### **MAY CONTAIN SPOILERS**

I love having a short story which leads to the main book, the back story always helps when you start reading the main book, in this case *Compulsion*, I will be reading that one next, I loved this novella, I love the title by the way, just had to say.

We meet Aileen or Leeny as everyone calls her, a teenager on the precipice of joining the local coven where her mother is the head witch, *Haunted Moon* gave me a great insight into the mind of a witch to be, although this was set in 1947 in Galway Bay, it could easily have been set in our generation of teens.

Leeny has been given her first Grimoire by her mother, This is where we first meet her as she starts writing in it, she is being taught by her mother, Rose, on how a witch uses her powers and abilities to eradicate the bane of the human world, The Vampires, which were accidentally brought into this world by an ancestor of Leeny's called Ana, who went a bit mad after her fiance was killed, she conjured him back to life as a vampire, so because of this, the witches use their powers to destroy them, Leeny has to learn how to protect the people in her village and of course her family, which is alot for a young lady to take on, but on top of that, she also has to be initiated into the Moon Coven, the trials and tribulations of training was very insightful, I would love to be able to control Fire, like Leeny and her mum, she is also having to keep on top of her studies at school, during training one night her mother fights with a vampire, Nicholas, which leads Leeny to believe that her mother enjoyed it a little too much, which makes her think maybe being a witch may not be a good thing, Poor Leeny has so much to deal with, she has a sister called Colleen or Colly, who desperately wants to be in the coven, but she is not old enough and so feels that Leeny has been given a gift that she is not using correctly, so starts being mean to Leeny, I felt so Sorry for her, she was so alone for a while, Leeny goes through a patch of not wanting to commit murder or kill vampires, until she comes up against one, I would recommend reading this one, I loved this book and cannot wait to read *Compulsion*.

Where to start? When I first read *Compulsion* I was in love. It was one of my first true five star books for review. So I was very excited when Kymberlee Burks-Miller posted that she was coming out with novella series books based on the Moon clan. It allowed me to continue on with the Moon family addiction. Luckily for me, *Haunted Moon* did not disappoint.

The first in the Moon series starts with Leeny Moon. Leeny has just gotten her first grimoire.... the same grimoire that Lilyann finds, and uses, in Compulsion. Haunted Moon follows Leeny through her first experience with a vampire, arguments with her mother and sister, her initiation and the meeting of her husband. The author uses the ending to set up nicely for the next book in the series.

While Compulsion is temporarily off the shelves, you don't have to worry because you can read Haunted Moon without having read Compulsion. This is a novella, so it's a quick read. Once I picked it up, I didn't put it down. But then again, I was compelled a long time ago :) I highly suggest picking up the first book in the Moon series, getting attached to the characters, and waiting patiently for the next novella or the re-release of Compulsion.

I was not paid for this review, in fact I purchased the book on my own. My opinion was in no way swayed, these thoughts are my own. Thank you for taking the time to read. Have a fantastic day. -Melissa

### **Anne (Angel Anne Reviews) Nelson says**

“What a powerful little package,” that’s what I found when I read Haunted Moon!! They say that good things come in little packages, but so does dynamite.. Well in the case of this explosive novella, that’s a good thing J

I absolutely loved this novella, but I didn’t want it to end so fast.. Ugh L Thank you Kymberlee for such a explosive read.

Lenny is a young witch (or soon to be witch) in the most powerful of covens, the Moon Coven. Not just any witch, but the thirteenth female Moon witch. She learns early in her youth that she had/has powers, but had no idea fully just how powerful she was or world become as her powers grew.

Haunted Moon will take you along a fast paced ride, full of so many trials and thoughts as Lenny struggles with the full impact of becoming a “Moon Witch”... then to finally come to the realization that it IS her destiny, and that she can protect her loved ones from some pretty evil vampires. Her family aren’t the only ones who need her help and protection, but her whole town does too!!! Will Lenny succeed in protecting those that she loves, and need her? Your going to have to read this series to find out... (sorry I’m not going to tell you)

I haven’t had the opportunity yet to read Compulsion, but if Haunted Moon is any indication of whats in store, then I must hurry up and get my TBR stack wilted down!! And fast, so I can read it.

A MUST READ.

Recommend: YA and up

Rating: 5/5

## **Paranormal Reads says**

I loved this novella. Being able to see another side of Lenny before she became a kick butt Wiccan was great.

We get to meet her at sixteen right before she becomes member of the Moon Coven and see her struggle with becoming a witch and fighting for those she is suppose to protect. But one day everything changes when her sister is threatened. Lenny looks into herself and finds the courage she needs to stand up to the vampires and accept her place in the Coven.

