OMG, I LOVED this :)

Man of My Dreams was such a fab read so if you haven't read it yet then please do. It is a story about a married couple who go through some issues which impact their marriage and it is such a 'real' story that anyone married can relate too.

In this gorgeous novella we pop back into Declan & Mia's life to see how they are getting on now. We also again go through all the emotions and feelings with them as they talk out what happened to their relationship and they both felt about it.

There are so many sweet heart-warming moments that will have girls swooning for Declan Murphy.

This was just beautiful to read so thanks Faith Andrew for publishing this little treat.

LOVED THIS!!

Back to You was the perfect novella and follow up to Man of my Dreams. This book brought me right back into the thoughtfully crafted and developed world that Faith Andrews created in Man of my Dreams, and I was so freaking happy to be back with these characters again. The world that Faith Andrews creates in this book feels so very real, and I couldn't get enough of it. It truly is a fantastic place to be!!

This novella follows what happens after the events of Man of my Dreams, and focuses on how Mia and Declan attempt to put their love and their life shared life back together again. If I wasn't in love with these two enough already, this novella just cemented how much I truly loved them with all I had. This novella just hit it out of the park, and had me in full on Mia and Declan love mode!

This novella is told in dual perspectives and that is so freaking phenomenal, as it allows you to understand what both Mia and Declan are feeling and thinking. Their heads are definitely unforgettable, but I have to say I think I enjoyed getting into Declan's head the most. This novella explained so much with his thoughts and feelings, and I felt like I understood him so much more from this novella. I just got him.

Not to be outdone, Mia's head was as wonderful as ever. She is a fabulous female character, and as I read this novella I fell more in love with her character with all she was feeling. To get to read how she felt after making her choice and cementing what she really wanted to fight for was outstanding. It also made me want

to jump into the book and comfort her, while also reassuring her and the choices she made. I can't say enough how much I truly enjoyed her character!

Back to You had so many fantastic aspects to it, but the aspect I enjoyed the most was reading how Mia and Declan work together to move past all that's happened. This is their second chance, and boy do they take it. Reading all their doubts, questions, thoughts, feelings, emotions, and vulnerabilities that weave their way so wonderfully in this novella made me love them more, and I just got them. They have to fight for that happy they want together, and boy do they put up one helluva fight!

Faith Andrews does such a fantastic job of bringing their story to a close in such an unforgettable way. The story she created in this novella has many emotionally charged moments, and focuses in on what these two will really do to get back to one another. This chapter in the characters' lives is one filled with so many feelings, but it's a chapter in their lives that will resonate with you. These characters feel so real, and this novella allows you the chance to feel and experience them one last time as they attempt to bring it all together. I can't say enough how real these characters and their story felt to read, and I was so sad to let them go!!

I cannot rave enough about this novella and Faith Andrews' writing. She has cemented herself as one of my favorite authors. The story she so beautifully creates in this novella will make you want to fight once again for the love between Mia and Declan, and you will love and adore every second you get to spend with them.

When I picked up *Man of my Dreams* last year I was taken by how real Mia, Declan and Noah were. Now don't get me wrong I love my billionaire playboys, my sports stars, my rock gods, but what I adored is that *Man of my Dreams* centre's around an everyday couple Mia and Declan, college sweethearts, who married straight out school, who seem to have an idyllic life, but after almost five years of marriage and two beautiful daughters, things got in the way. Its gradual, so much so that it blind sighted both of them. Bonds were shaken, loyalties were tested, and when Declan shared a kiss with a stranger whilst away on a business trip, Mia's world comes crashing down around her. Given the chance to finally look at her life, at the decisions she's made she takes the opportunity to step away from her marriage and to reconnect with the one who got away Noah.

Reconnecting with him gives Mia the time to truly examine her life leading up to this point, can she walk away from her life with Declan and pursue this relationship with Noah or was Declan always the man of her dreams?

