Tristan and Ginny have to fight hell and high water just to get their hands on each other... literally. Living in different parts of the world, and battling the distance across the Atlantic Ocean, they're not going to let anything come between them.

The Oceans Apart series is a flirty, sexy and often funny read. A British bad boy romance with no cheating and a happy-ever-after. I hope you enjoy it!

Tiffany Readz says

Tristan, Tristan, Tristan, maybe, just maybe Ginny isn't the girl for you. Holeeeey crap, these two can't make a relationship work out no matter how hard they try. Please stop reading if you have not read 1-3 yet, as the review may contain slight spoilers.

Book four begins right where three left off with Tristan surprising Ginny at the beach. I was proud of our girl for not taking him back right away. This back and forth is getting as old for her as it is for me. Sure he's a hot guy with an accent, but that isn't a license to treat somebody like crap. Ginny's claws are out this time around and I loved it.

Although the not-taking-him-back didn't last all that long, Tristan tries to prove to Ginny that she's the only one for him. To up his total hotness factor, Tristan is in L.A. on a Harley and talks Ginny into a Vegas trip. They get along well for a few chapters, then all hell breaks loose once again.

Tristan has some major family issues while Ginny is left to worry about a blast from her past. Oh that Amanda Heartley, I could just strangle her for that stinking ending. I'm now thinking maybe it isn't in the cards for these two and they should cut their losses now. Just kidding. Book five is going to be full of lots of explaining and should be very interesting.

Well, that sucked! Arrrrrrrrrgh! I sure hope book 5 is the last one. I don't know how much more I can take! Poor Ginny! Sure, her hot, hunky Brit is crazy about her but what good does it do her if she can't get her hands on him? Damn! All that hotness going to waste way across the ocean. Get your lush hiney over there and claim your man, Ginny! I swear the anticipation is going to kill me.

UPDATE I gave up after #4. At \$2.99 each, and at least two more 'books' to go, it's getting too expensive. The story is good, and so is the writing, but there are other good stories for a lot less money. Maybe if each 'episode' were a little less expensive, I'd finish but, at the current rate, I just can't.

I loved this book, I love this whole series. I was so happy with what Tristan decided to do and what he was willing to do in order to be with Ginny. I loved how Ginny told him off at first and then went to his hotel, what she said when she saw Vanessa was perfect and I was so glad she didn't just up and leave and think he

had done something. I loved them making up and then a whirlwind happened and next thing you know they were on their way to Vegas. I enjoyed reading about Ginny and how excited she was, and how the little things made her so happy. You can tell Tristan loves her so much. The whole limo ride to their "destination" was so perfect and then what he had to do to move things along was so romantic. I hated that Tristan got bad news right after the wonderful time they had together. I was glad he got to talk with his father and his father said some things he needed to say and Tristan needed to hear. I hated how Vanessa continues to treat Ginny so badly but she stuck up for herself and gave it right back which made me laugh. Of course I didn't like what his mother wanted him to do but I was actually surprised at how badly Ginny took the news, I think she overreacted and I hope they work it out. I am concerned about Vanessa's father, there is more there than we know and now this ending, what in the world did Brad do???I can't wait until the next book, how long???

Christine Peterson says

Nothing has changed in this series. Another cliffhanger to keep me reading...

Can I just tell you how much I love this series! This is book 4 and it is not a standalone so you must start with book 1. Tristan and Ginny rock! I loved how Tristan shows his vulnerable side and lets Ginny know how much she means to him! I love seeing Ginny's snarky side when it comes to dealing with that conniving wench, Vanessa! Bring it on b*tch! When family tragedy strikes, our love birds are once again separated, doubts and insecurities kick in. With both of their ex's causing havoc and Tristan's family responsibilities become more apparent, are our love birds doomed? I hope they find a way to muddle through! Amanda is writing an awesome series! It is very down to earth and totally believable! She gives us everything we want- hot guy-check, curvy vulnerable but strong heroine-check, on fire, panty-melting sex-double check, strong and loyal best friends (which need to get together-hint hint)-check, and an enchanting storyline that you just don't want to put down! You need to start reading the series. You will be thrilled. I am and now I need book 5 pronto!!

