Melinda Elizabeth says

I couldn't find the solo listing for Thief of Hearts so I've had to review in this book instead so apologies if the other books in this compilation are actually good!

Thief of Hearts follows the same sort of formulaic structure that Keeper of the Bride took - woman in distress, trying to avenge loved ones, finds a suitable strong man type who doesn't want to get involved in the drama but does so anyway, they go on the run and get split up and finally find one another again.