Back To You picks up right where *Man of My Dreams* left off, with Mia choosing Declan, but everything isn't all sunshine and rainbows, recommitting to one another after the lies, the deceit and the infidelity takes time, and requires both Declan and Mia to be honest with each other, possibly more so than they have ever been with each other.

The story Faith Andrews weaves here is honest and true, heartbreaking in its simplicity, and for the same reasons I connected with *Man of My Dreams*, I again connected with *Back To You*. I think whether you've married for one, or five or fifteen years, or in my case three, you can understand how the breakdown in a relationship happens, how you pledge to love, honour and obey on your wedding day, when really your vowels should read that you pledge to continue to build your relationship, strengthen it everyday, to continue to love and fight for one another, even when work, and mortgage and kids become your primary focuses. Faith Andrews *Back To You* was the perfect conclusion to Mia and Declan's story, you yet again proved that everyday people have an exceptional story to tell.

Loved this conclusion to Declan and Mia's story! I was #TeamDeclan from the get-go and I loved seeing in this book how he was willing to do whatever it took so that their family and life together didn't suffer any more. Sometimes I think he went above and beyond...

Mia frustrated me so much in Man of My Dreams, I was happy to see her kind of suffering a little in this book, as awful as that may sound.

But I was so happy they were able to work through everything, together...that they finally took the time to get away, and have that tough dicussion. As hard as it was for both of them, it was definitely necessary if they were ever going to get past what had happened. They had some rough spots for sure, but ultimately the love they had for each other was strong enough and deep enough to get them back on track.

Warning: If you have not read Man of My Dreams yet then do not read this review. You need to read that book first.

I loved Man of My Dreams, but I especially loved Declan. To me he was just an amazing man, husband and father who made a mistake that he certainly paid for. And for me personally I think he paid a little too much but that's a story for another day. Lol I liked Mia I really did, but she completely frustrated me to no end in Man of My Dreams. But in the end she figured it all out and made the right choice.

Back to You takes place where we left off. Mia and Declan have found their way back to each other. But that doesn't mean that everything is all roses and unicorns. After everything that they have been to you cannot expect for their relationship to miraculously be ok. They still need to work on the pain that they caused each other, trust issues and work on becoming the couple that they once were. They still had a lot of work to do but they were in it together.

Declan had planned an Anniversary getaway for him and his wife, in hopes of reconnecting and forming that bond again. Declan wants to put the past behind him and work on the present and the future. But Mia still needs to deal with what happened. She still has all this guilt that she is carrying over what happened. They need to talk, clear the air, lay it all out on the table in order for them to move on. While Declan knows this conversation needs to happen, a part of him just wants to live in the moment with his wife. Will they be able to forget the past and reconnect and become the happy and loving couple that they once were?

I loved this novella. For one I completely fell in love with Declan all over again. His love for Mia was always evident, even if his marriage started to crumble in part because of him. But he loved her and fought for her and now wants to cherish every minute and make her happy. He wants his wife back and I loved every minute of him in this book. Mia actually redeemed herself in my eyes in Back to You. She finally took responsibility and owned up to her mistakes. She grew so much in this one.

Back to You is a short novella about two people trying to get back to that happy place. To be able to reconnect on both a physical and emotional level. This was their second chance at making it work. I loved these characters and was so happy that Ms. Andrews gave us more of them. It was the perfect conclusion to their story.

Sometimes it only takes one decision to forever change the events in your life. Hearts are broken, trust is lost, and love can be hard to find again. Mia and Declan nearly destroyed their relationship. But in Man of My Dreams, the epilogue showed us that they finally got their happily ever after in the future. But how did they get there? This book is the bridge that leads them to that happy future. Because after the mess they both created, they have a lot of work to do. Nothing can be swept under the rug, and they are still bound to hurt one another when all of the truths come out. But step by step, we get to watch Mia and Declan become the power couple they used to be.

Grace – The makeup hides the subtle imperfections on my face, but I'm not sure there's anything fit to mask the flaws that mar me deep within. I hush the nagging voices in my head and tell them to take a hike. I want to enjoy this day.

