When Jenny Hanford goes on a Caribbean vacation with her online book club friends, she has the time of her life! On a silly whim, they each participated in a group dare to send a message in a bottle out to sea in the hopes of finding true love. While a few of the members did find love because of their messages, Jenny fully expected that not to happen to her. Little did she know that more than a year later, her message would bring Dare O'Rourke into her life. And while he definitely wasn't looking for a soul mate, in his deepest hour of need, he can think of no one but Jenny that he wanted by his side. Will they remain just friends or is there more to their relationship than they originally thought?

Ok. I loved this story. The dialogue between Jenny and Dare was ADDICTIVE, not to mention totally realistic and I pretty much couldn't get enough of it. And then, when Jenny and Dare meet for the first time??? Sublime, y'all! By the end of it, I may or may not have been swooning over Dare. Shhhhhh, don't tell my husband! This was one of the best stories I've read in a while. Especially the build up to the moment when Jenny and Dare actually meet. Just trust me. Read it and you'll see what I mean. Seriously. Read it. I HIGHLY recommend this book!

I was given a free copy of the book to read. However, I volunteered to write a review. All of the above opinions are entirely my own.

Aimee (Getting Your Read On) says

I know this is a part of a series of book but this is the first one I've read. It can easily stand alone. Jenny sends off a message in a bottle, Dare finds it. They begin an online friendship exchanging emails and then texts. It was a fun approach to a romance and I enjoyed it a lot. I picked this one up on Kindle Unlimited.

Brandy says

My favorite in the series so far. Just as sweet and charming as the first 4. Maybe a little more. Darragh 'Dare' O'Rourke and Jenny Hansford are my new favorite Beach Brides couple. I liked the fact that Jenny was the older more financially successful of the couple. 31 to Dare's 26. And how Dare dealt with her being more successful financially. I loved their online and texting friendship. I was falling in love with them, right along with them falling in love with each other. I appreciated that catfishing was brought up at the beginning of their online friendship. It added the needed realism. I liked Jenny's relationship with her sister in law and Dare's with his guy's. And of course the addition of the cute kittens. My favorite part though was when Dare is injured and asks for Jenny, and she hops on a plane and goes to the hospital to him. Having never met. Or even seen pictures of each other. This is one where I wouldn't have minded it being longer. Loved everything about it.

Tanya Brown says

Another heart warming story in the BEACH BRIDES series! Dare finds Jenny after finding her bottle with a message. Neither one really wants a relationship and become BFF's. They start out slow, not knowing what each other does for a living or the other's age and come to look forward to each other's texts. A tragedy happens and Jenny flies to see Dare. They realized they are more involved with each other than they wanted to admit but each have their own personal baggage that need to come out along with information about themselves that just might break or make this relationship. Great read! This is my honest review for a book given to me by the author.

It all began when a group of girls who are members of an online book club decide to meet up in the Caribbean at a resort. They have nothing in common other than they like to read romance novels and have had broken hearts. On a whim, Jenny throws a bottle with a message into the ocean and is amazed when someone contacts her months later. Dare, the soldier who found her bottle is later injured and asks for her. She hesitates but finally goes to visit him. Both have a lot of baggage from the past but feel attraction for each other. Not wanting to be a spoiler so I'll just say – this is a great book that is hard to put down. Well written with lots of emotion. A great story line and adorable characters. I voluntarily reviewed an arc of this book

Denise Stout says

Tossing a bottle into the ocean on a girls getaway leads to a pen pal-like relationship between Jenny and Dare. Emailing and texting brings them close, but neither wants to admit feelings to a virtual stranger. When Dare's chopper goes down and he asks for Jenny while in the military hospital, she doesn't hesitate in rushing to his side. As he recovers, they cannot deny their feelings, but a misunderstanding has the chance of tearing this new couple apart. They will have to overcome a little, plus admit their true feelings, to make a loving relationship work. A delightful romance I highly recommend!

Evelyn Wark says

Jenny's story is a great and worthy addition to the superb Beach Brides Series. I was hooked by the synopsis and the book didn't let me down.

Jenny is a successful author who meets up with her fellow online book club members on Enchanted Island in the Caribbean. They have all had a bad experience with love and relationships. They decide as a group to each send 'a message in a bottle' in the hope their true love will find it and get in touch with them.

Dare an army Ranger finds Jenny's bottle thirteen months later in Key West and gets in touch, although he makes it clear he is not in the market for true love.

They begin to e-mail and text each other, marking their relationship as BBF's (Bottle friends forever).

Unaware to either of them their relationship is slowly developing helped along by their like sense of humour, similar outlook on life and taking pleasure in the same odd things.

They are brought face to face when Dare is in an accident and requests Jenny's presence at his bed side.

Their path to true love isn't bump free but it's an extremely enjoyable and entertaining journey which made me smile at their banter along the way.

I absolutely loved Jenny and Dare's story and would recommend this to anyone who likes a good read, great characters and a lovely love story.

I was given this Advanced Reader Copy in exchange for an independent review.

