantera shifters fear for Taylor's life when they discover that Severin has claimed Taylor as his own. It is only when Taylor

reveals a little bit about her past and the need to run do the Pantera's begin to understand her connection to their kind.

**Laura Wright's BAYOU HEAT series of novellas is a seductive and provocative look at the paranormal. A feline species of shifters whose mating instincts are heartbreakingly, fascinating and startling real-a series of romance novellas for the paranormal lover in everyone.**

### **CC says**

4.5 stars (I just cannot give 5 whole stars to novellas).

I loved, loved, LOVED these stories! By far the best of the series!

Hakan met his mate years ago, when she was a kid. Her crush turned into love, but she was not ready. He was/is a domineering alpha. He knew with her desire to please him, that he would crush her spirit and she would never be the woman she should. So he walked away. Letting her think some terrible things to make sure she stayed away. Not my favorite plot, but it worked. I understood, believed him and forgave him. More importantly, she did too. It helped that (view spoiler) Yes, 20 years is a long time, but not in the life of a Pantera. So we humans have to not get too upset it was so long in. Human years. Payton was in danger, so all bets were off! She did not forgive immediately, thank goodness! But she did not push him away for the sake of it either. I was ok with the reunion. He did something special that made me sigh. So sweet! This story had romance, sizzle and a lot of important things happened in the overall story. It is exactly what I have been waiting for since the first book!

Severin escaped a testing facility 10 years ago and has been locked in his Puma ever since. He lives in a tree. Literally, inside the hollowed out trunk of a tree. Taylor is running from an ex her abused her physically and emotionally. She runs straight into the Puma. There is a connection, but he is confused because all humans have ever done to him is hurt him. They spend a lot of time together with him as a Puma. Taylor never judged him. She accepted him as he was, treehouse and all. It was actually sweet. It was not weird. But being with her allows him to try to be a human male again. Not without some issues, but he does it for her. The dinner at Rafael and Ashe's house was so funny! Anyway, I thought their relationship was so sweet and special. Two damaged souls coming together. And again, more big stuff happens in the overall story!

Now I am really excited for the next book and hope these authors keep it up!

Safety gang safe.

Again, the rating is for erotic fluff. A nice break.

This one was harder to rate because I really like Severin but not so much Hakan. Mainly I was bored with

Hakan and thought he did something really stupid. And then Payton, if she is going to forgive and give into sex, just holds him off out of spite. The ending was good.

Severin was better because he is damaged to the point of hiding in his puma. Taylor need rescuing which helps him heal. The over arch here gets pretty good with more information on the facility burning down and who these people are.

The over arcs move pretty slowly, but the relationship move really fast. Pretty good erotic short stories.

Rating~ 3.5 stars.

This is the 11th and 12th book compilation in the Bayou heat series. These are very short stories that follow different couples through the events plaguing the bayou. I just wish they would be slightly longer but I did enjoy the book.

### **Heather andrews says**

#### **HAKAN:**

Hakan he's a little erm...possessive, "he snarled at the soft taunt. Now that his possessive urges have been unleashed, the mere thought of another Pantera offering his protection to this female made a red mist cloud his brain." I totally don't blame Payton for getting distracted while Hakan's around, "were there-" She forgot how to speak as his jeans dropped to reveal the large thrust of his c\*\*\* that was fully erect." She tries to be subtle when giving compliments, "I think your head is big enough," she said, her attention lowering to his c\*\*\* that instantly hardened beneath her gaze. "Along with other parts of your body."

#### **SEVERIN:**

Let me start off by saying that Severin is the most animal in this series and that is why he happens to be my favorite. I loved how Taylor felt so safe with him even if he couldn't really shift into his human form, "in fact," she added. "I haven't felt that safe in a long time." She smiled shyly at him. "Even waking up next to all the naked male flesh." A rumble of pleasure moved through Severin's chest. No, she didn't fear him." I loved how he wanted to mate with her right off, "his mouth on her ear. "The need to bite you, hold you still, hold you in place while I eff you," he growled. "Is so strong." I really can't wait to see what two Pantera's are next for the series.

### **Dotti Elrick says**

Hakan and Séverin are books eleven and twelve in the Bayou Heat series. Unlike other series, these books cannot be read as stand alone stories. The two short stories are more like individual chapters of a much larger book.

I like the series and the story. Each tells of a Pantera male who finds their mate, while expanding the ongoing

story of these puma shifters fighting the humans, their deities and at times some of their own for their very survival.

Hakan has been a very patient male, he's done the right thing and waited twenty years to finally claim his mate Payton. After being rejected by Hakan, Payton's human half wants to make him suffer and earn her, while her puma half recognizes its chosen mate and is ready to be claimed. What's a female to do? Love him, or leave him?

After finally escaping his human captors, Séverin has lived only as a puma for the last ten years. Until Taylor finds herself deep in the Bayou looking for the one place she hopes will offer her some protection from her abusive ex. In the Wildlands of the puma shifters. Two abused, and broken people, who can each help the other heal.

Start at the beginning, and catch the whole story, it's worth the read.

### **Theresa says**

1) Hakan is a guy who acts first and thinks later. When he finds out that Payton, whom he'd known since a young girl, is a prisoner at the Haymore Center he hurries off to rescue her. Fortunately Payton is smart and rational enough to handle him. Payton & Hakan's history together is interesting, though I would have wanted a lot more apologizing before I killed him. And Hiss gets a new 'friend'.

2) Se'veran: I loved this one. It's so different from the others since Se'veran is feral and lives in a tree. It's like a Tarzan & Jane story if Tarzan was a shapeshifter. At the end, even though I knew it was just a misunderstanding, I still was crying so hard I couldn't see to read.

Quick Thoughts: 1)'Why does it always have to be ducts?' LOL

Fave Scenes: 1) Payton putting Hakan in his place at the center and at the safehouse.

2) The patrol and Ashe's dinner party.