Back To You starts right off where Man of My Dreams ended. Declan finally won Mia back by serenading her, she said goodbye to Noah, and they are on their way to the hospital. They have been thrown back into their lives full force and they haven't even had any time to heal. After Declan has to take another trip to Hong Kong, he decides they desperately need to have some alone time. He books them a house on the beach for a week of healing and strengthening their love.

Declan – “You don’t think it fucking killed me to watch you pretty yourself up for *another man*? Or to play babysitter for you while you did God knows what with him? It was torture. It was infuriating. It broke me, Mia.”

Grace used to be so strong and determined. Now her past actions continually haunt her, and she is unsure and afraid of her future. The pain is so deep that she honestly doesn't know if they can get past it or if they will have a repeat in their future. Maybe I'm wrong for thinking this, but I am actually thankful we got to see this side of Grace. She made my heart hurt for all of the pain she inflicted upon Declan. Declan threw more than his fair share at her, but for some reason I was able to forgive him easier. That could have something to do with the fact that I loved him in this book! My anger at the hurt that he caused her over the years subsided and I got to see all of the wonderful sides of him. We get to see the swooning, sexy Declan in full force! His actions and words were adorable, and I thank Grace's lucky stars that he woke up his wife and won her back.

Grace – If I’ve learned anything this year it’s that you can’t live in regret or wonder ‘what if’ without it eating a hole into the marrow of your existence. It took a lot of heartache and too many mistakes to learn that lesson. But I have to believe that the heartache portion of our story is over. This story needs to continue with a pretty song and a love stronger than steel.

This was an adorable tale about finding love again. It was sweet watching Grace and Declan rekindle their love and work through the steps to fix their marriage. Now I'm just left wondering, we will ever get to hear about Noah's happily ever after?

What I enjoy most about finding an author that you love and as you continue to read their books is to see how much their writing and style develops after each book. I really enjoyed MOMD and loved Keep Me BUT I am ecstatic over and obsessed with Back to You. This is Faith Andrews best book yet and that says a lot because Keep Me is on my favorite book of 2014 list. This book flowed so well and getting inside both Mia and Declan's as they find their way back to each other makes you fall in love with them all over again. This is a quick read that I couldn't put down and read in one very quick sitting.

I'm not going to lie, I wasn't 100% Declan after reading MOMD, BUT after this book and getting into his head and really getting to know him I am 110% #TeamDeclan. He's sweet, funny, a hard worker, and loves his family. Mia and Declan still have a hard time letting go of the past and regrets and finding their way back to each other, and this novella is so wonderfully written that you feel all of their emotions they are going through. I laughed, cried, and loved when they did. This book has you so emotional involved in their story.

The Dreams Series is a must read. In case you couldn't tell I loved the conclusion to Mia and Declan's story. I HIGHLY recommend this book but you need to read Man of My Dreams before you read Back to You.

I was lucky enough to pry an ARC out of the hands of the author so I didn't have to wait until release day for this one! This was the perfect wrap-up to this couple's story! It was sweet, yet sexy at times, emotional and altogether a realistic portrayal of two people who chose each other after a betrayal, and answers the question "What next?"

***Back to You* by Faith Andrews**

Review by Jen (BestSellers & BestStellars)

Back to You was such a great follow-up novella to *Man of My Dreams*. I loved *Man of My Dreams* and when I found out there was a follow-up story to it, I was so excited to read it! You get to see the attraction and connection that Mia and Declan have, but also get to see how Mia reacted towards Noah. It was intense and it will have you frustrated and yelling as you read. It was definitely an enjoyable story!

Mia and Declan have been through a lot- cheating, guilt, and betrayal. In *Back to You*, Declan and Mia are trying to their lives back to the happiness they had before everything happened.

I liked Mia from the beginning. She's such a likable character and it was easy to love her. I really felt everything she was going through. With everything that happened, she was still such a strong person, not wanting to give up because she knew she needed to stay strong for her children. Things weren't easy for her when she found out that Declan betrayed her, but she knew that it would be worth it in the end to fight for their love.

