Hayden

I am a hothead, a wild card, and son to a murdered man.

I crave the things I can't have and don't want the things I can.

Now, I'm left to pick up the pieces—stitch our family back together with a damaged thread.

This isn't the life I envisioned. And to make matters worse, the women in our lives are testing the strength of our brotherhood.

My name is Hayden Pearson.

I am the eldest—a protective, but vindictive son.

People may think I'm too young to fill our father's shoes, but it won't stop me from proving them all wrong.

\*\*\*\*

First came the Four Fathers. Now it's time for the Four Sons.

Nixon (Four Sons, #1) by Ker Dukey

Hayden (Four Sons, #2) by J.D. Hollyfield

Brock (Four Sons, #3) by Dani René

Camden (Four Sons, #4) by K Webster

## From Reader Review Hayden for online ebook

### Kahea says

\*\*\*5 Stars\*\*\*

Quick, fun, crazy (Like kinda BSC kind of crazy), smexy and emotional.

Hayden is arrogant, vindictive and is holding on to an anger that is threatening to destroy him, and yet underneath it all there is a heart that is loyal and protective to those that it deems worthy.

The romance was actually quite interesting when it came to who the woman was that captured Hayden's heart, how chaotic it ended up being and how it was revealed, but it all made sense and it was through Hayden's relationship that I got to see his heart and just who the man beneath the armor was. It also showed how patient, compassionate and strong the woman who chose to love him was.

This was another fun, crazy, a little dark, but full of heart addition to the Four Sons, and Four Fathers, world. Hayden's love was a bit of a surprise, but it soon became clear that they were a perfect fit, despite the various issues they faced. As for the main issue that came out to play in this one. It wasn't a total surprise, but some of the things that happened while it worked itself out was. In the end, I loved how it all worked out and where at least half of the Pearson boys were at when everything was said and done. Now we wait for Brock!

### Ana (thestarslisten) says

#### SPOILER FREE

If second chance romance is your thing, then Hayden's story is for you. I am such a sucker for this kind of romance! I've been rooting for Hayden and this pretty girl since their love story started.

Being the eldest his life made the 180 turn instantly over night. He's got huge responsibilities to his brothers, and especially to the empire her's been inherited. Where does that leave love?

*He was troubled and lost. But he wanted to be saved so desperately.*

This book has a lot of emotions, pain, and heartbreak are the sole focus. Though I think all brothers have it but Hayden is the one that's expected to be the rock for being the eldest. He's the one who needs to get all his shit in order.

*My father didn't raise his four sons with the vision of us blossoming into decent, honorable men. No, he made sure we were groomed to become leaders. Fearless warriors.*

Brock is coming up next and I hope it's what I think it is and I am so damn excited. The Pearson brothers are each intimidating in their own way and together, they are terrifying.

### **Sabrina The Trash Queen says**

Interesting, will probably read the following books but not the first.

---

### **Kinky Minx says**

Thank you for the ARC from the author in exchange for honest review.

This is the second book of this series, Hayden. He is the eldest son and after the death of his father, he is now in charge of his brothers and the company his father left for him.

Hayden always thinks he not only looks like his father but also acts the same to his father.

Until Katie appears in Hayden's life, she turns Hayden's heart upside down.

"I love you, Katie.  
You're my angel.  
My Life.  
And whether you like it or not, one day, you will be my ..."

The plot is great, but I would say Nixon is a lot better. The story to me is easy to read with. With all the emotions brought out from each different part of the story, I too felt heartache for these kids. Poor Hayden deserves to be happy too, even with all the burden on his shoulder, he should look clearly around himself, surrounded by love from his family and friends. Overall 4 stars, great but not the best yet but still great. Awaiting for the next book from this series.

## Alyssa says

3 Stars

Novella 2 of 4 of Four Sons. Second novella series following Four Fathers.

You know what? This wasn't bad at all. Dare I say, it was actually kind of cute. Much more lovey-dovey than I would expect given the nature of these reads.

Am I saying that's a bad thing? Not at all. BUT, if you're knee deep in this series there's a running theme of kink, taboo, depravity, complete WTFery. So in the context of this series, it kind of sticks out like a sore thumb.

Hayden is arguably the biggest a\*\*hole of all four brothers. And who would've known at his center you'll find a secret loving core. Him and Katie were cute. Except, I can't really say much about Katie because not a whole lot was given.