☆☆☆☆ FOUR & 1/2 - STAR ☆ REVIEW ☆☆☆☆

> > Judging a Book by it's Cover < <

Serene, Idyllic. Looks very wholesome and timeless. The synopsis sounds extremely entertaining.

> > Looking Deeper < <

POV ~> Third Person

Witty, Entertaining, Completely Enjoyable!

Jenny writes Thriller novels under the pen name, Jenna. When she and a group of book club friends take a tropical vacation, stuff messages to their soulmates into a bottle and drunkenly cast them out into the water, they never suspected any would actually yield results, until it started happening!

Taking a short leave to the Keys, Army Ranger Dare O'Rourke finds a random message in a bottle too quick-witted and quirky to resist replying to. Though he's not looking for a soul-mate, everyone could use another friend, right?

Both were smart and strong characters that were completely enjoyable and entertaining to read. They both suffered a few missteps in their past that affected their decisions in this relationship but were mature and brave enough to own up to those mistakes in a timely and efficient manner. Their relationship was formed and built in a less-traditional sense, but it worked well for them and kept you smiling as you read their banter and exchanges. The secondary characters were well-placed and added just the right amount of support without taking over a scene. The plot, though short, felt complete and the style, while not traditional, flowed quite smoothly. There was very little predictability. The ending provided an implied HEA for the couple that was satisfying and mostly solid, even if the logistics of location were not clarified. Overall, I was thoroughly delighted by this fantastically fun quick read.

This is Jenny's story in the Beach Bride Series. Jenny is a member of an online book club that decided to get together for a vacation in the Caribbean. They all decide to put a message in a bottle and throw it out to sea. Several of her book club friends have already fallen in love. Jenny is a famous author who receives an email from the person who finds the bottle. They build a BFF relationship over email and texting. I loved everything about this book. It grabbed me right from the beginning. I really enjoyed watching their relationship change throughout the book. The author did a great job with character development. It was easy to visualize both characters. I was thrilled that one of the characters was a military member. I have really enjoyed reading this series and can't wait to read the next one. You will not be disappointed. I know I wanted more!! I was given an ARC from the author for an honest review.

Phylis Carpenter says

If you enjoy fun down to earth romance stories you will love this entire series. Jenny is a writer who works at home and makes her own schedule. She is part of the book club where the 12 women get together on Enchanted Island and writes down what they want their perfect hero to be like. Then they toss the bottle in the ocean and see if it is found.

Thirteen months after Jenny pitches her bottle she finds a message in her email letting her know that someone has found it. He answers each of her attributes and they strike up a friendship. Until one of them needs the other so they finally meet in person.

What I really enjoy about this series of books, they are taking people that we can relate to and putting a spin on the story that makes each of us believe that with a little positive thinking and a little help from fate we too could find our perfect soul mate and that makes for a fun read as far as I am concerned.

I really think you will enjoy this book. I received an Advanced Readers Copy and am voluntarily leaving this review.

I'm Loving It!

I don't know how I hadn't heard about this series, but I am loving it! Meg and Jenny have been my favorites.

While on vacation, Jenny and her friends each throw a bottle into the ocean with a letter for their true love. Jenny's is found by Dare O'Rourke, an army ranger. Neither expect a relationship, but become good friends, until Dare is hurt in action and asks Jenny to come see him.

I loved the clever emails and texts between Jenny and Dare. I was cracking up over the Bigfoot jokes. I felt like I came to know these characters, and I wanted to stay in their world. I was excited that Jenny's sister-in-law will end up with her own story.

A touching, sweet romance, that made me laugh, smile, and skip after putting it down. Yes, I said skip. This book made me happy!

Dreams Can Come True

Five Amazing Stars

I was so now incredibly thrilled to receive the fifth book of this new series, Beach Brides. Written by one of my all time favourite authors, Melissa McClone. This book focuses on Jenny's hope and dreams for her

future life.

Jenny Hanford was now sitting suffering after all this time still with herself. Nothing has ever changed much in my life. I'm still stuck in this tiny town in Washington where I live. I've already read every book that has excited me. She still had much more work to do still on her computer. She was such a marvellous writer.

Sleep would never come after completely a book. Subjects, titles even people's names would go through her head. She could just never fall asleep. She could never forget her bad memories of what thing she would rather forget. Always trying to change her name to be more private author. More people like her as a author and not herself.

Looking back as she was a member of the Romantic Hearts Club their group of twelve women decided to meet up and greet someone on the Caribbean aisle. Meeting up with these great people who all love reading just as much as here now. This was going to be a wonderful holiday. Returning back to America now they all had chosen to send their own messages using bottles to the sea. Hoping them all maybe to get a response. Yet Jenny didn't. Unbeknownst to Jenny, someone had finally actually picked up here bottle and wanted to me up with her too.

I loved this marvellous most enjoyable book so very much. I thoroughly enjoyed all this magnificent characters and just found it so hard to even put down.

* I recommend this book to everyone!!
