## Scar Kassanna

Rhys Blaid is Alpha to the Volkshire Pack. He and his people have kept to the fringes of the shifter world, his clan a pack of sentinels, known as war wolves. When an attempt to kidnap his son pulls him back into the politics of the wolf packs, hard decisions are made.

Fre Niles is a stripper that saved a puppy from an irresponsible owner. Her one kind act has now thrust her into the shadowy world of shifters and thrown her between two rival wolf packs.

Protecting his people is paramount but one whiff of Fre's scent and a taste of her body... To keep her he may have to start a war.

## **From Reader Review Scar for online ebook**

### **GeNette says**

I wish this book was longer but a good short read.

---

### **True says**

Okay...this is going to have spoilers SO if you haven't read the book then do not read this review....

\*sigh\* Can I just talk about the "guns blazing" scene for a minute? When I read that part I could not help but laugh. I mean a really good laugh because I kept thinking of a parody of set it off. I know, i know its just a book, but COME ONNNNNNN! The main character was one step away from having a "mhm girlfriend \*snap snap\*" attitude. \*sigh\*

NOW beyond that I did like the story. I would recommend it for people who want a quick read with a hot and bothered wolfie.

---

### **The BookChick says**

Definitely editing challenged and could stand a rigorous edit. A bit odd in some respects. For example, why did Nix and Fre have the Thelma and Louise thing going on and why did it warrant so much fire power? But, overall, the story was enjoyable.

---

### **Laura says**

Fre is eager to start her vacation as soon as she is done with work for the night when practically accosted by a patron and find a puppy locked in a car being neglected. She rescues the puppy, gets pulled over by the cops and then kidnapped. What away to start a vacation.

Alpha Rhys' son was just kid knapped and when luck returns his sun in the form of Fre. He is determined to keep her if for no other reason than her protection because the men who stole his son will track her to find the boy. Plus he just wants her.

### **Erosa Knowles says**

I enjoyed this story very much

---

## **Tank says**

Awesome pnr short. This should have been a novel, that would have given it 5 stars.

---

## **Shelly says**

So, wha' had happened was - I wanted to take a short break and read a novella just for a change of pace. And that is how I ended up reading this little ditty from Sugar and Spice Publishing. There were a few things that I had a problem with but before I get ahead of myself...Rhys Blaid is the alpha of the Volkshire Pack, he's also a single dad. Nefertiti 'Fre' Niles is the stripper who unknowingly rescues his son from would be kidnappers bent on destroying Rhys. Concept sounds like a fun read right?

This story was jam packed with syntax errors. What's worse is the editing, it could do with a serious overhaul when it comes to that. I found myself reading about the most nonsensical things when I should be reading about the development of the storyline. They felt like fillers that would be used when the word count is low.

This story should have definitely come with a warning for erotic asphyxiation. I can stand a lot of things in a sex scene but if they're out of the norm and I'm not warned – well let's just say I don't take to kindly to those. One top of that, Fre has known Rhys for maybe 36 hours when they have their first sexual encounter and he does that to her, not once but twice --- WTF?

I wish I could focus on the other parts of the story but those got me so discombobulated my interest waned at the halfway point in the story. From then on the story line just gets more ridiculous. Rhys is a jerk throughout. Fre is a stripper – that's it, no more -- no future aspirations that we know of but then again we didn't find out a lot about any of the characters. My absolute favorite is the Epilogue, it reads Epilogue-Later that night. Really? An epilogue is later in the same day that the story just ended??

Happy Reading folks!

Rating: D

## **Fashionista says**

This little novella was pretty good!  
I think that Keen saves this book! He is hilarious!

## **Ije the Devourer of Books says**

I enjoyed this.

