I think that this was a good book for beginner readers. All 3 of my kids enjoyed this book. I would recommend this book to others.

My kids enjoyed this story. They're all about superheros. This book is great for helping your kids learn how to read as the words aren't hard and the sentences are short.

Elizabeth says

The text is simple -- it's a Step 2 reading level, which the back cover explains as, "Does your child recognize familiar words on sight and sound out new words with help?" -- so I wasn't really taken with it at first, but upon returning to it I liked it better. The illustrations are really active, which helps carry one through, since the text on its own is mostly explanatory.

Amaya is super into the super hero set right now. I just wish that WW could wear something that obviously would put SO many constraints on getting things done. Those shorts - sure to give you a wedgie. The bra top? So 1990, and boobs would easily pop out when she was using the golden lasso. I'm torn about reading these for this reason. I don't want Amaya to think that she has to wear a bikini to save the world. You can more easily and practically do it in some yoga pants and a t-shirt. Amiright?

L says

Just an intro to Wonder Woman - needed a story too.