But what I found lacking given that this one was pretty tame, was that they also already started in love! This was kind of very shortened version of a second-chance. And nearly half the novella goes from past to present.

So at the end of the day, this was still a fun read. I think it lacked on the romance development. And it just didn't quite fit in to me. But hey, you could say it served as a good palate cleanser since quite a few of these have ranked high on the WTF scale.

## Sophia Triad says

*Katie.*

*Katie.*

*Katie.*

*FUCK.*

*The name dissipates any anger I feel toward Trevor.*

*Katie.*

*Katie.*

*My Katie.*

This book was highly anticipated by me. I was looking forward to reading about brooding, bad Hayden and maybe how a woman would change his life. I have to say that I was disappointed....

I think it is very hard for four different authors to write a continuous story in 8 books without gaps in the story or maybe a few inconsistencies. But I really I cannot accept the fact that a guy like Hayden is obsessed with a girl for several books, Rowan, and suddenly he is obsessed with a different girl without even acknowledge the first girl at all!

I think that was my major issue.

But apart from this, I did not find the twists interesting or believable. And I did not find Hayden's character, decisions and approach believable.

The story was all over the place.

Two stars for the story. And one extra star for Trevor's appearance. Because, let's face it, he was the true star of this book one more time.

### **Tricia Bartley (iScream Books) says**

Y'all book #2 Hayden by JD Hollyfield is here!!!! If you have been keeping up, first it was Four Fathers and now we get Four Sons!!!! And Hayden's story is next...eeeppp I love this grumpy ass boy!!! lol

Goodness I was beginning to worry for poor Hayden. I mean don't think he needs pity though, he is such a hot head and will whip your ass for looking at him wrong. But he just can't catch a break.

After a tragedy, he is left to run the company he never wanted to run. He always feels he has to prove himself to the other boys. Hayden is the first born but they all seem to think he took something from him just because his dad left everything to him.

Hayden just wants his life to go back to the happy, fun times from before. Pool parties, cooking out, drinking and lots and lots of women always around. But that isn't going to happen any time soon. Every corner he turns there is some kind of shit he has to take care of which made this book such a page turner!! And I didn't even mention all the drama regarding his love interest..lol

I gave Hayden 5 iScream Books Cones!! I definitely am loving this series and can't wait for more!!!

\*\*\*This series should be read in order to understand the plot.\*\*\*

### **Chantal Rodriguez says**

Ok so again I didn't see this one coming! WOW these girls really are doing a 180 with this series! I went in thinking "Ok so how is she going to make Hayden funny!" never did I image she would actually make me cry! yes, CRY? This is a 1st for me from Hollyfield. I enjoy her books usually because they are so funny. Her style is different and I love it. But this book here, she caught me by surprise.

Hayden is the oldest brother. He is to take over after his dad. Its not something he wanted but fate made this choice for him. He is kind of an Ass! but soon you come to realize he's just a trouble soul!

Nothing could have prepared me for this book. I seriously went in thinking one thing and got the total opposite. But in such a good way!! J.D knocked it out the park with this one! She had me with all kinds of feels. Its a short read, but so perfectly written. I devoured this book in one sitting, yet I felt I was in the world with the characters for a few days, when really it was hours!

SO far this series is going so good. Can't wait to see what's to come.

### **warhawke says**

**Genre:** Contemporary Romance

**Type:** Book 2 of 4 from Four Sons series

**POV:** First Person Dual

**Rating:**

Hayden Pearson had a plan for his future. But that plan blown up to pieces when their family was shaken up by a tragedy. As the eldest son, responsibility to the family and the company fell on him. He did his best and rose to the occasion but he didn't expect Katie Fairchild who he thought was his past to rattle his future.

*He's incredibly intense. Like a force I have no chance of running from even if I try. I'm in love with him, and it's so deep, it almost hurt.*

Throughout the series Hayden was said to be the most like his father. In a way I could see that with the asshole tendency lol! What made him different is that he actually cared for other people. I understood the burden he was forced to carry, but at times he sounded whiny, needy and immature.

*He doesn't need to say anything. He can see he still has that control over me. He always has.*

Katie brought a good balance into the relationship. She was calm and caring, and they found each other when they needed it the most. However, there were certain instances that felt off when she acted out of character.