It isn't a great literary masterpiece and it is full of typos but it is entertaining because of the main character -

Fre

I don't usually read many m/f books but this one involves shifters and a sassy bad ass black woman who isn't afraid to fight her enemies and can hold her ground. Also she isn't a shifter which makes the entire thing interesting. She doesn't easily fall into the arms of the hero (Rhys) who is a shifter, and she takes on the enemies with her equally bad ass friend and manages to dispatch a few. She gives Rhys a run for his money but she is tender and caring of his son.

This wasn't really too different to all the other shifter stories out there with lots of growling, fights and sex, but the dialogue and the characters made me laugh .

So I enjoyed it. There wasn't much content to the story but what there was was enjoyable and I shall definitely read the next one.

### **Tish says**

The only negative thing I have to say is that I wish it was longer! Usually I roll my eyes at the whole love at first sight but this time it was believable. The woman was not weak or overly aggressive as I've read in many IR books she was the right blend of hard and soft. The plot flowed well and left me curious to learn more about the other supporting characters. I like paranormal IR books but more so when the story's goes beyond the two leads hooking up. Were shifter politics were touched on I'm curious to read more about it. I also want more Boris and Nix :)

---

### **Trickiegyrl says**

This one needed just a little more information and it would have been one of my favorites. Fre was one kick ass heroine. She was a stripper and I loved that there were excuses or apologies for it. Her life took a sudden change when she first met a customer that was over the top creepy and rescued what seemed to be an innocent pup locked a cold car.

The story seemed move at break neck speed to the ending. IMHO, the author should have slowed down and spun a tale that was great. It is not a bad story, just a little rushed to me. All in all if you want a quick read, with fun characters give it a go.

### **DivasoftheSerengeti\_Lioness says**

Hot read, great start to this series. There is nothing like a bad ass woman to make a bad ass man whole. Fire and Rhys are make a good Alpha couple. Adore shifter romance with a little drama in the mix. Great plot, wonderful story, fantastic read.

Rhys and Fre are a great match made in shifter heaven even if one of them doesn't know it. I really liked how this story line developed and how the characters bonded. I hope this is the beginning of a new series. 5 star

read, HIGHLY RECOMMEND

### **Tara says**

Fre just rescued a puppy (more like a wolf shifter cub) and things get a little furry when she runs into the puppies father, Rhys. After a disastrous first marriage (or mating, whatever) Rhys has learned his lesson, but one sniff of Fre and he realizes she's his true mate. No problem, right? Well now Rhys has to convince Fre to stay especially after he tells her that he's Alpha to wolf shifters and the puppy she rescued is his son, but that's not all they have to deal with. There's the issue with Keen's (that's Rhys son) kidnapper claiming some sort of first claim mate thing on Fre, of course Rhys not too happy about that and he's not letting anything get in the way of him and Fre, even her. >\_<

---

### **Monica says**

Great cover, mediocre read. I liked the concept of this book; someone kidnaps the son of the alpha. Fre, finds a puppy locked in car parked at a strip club; love follows. A single father, Rhys also happens to be alpha of his pack; he falls for Fre without revealing his true nature. I really enjoyed the cover of this book and saw that it had been reviewed favorably, so I got a sample. It was an okay read, though the hero and shero never became real to me. I enjoyed the character Keen, but wish the author spent more time developing all of the characters in the story. It felt flat when I read the love scenes and the actions were just white words on the black kindle screen. I prefer for the words to come alive in my imagination and this never happened. Maybe, it was the myriad of typos and grammar problems; or, the mundane details that didn't move the story; why do I care about the way he sticks his straw in a drink? (Location 392.) And, an "ode" is a song, not an aroma. (location 432). Either way this was just an okay read, certainly not worth \$4.

### **Michelle says**

Fre was an exotic dancer and on her way home saw a puppy locked in a car and rescued him. Little did she know that would change the very course of her life. After a bit of drama and humor Fre meets Rhys aka Scar and the ride begins.

This book has suspense, drama, humor, sex and romance. I recommend this series to anyone and it only gets better with each book. Kassanna has become one of my favorite authors and writes such gritty and real stories that draw you in and connects you emotionally and mentally to the characters.