“It took a lot of heartache and too many mistakes to learn that lesson. But I have to believe that the heartache portion of our story is over. This story needs to continue with a pretty song and a love stronger than steel.”

Even though it seemed like a good idea to pursue something with Noah because she was hurting over Declan, Mia regretted it. She loved Declan and even though she had a crazy attraction to Noah, she knew that her feelings for Declan would never change.

“There is no doubt in my mind that my heart has only belonged to one man and one man only. I’m so sorry, Declan. I am so sorry for what I almost did to us. I’m grateful every day that you put your heart on the line and sang your soul to me that night. I was too weak, too stubborn to see what I was throwing away. And I am so, so sorry I didn’t come back to you sooner.”

Then we have Declan. I loved him in *Man of My Dreams*. Even though he made a huge mistake, I can't help but love him. He was so sweet and he was such a great father.

We got a glimpse of how Declan felt when Mia was with Noah, and my heart really broke for Declan.

“You don’t think it fucking killed me to watch you pretty yourself up for another man? Or to play babysitter for you while you did God knows what with him? it was torture. It was infuriating. It broke me, Mia.”

Declan regretted what he did to Mia and his family. He felt so guilty about it, but he really loved Mia so much.

“This woman owns my soul- it’s hers to navigate. I belong to her. I always have. It is entirely possible to love someone so much that it actually effects your physical being. Your heart beats faster and stronger. Your blood pumps wilder and thicker. Your brain bends, chasing images and memories of the person who does all these incredible things to your body.”

I really enjoyed this book. The connection between Mia and Declan was amazing, even with all of the struggles they had to overcome. It was beautifully written and Faith Andrews took me on another emotional ride full of passion, confusion, lust, heartbreak, and joy.

The quality of writing was great. The story was very well-written and very enjoyable to read. This was such a wonderful romance between two characters that had such an immediate, intense attraction to each other, but also shows you how things aren't always perfect and it takes a lot to get things back. The story kept me interested and I found myself anxiously waiting to get to the next page. I read it in one sitting because I could not put it down! This was a great follow-up novella with some of my favorite characters!

4.5 Diamonds for this sweet story!!

BACK TO YOU (DREAMS 1.5) by FAITH ANDREWS

Perfection.

This is the perfect follow-up to Faith Andrews' debut book, *Man of My Dreams*. When I found out that there's actually a follow-up, I was so excited to read it. Book 1 was deep, emotional and very real so to have a follow-up to that is such a wonderful thing. I mean, after reading *Man of My Dreams* I have this idea and question in my head in how Mia & Declan can move past what happened? It's a big work and maybe a difficult one and that question was answered in this book.

Mia & Declan did move past what had happened and was able to find forgiveness and acceptance and was able to move forward to a more better version of themselves and their marriage but the journey is not easy. It was obvious from the first chapter of this book that they both have something to say. They need to express it & talk it out for them to really feel that they actually moved on but they were holding back. It was difficult, on both sides. Mia was full of guilt while Declan though he tries to deny it is still hurting and still has doubts. But ya know what I like about how this novella was written? Faith Andrews showed their vulnerability and doubts in the most sincere and real kind of way. True, both Mia & Declan have faults but they both recognized it and acknowledged the fact that it takes two to tango and is willing to make things work for the better and everything about the way they think and express themselves in the story is so poignant and raw. The way Faith Andrews wrote every scene is full of true emotions and you will feel it, even if you haven't experienced what the characters are going through you will feel it deep in your core and in your heart like you are actually feeling the same emotions. It was wonderful. Perfection.

Fans of *Man of My Dreams* will sure love this novella. You will love it. I did. I so did. However, I want more and I don't want Mia & Declan's story to end. I hope there's more and speaking of more, we will have Noah's story. Like Faith Andrews said, he deserves one and his own HEA. There's no date yet and maybe Faith haven't even started writing it but hey, I will wait. I can wait and I am sure I will love his book. This series just keeps getting better and I can't wait for more. :)