I liked how the story addressed things that needed answers from the last book and some suspenseful element added more excitement to it. I also liked Trevor and his role here, but I did feel he might be too prominently featured on a book that is not his own.

*I know he's hurting. I feel it in the way he's holding me so close.*

Hayden is a story of acceptance and forgiveness. It would appeal to fans of second chance romance.

Hayden is a hothead and a wild card. And now he's left to keep the family together and prove himself in the business world. He can't fail and he'll avenge and protect his family. He may be young but he's more than capable of taking his place as the head of this family and company. Even though he never wanted any of this.

“Selfish. Spoiled. Unapologetic.

That's who's staring back at me. A constant reminder of the person I am. Who I've become. A man who sees something he wants and takes it.

Just like him.”

These Pearson brothers keep me on my toes. I really didn't see some of these twists coming. Hayden has been left with the responsibility to keep the brothers together and fill his dad's shoes at Four Fathers which is something he never wanted. We see Hayden go through all of types of emotions as he seems to think he needs to avenge his father. Or is it revenge? Add a confusing woman into the mix and I really didn't know how this story would go. I've always got the impression that Hayden was the brother that was off the rails. But this book gave me the behind the scenes look into his selfish behavior. I can't wait to see what's going to happen next because these brothers come together when the road gets rough. I think we're in for some more crazy turns with Brock and Camden waiting in the wings. You need the Four Sons!

These books are so much fun to read and if you like the dark and twisted stories, you need these immediately! Every single brother has these naughty secrets that you just can't wait to find out. They all are most definitely Eric Pearson's sons.

---

### **V&#x1f49c;Greedy~Thirst~For~Forbidden&#x1f5a4; says**

Book two and I can say I still think Eric totally deserved the end he got ?

Nixon got some brownies points for being the protective twisted son he is. And it was also nice to be reminded Jax is no more ?

Hayden thought he was the spitting image of his father and I'm so glad he saw the light and realised he's nothing like him.

It looks like the sons are just as twisted as the fathers but they seem to improve as they evolve.

All in all the series seems a bit OTT but I want to see it to the end as I need closure ?

---

### **Renee says**

I received a copy of this book from the author/publisher to review for Stephanie's Book Reports.

Hayden is the hothead, a wild card, and son to a murdered man. He craves the things he can't have and doesn't want the things he can. Now he is left to pick up the pieces-stitch their family back together with a damaged thread. This isn't the life he envisioned. And to make matters worse, the women in our lives are testing the strength of our brotherhood. His name is Hayden Pearson. He is the oldest-a protective but vindictive son. People may think he is too young to fill his father's shoes, but it won't stop him from proving them all wrong.

I was so curious about Hayden from the glimpses of him in Nixon. He seemed like he was such a troubled soul and trying his best to survive no matter what way he chose to do it. There is not much you can say about these books without giving something away. I will say that Hayden is the oldest and when his dad died he got the majority of the control of the company his dad and friends started. It's not what he wanted to do and it is sure not what he had planned for his life. He is determined to ruin Trevor. You get to see Trevor and Lucy in this book and then you will get to meet Katie. Lucy's best friend. This book is so good and even broke my heart a time or two. You don't want to miss the installment of the Four Son's series but I do suggest that you read Nixon first.

---

### **Kathy West says**

Hayden and Katie's story is a story that is told in the present and the past.

Hayden, the oldest brother, is tasked with taking care of his family after the death of his father. He is also left in charge of his father's company. Something he didn't want but now he has stepped up and made the company even more profitable.

Hayden is selfish, spoiled, and unapologetic. And he knows it. Along with dealing with his father's death, he is also dealing with Trevor. He knows Trevor is lying and he thinks he has the information to catch him up in

his lies. But what Hayden doesn't count on is meeting Katie.

Katie comes into the picture the night Lucy is drugged and Rowan has her baby. Katie is Lucy's best friend and has no idea what she is walking into with the Pearson brothers. Especially when Hayden comforts her out of nowhere when she was no one else to turn to.

Hayden and Katie will have a story about love and loss. About trying to forgive someone for their mistakes.

As their story evolves, you learn more about the other brothers. You learn more about the Pearson brothers past and you see possible storylines for the future.

Overall, this story was really good. I think Hayden's character grew a lot during this book and that Katie's character was very well written.

I can't wait for Brock and Camden's books.