I loved the little bit we earned about Lenny in Compulsions so when I heard there was going to be a novella about her I was so excited. And let me tell you K.B. did not disappoint me with. I had imagined Lenny has this strong kick butt witch all the time but just like Lily she had doubts. But when it mattered most Lenny found the courage she needed. I can see so much of Lily in Lenny. I can't wait to read more and learn about Lenny has the series goes. 5/5 bats

## **Lynn Worton says**

This is a novella written by Kymberlee Burks-Miller which shows Leeny Moon, Lilyann Moon's grandmother, as a teenager growing up in Galway, Ireland. This is a fantastic short story that shows a teenager on the cusp of being accepted into her family's wiccan circle. Leeny is a strong character in Compulsion, but in this novella, we see her as an uncertain teen who is only just learning her craft. I thoroughly enjoyed this novella, and hope to read the next story in the Compulsion series soon. If you haven't read Compulsion yet, I suggest you read this novella first and then Compulsion. However, if you have already read Compulsion, I still recommend this novella, as it gives an insight into Lilyann's

grandmother's character.

This is the beginning of a truly good story to Compulsion. This is Leeny's story and her beginning of becoming a Moon witch and her acceptance of her gift. Ms. Burks-Miller has a wonderful way of telling her story.

I give this sweet little Novella 10\*s!! It was an awesome perspective on Lenny's thoughts about becoming a witch and the trials she she struggles with in her thoughts. To finally realize that its her destiny and that she can take on the responsibility to protect not only the ones she loves but the people of the town against the bad vampires. Thank you Kym for the awesome little Novella!! This is a Must READ!!!

I am so excited, because if KB Miller can draw us in with this novella, I can't wait to see what she can do with a full length novel or a serial novel. I really enjoyed Haunted Moon, and am excited to read Compulsion when it releases. This is a great way to get a feel for KB's writing style.

Loved this novella. I haven't read Compulsion yet, but had no issue understanding what was going on in this short. From my understanding, the events in this book happen before the storyline in Compulsion. It revolves around Lenny, and her coming of age to be initiated into the Moon Coven. You will learn the frustration, fears, and doubts, that Lenny endures during her witch in training process. In gives you and insight of how life was with her family and what role each one plays. The author has me hooked and wanting more. Can't wait for the re-release of Compulsion so I can read more about the Moon Coven and what their future holds. A must read for witch lovers!

### **Delphina says**

What a wonderful treat! I loved compulsion and was happy to see that there was a prequel! I actually picked it up the first day it was available. This is the story of Lilyann's grandmother and she was such a powerful influence in the lives of the characters in Compulsion that I was immediately drawn into this novella. One of the nice things about this novella is that if you are a compulsion lover, it adds to the tale. If you are new to the world of Compulsion, it gives you a chance to explore it and Kymberlee's writing style a bit. I did run into a few typos, but overall the story flowed beautifully. I am so looking forward to the next book in this series.

UPDATE: I have just discovered that the book was rereleased with the editing fixed, so new downloads should not have any issues :).

I really enjoyed Haunted Moon. I usually do not read books that are mostly about witches but Kymberlee Burks-Millers really made it an intriguing read. It was an easy read and the story flowed well. It kept my attention and had wanting to know what was going to happen next. I can't wait to read the next book to see how the story progresses.

Leeny Moon is about to be initiated as a full fledged witch. Her mother brings her out one evening to start her training. Leeny knew that as a witch it was her job to kill vampires in order to protect the world from their mindless bloodthirsty habits. But seeing her mother kill one sent Leeny into shock and turned her off from wanting to be a witch. This leaves her mother and younger sister upset with her. She must find a way to come to terms with her inherited gift as a witch because the witches in her town have started to disappear. And even stranger is that now the children of the witches, who have yet to be initiated into the coven, have been targeted by a group of vampires. Will Leeny be able to accept who she was born to be? Will her mother and sister forgive her for offending them by saying she did not want to be a witch and kill vampires? Can she get past the horror of watching her mother kill a vampire in order to be able defend herself and her family from the vampires that are stalking the local witches?

This is a novella by K. B. Miller about a young soon to be witch.

Leeny is in line to become a powerful witch like her mother is and grandmother was. Leeny is lead the coven someday. She is prepared until one night a vampire attacks her and her mother Rose. Rose stakes the evil vamp. Leeny watches it all unfold and from then on doesn't want to become a witch if that is what it entails. This really upsets her younger sister who keeps being told that she isn't mature enough to be a witch just yet, but who wants to be a witch so bad. Then Leeny saves her sister from an one hundred year old vamp and Leeny then decides that she can do this.

This was a great, short read that left me wanting more. What a great intro into The Moon Coven Series. I can't wait to find out what happens next!!!!

### **Paranormal Books R Us says**

I loved this book! It was a wonderful back story to see how things started with Leeny Moon and the decisions she had to make for her life and family. It was a quick read which is great if you're short on time and totally worth it. I haven't read the other books in this series yet and you don't have to to get completely swept away in Leeny's story. But I can tell you I can't wait to read Compulsion, and Harvest Moon because I have to know what happens next in this magical series. I'm Hooked! :)

**K.B. Miller says**

I am so proud of how Haunted Moon turned out! I have wanted to write Leeny's story for a very long time, but things were getting in the way.

I took a week, and let ,Aileen Fionna, tell her story. I hope that you enjoy it! Please leave me a review.

Love, Hugs, and Kisses,

Kymberlee xoxo
