In book two of the Lady Riders: Treat stayed in Cali to clear her head and regain a part of her she felt was missing. Instead, past problems arise that she'd left behind years ago, leaving her torn with the obligation to family.

Stone and War never wanted what Treat could offer them, so after their betrayal they left town and Treat. When they see her again they realize it was jealousy that drove them away and they are back for a second chance. They want her and they plan to have her. What they get is the knowledge that Treats aren't always sweet.

**Amy Miller says**

I love Treat she is one tough chick. I like that she can hold her own against War and Stone. The plot was as always brilliant and the twist through the story was an extra added touch that I thought made the story that much better and gave it more . The Lady Riders make me want to be one. Can't wait to read what happens next!

Beneath the line review

She's done it again. It's amazing how you get hooked from page one and then every book ends with you scrambling to write a review and go on to the next story.

Not to sound like a prude but too many sex scenes for my liking but the story line is amazing.

**Those guys are sorry pricks.... Not sure I'd cross the road to spit if they were on fire....**

Hot Damn I was all set to see Treat make'em bleed ,I am SICK TO F'ING DEATH of women in stories who NEED to join " The Society for Recovering Doormats" ( btw it's real check FB) and get the help they Sooo desperately NEED!! Treat had her heart broke by to cowards who couldn't man up and tell her they weren't ready anything more than say semi committed F buddies ,instead being the jealous coward morons they were they let her catch them literally w/their pants down looking like their doing her "best friend" draw her own conclusions and walk away heart broken.. This to a woman who grew up abused and didn't give her heart,time or body away easily and for her to "forgive" them way she does ?!?!? Just pissed me the F off... Ok,Treat was "supposed" the tough, kinda kick ass biker chick plus we have a group of women getting together to help rescue suffering and abused women,starting w/Treat's sister Jilly who is almost beat to death by her baby daddy a man she was given to by her father to "pay a debt"... Soo to me when you have two males who pulled what they did and have taken an entire Year to even pull their head out of their rears ,I would expecting serious begging and something major to make for they soo callously broke her heart and her trust, ( I mean I though the whole vibe of this book and series was protecting and respecting and rescuing women) \*shakes head\* what do we get ? The guys losing their patience w/her.... Her damit! Saying they'd

apologized enough ( must have been in another book) and it was time for her to get over it and realize the "belonged" to them.... WTF?!?!? I know these may not be exactly be hearts and flowers kinda guys but in THIS book,THIS book all they did was whine a little bit ( mostly to themselves) about they wanted her back and them got pissed off and then demanded it,before during and after they explained that they didn't REALLY F her former bestie they just pretended to get her to walk away,see ? No we're all good! Soo get naked before we whip your ass... Again WTF ?!?!? And you know what ? They grab her rip off her clothes and she lets them...

Not true I'm sorries ( got they HAD way too much attitude for that ) No "I Love You's " ,No sincere "I'm soo Sorry for hurting you baby" .... Not a Damn thing, in fact they didn't soo much ask for forgiveness as demand it and you know what ? W/out doing a Damn thing to earn it ,she flipped on her back like the lame ass doormat she is... Treat was the true Trick to me and she made me sick!!! Slex or no sex these to jerks were back to pushing her around and commanding her like she was the one who'd screwed up not them and a book w/the theme these supposedly do that lack of basic respect hurt my feelings and turned me off... I thought I'd finally would women that didn't let damp panties and hormones do their thinking for they... heroines who lack basic self respect are a dime a dozen or .99 to 3.99 or more in e books.. I'm off to delete and I'm never coming here again..

I love menage especially a good M/F/M ( m/m just doesn't do it for me) but MC guys or not they can still give they woman love respect and if they don't love her,why bother ?

### **4 Stars**

Another good story in Harley McRide's Lady Rider series. Treat, War and Stone are perfect for eachother. This story is fast pace and sexy time in between the sheets will leave you breathless. Happy Reading!!

I really liked this story. I read this book in one sitting and wasn't once bored. I liked the danger and the angst in this story.

War and Stone annoyed me a little. They treated Treat like they did when they first were spending time together and then they expected her to get over it. Their flippancy towards telling Treat to get over it irritated me. At times I didn't want Treat to forgive War and Stone easily. That being said, the chemistry between Treat, War and Stone was through the roof. I really liked them as a ménage couple. The danger in this story had me on the edge of my seat. I loved how protective Treat was of her sister. She was determined to keep her sister and her nephew safe. I really liked the twist in this story and cannot wait to learn more as the stories progress.

The storyline for this book is easy to follow and an action packed read. I cannot wait for more books from this series.

Eh...this wasn't as bad as I thought it was going to be. When it came to Lady Riders buisness, while a bit impulsive, as it was personal for her Treat was actually good at her job as this chapter's VP. She was tough, resilient and didn't take shit from anyone. She's definitely in it to help these hurt females that the system has somehow fail and overlooked, as are the rest of the LR's.

I did call it right though when I said she was going to be a complete pushover when it came to Stone and War. I give her credit for trying to stand up to them, but at the end of the day her libido got the best of her and she forgave them all to quickly for the shit they pulled on her with her supposedly BFF. All the while they were faithful and loyal while trying to secure her forgiveness so I guess that's something..lol.

A lot of the book is written a bit choppy, sometimes it's hard to tell what's going on, whose speaking, things like that and that makes for a very confusing read. Of course we're left with unanswered questions, what happened with Treat and Jilly's dad, Chet? Does he just get away after everything he did? Now it looks like Nike and Treat are half sisters? Sighs...I hate cliffhangers...even slight ones....

### **Treat**

Another amazing story for the Lady Riders! Every time I read one of Harley McRide's books it sucks me in from the very first page. Looking forward to the next book in the series.

## **Kim says**

this is a game of guess what's happening. the story is written with no aim, like the writer wrote in pieces that were never edited to flow.