A copy of this book was given to me for the express purpose of an honest review. The review and rating is my sole opinion and in no way was I compensated.

Kerry Richardson says

Despite the fact that there are flaws and grammatical errors throughout all the books I have still enjoyed the story of Tristan and Ginny. I love their characters and the way their relationship has matured. However, I do not have the same love for Ginny's best friend Kari, I find her very annoying and obnoxious. Also after 4 books the story is still not complete, dragging it out into more than 3 or 4 books is really unnecessary.

Mary Mooney says

This one picks up where book 3 left off. Ginny has been back home and away from Tristan for a few months when he shows up at the beach. And Ginny lets him have it, her hurt, anger and all the pain she is feeling. He can't help but think that he has lost her forever. Each time it seems that they can make their relationship work, something happens and pulls them apart again. I can't help but wonder if they should just end things and try to move on. And what an ending, I can't figure out what has happened there. I am loving it and can't wait for more. This series keeps getting better and better and more painful for Ginny and Tristan. I couldn't put it down and finished it in a few hours. Amanda Heartley has done an amazing job and I need more NOW! Please.

Tristan and Ginny have not seen nor spoke to each in 2 months, since Tristan left Ginny after Mike's accident. Wanting to change this fact and surprise Ginny, Tristan decides to surprise her. He wants to leave his father's company so he liquidates all his private assets. When he goes to the bank, his father is waiting for him there. He tells Tristan that he does not understand why he is leaving but that he is proud of the man Tristan is.

When Tristan arrives, he thinks Ginny will forgive him and choose to be with him, but things do not go as he thought. Ginny tells Tristan it is too late for apologies and leaves with Kari. When Ginny reconsiders and

goes to the hotel Tristan is staying at, they decide on a whim to go to Vegas and get married without telling anyone. When Tristan's father becomes ill, Tristan must leave Ginny again to be at his bedside and fly to England. What happens when Ginny bumps into Brad her ex? Will Ginny and Tristan ever get to be together?

This is another great book by this talented author. It is the fourth book in this series. I love the fact that Ginny and Tristan finally admit their feelings for each other and rush off to go and get married regardless of what their families might think. I also felt really sorry for Tristan though as just as he thought he was going to get his happy ending he had to leave Ginny again to go and see his dad, and then all the anguish that it caused him.

I really felt for Ginny as I would hate to be in her shoes loving someone and they had to keep leaving you, it must be awful. I loved the way that Kari supported Ginny through it all and tried to help take her mind of the fact that Tristan was not there with her. I cannot wait for the next book in this series. I loved this book and would highly recommend it to others! I do suggest picking up the first three books before reading this one.

I am thrilled with Book 4!! The suspense throughout the whole thing keeps you on edge the whole time!! Love Amanda Heartley! She is one of my favorite authors and will read any book she releases. She is generous as to allow me to receive an ARC (advanced readers copy) but I still always buy it so I can keep it forever anytime I need a good book. It is definitely worth the money for this whole series. You do need to read the whole series as this is not a stand alone book. Book 1 is free now so if you haven't started, grab it now!! You won't be disappointed!!

I love Tristan and Ginny's Ocean's Apart story. This is the best series for me. I love that Tristan finally decide what is best for his life which is to follow and fight for his love to Ginny. This is also another very hot series. The passion is so excruciating like fire. I am in-love with these two that I want the best ending for them. I cannot wait.

Omg, I so can't get enough of Tristan and Ginny. The twist and turn of this book is perfect. I can't wait to find out If their relationship/marriage is completely doomed or it can be salvaged. And what is Brad up to? Wonderful as always!
