## **Awakening** Stephanie Summers

The town of Willow Creek is seemingly free after Remy's sacrifice set off a life-altering chain of events that resulted in the demise of most of the world's vampire population. Sabine flees to her home afterwards, except her family has disappeared and a "For Sale" sign is planted in her front yard. Just when she thinks she's lost it all, she's summoned back to Willow Creek Manor. Confused, and almost certainly walking into a trap, she reluctantly returns, only to find that the king of vampires still lives... and he is none other than her Remy. The dead love of her life is alive, but he doesn't quite seem like the same man. With the help of a witch, a ghost, and a longtime enemy, can Sabine bring back the man she fell in love with... or will she lose him forever?

Awakening includes the prologue and first two chapters of Stephanie's upcoming novel, Take Me On. Once you've read The Willow Creek Vampires Series, you might remember a certain rock star Sabine has been obsessed with named Ash London. Take Me On is his story.

## **From Reader Review Awakening for online ebook**

### **Deeds says**

#### **Awesome book**

This story was incredible,outstanding,exciting and just plain fantastic??!!!. This series is just phenomenal!!!. Stephanie is an amazing writer and fantastic storyteller ??!!!.

---

### **Regina says**

#### **Wonderful books**

I love this series. Couldn't stop reading. Mrs Summers is great author that keep you hooked in it. This isn't just another vampire book, it is also a powerful love story with other paranormal creatures making it a great series.  
I hope you read it and get hooked as I did.  
You must read first Craving, and Haunting the two first books in the series

---

### **Jay says**

What a plot twist

---

### **Mocha Haven says**

Rushed. The series started out with a very strong storyline. Yet, as the series progressed, the books got shorter, leaving a feeling of a underdeveloped & rushed storyline. Editing was an issues throughout the book, i.e. sentence structure, missing words.

Will I read another book by this author? Most likely. Series is strongly recommended. The books most be read in order.

2.5 Stars

---

### **Jody says**

#### **Just as good as all the others**

Well this book did not disappoint that's for sure. I feel a little bit that Remey,'s issue with being possessed was drug out for a little too long. Read the series she'll enjoy it ?

---

### **Kimberly says**

I won this series at rebels and readers and i love vampires so decided to read it!

I like this book more than any others in this series. It answers a lot of queastiona and has a lot more going on in the book. How can you not like Remy?

---

### **jennifer french says**

Very exciting read.

---

### **Gina says**

#### **Seriously????!!**

It's such a shame! This series is written by an unknown author and was surprisingly good! However, the downfalls are that each book got shorter and shorter--too short. Also, the end of the last book is very abrupt. I couldn't believe it when I saw THE END. You've got to be kidding me! It seemed like the author was either trying to hurry up and finish the series or it was just an amateurish ending. It's a shame because the series had real potential. I would have given it 5 stars if it weren't for those 2 things.

---

### **Jeanene says**

I couldn't put any of these books down. They were a nice easy read with just the right amount of mystery.

---

### **Rebecca says**

#### **Great end to the series**

Since this is the last book in this series I'm just going to make this short because if you read the other two you must have liked them. I think this is the best of the three. I wish there were more books about them. Anyways a good series and I really liked both protagonists a lot in this series.

---

### **Lauren Avenido says**

I do not what to say about this book but except that I am delighted that Sabrine and Remy finally got their ending that both of them wanted. You would never thought that they would not get because they were

fighting against evil vampire. Everything they fight for and believe show them what is what they are want. I truly love the ending, and know you will find happiness where you least expect it.

---

### **Symone says**

This is a truly frustrating series.

With more development it could be an amazing paranormal vampire series, but at 180 pages I just wanted more detail. More of the magic that Sabine is exploring, more of what actually happened to Remy, we get the bare bones of the story but it is lacking depth and detail. In fact the magic is so brushed aside that I felt like it almost shouldn't have been included but for the fact that by the end of book 3 it is paramount to the story. I also feel like Sam and Damon as characters are underdeveloped but by the end it seems like they are quite significant.

I still gave the book 3 stars because I love the characters of Remy and Sabine. Yes it is a girl meets vampire romance but there are twists and turns to the story that are not the usual. Again I feel like every book in the series just needed more development.

This is the third in the Willow Creek Vampire Series and we ended book 2 on a cliff hanger - book three picks up at the same point just from a different perspective.

Sabine and Remy get a HEA at the end of this book and so you could finish the series here and be happy with the outcome - i am not even sure if there are more.

The whole thing just leaves me wanting more of this world, more of Remy and Sabine and more magic. As it is, it is a quick read, no more than a few hours.

### **The Mysterious Reader says**

Stephanie Summers The Willow Creek Vampires series continues to amaze. I lived the first two books and have nothing but superlatives (wonderful, fantastic, stellar, stupendous, ... you get the idea) for book 3, Awakening, which is the concluding chapter. When it's done right (which is sadly far too rare) I love a story about sexy vampires and strong-willed heroines, as promised in the publisher's blurb for this book. Happily this is one author who definitely does it right. Sabine and Remy are superb characters, and it's been a total blast following along as they fought "to keep the love they so desperately need". As for how it all ends, I won't tell you but I will say this: perfection is achieved. But for the fact that I'm literally dictating this review to my husband from my hospital bed I could go on and on with praises - the book definitely deserves it. Since I can't do that I will simply note that the book is most definitely one to read, it is easy to highly recommend.

### **CYNTHIA L. JACKSON says**

#### **Great series**

I could not put this book down till the end. Loved every minute. Totally recommend this series.  
Hope to see more .

---

**Dena says**

Great ending

---
