## **Kinky Neighbors** Jasmine Haynes

Two couples, two very hot wives, two husbands who don't mind a little swapping...

The Mitchells and the Harts have been next door neighbors and friends for the past year. They have loads in common; double incomes, professional careers, no kids...and a kinky streak.

Now they're about to become very good friends...with kinky benefits.

The sex between them all is hot, naughty, and unbearably exciting. It isn't merely swapping partners and moving to another room; it's true foursome sex, same room, same bed, all four involved. For Drew and Cat Mitchell and Logan and Alexis Hart, it's about barreling through boundaries none of them have ever crossed before, doing kinky things they've only fantasized about. But when they begin to exchange not just sex but emotional connection, the problems start; a little jealousy, feeling left out, wanting more from the wrong partner. Can two couples really share everything without losing it all?

\*\*\* Warning: contains sexually explicit material \*\*\*

**~ Cariad ~ says**

Good Lord!! This started off as absolute filth and I loved it!!...

Until about 70% when the cheating started damn it GRRRRR! This book was all about how it feels to be betrayed even when you wouldn't think that possible (considering the swinging that had been going on) it was kind of an unexpected twist in what was initially just a hot smutty read. I liked it a lot more when I realized it had such depth and I loved the HEA.

I'm definitely up book 2 now and thank the author for opening my eyes (and my mind!) a little further than I expected!

Holy fuck! It was well worth diving straight into book 2...

---

**Kayla says**

I feel like drew and Alexis both was doing sneaky things and meeting up texting each other .Cat and Logan should have been upfront in the first place .Being swingers just doesn't work out book goes to show you what can happen as a result.

---

**Karla says**

PHEW!! Not only did this book have me squirming...off the charts HOT...at one point I felt like someone punched me in the stomach. Sometimes you love someone so much that you want to fulfill their every desire, even if your gut is telling you no. The manipulation was subtle, even though two of the characters felt it, they over-looked it. Granted all of them were getting something from the kinky sex, how could you not, I for one am still sweating...LOL, but then somewhere along the line it was no longer just sexual gratification. Most people relate sex to love and it sometimes impossible to separate the two. For the most part they go hand in hand.

A very emotional thought provoking book that had me damning some and hoping for the others

---

**NhaughtyV says Damn the Zon Save the Reviews says**

I think this sums it up best..."God, it was good. Sexy. Hot. Dirty, taboo, and breaking every rule. It was all so seductively naughty and hot..."

I am now a super fan of Jasmine Haynes' writing! If you want a smoking hawt read, pick one of her stories, and you won't be disappointed!!! Kinky Neighbors is a story of be careful what you wish for...

Cat and Drew are a married and adventurous couple. Cat is always looking for ways to spice up their sex life, and what starts out as whispered fantasy to to her husband while they are making love, becomes a reality when Cat asks their neighbors Logan and Alexis to join them on a trip to Lake Tahoe.

**\*SOME SPOILERS\***

At the beginning, I really liked Cat, but that changed once I saw she was just using Drew like her own personal sex doll. She enjoyed sex, and wasn't afraid to say what she liked and go for it, no matter who she hurt in the process. The whispered fantasy should have stopped at just that; a fantasy. When she pushed her husband to have sex with their married couple next door, it was just a matter of time before one or two people got hurt. As the story continues, you start to see how Cat and Logan push and manipulate their spouses to take the next step and the next and the next...I kept putting myself in Drew & Alexis' place...what would I do? How would I feel? This book really makes you stop and think where fantasy and reality should draw the line. I highly recommend this book!! In fact, I highly recommend anything by this author!

Some fav scenes:

"Her fantasies were endless; she wanted to suck Logan while Drew was f\*cking her, needed a man beneath her, riding his cock as he was licking Alexis, wanted two men at once. So many dirty, filthy things she craved. What more could a man ask for?"

"It wasn't love; it was lust. But it was so very powerful."

"His deep voice was like warm chocolate drizzled over her skin and licked clean."

### **Mellisa Klock says**

Surprisingly great romance story; I loved Drew and Alexis!

---

### **Splage says**

#### **3 1/2 Stars**

Good erotica with a story, but not a real feel good story. Jasmine Haynes always has edgy plots that don't feel like you are reading a porno, but let you connect to characters and feel some emotions. Oh yes there are some very hot sex scenes too, but cheater-haters beware.

It was a short story, but it didn't need to be any longer.

---

### **Kathleen says**

WOW! For me this book really does deserve 5 stars. Let me tell you first off this was a real scorcher right from page one. It had me squirming in my chair the whole time, hahahaha. I also have to add that the story was very good too and did get very emotional at one point. I don't want to say why but I can tell you that this book made me want to reach into it and smack a person or two around. That to me is a sign of a great book when an author can pull those types of emotions from me. After I was done the book stayed in my mind for quite a while and I was still mad at a few characters like they really did that and were real people for gosh sakes.

I must add a warning, if you don't like you H&h getting down and dirty with other characters then this is NOT a book for you.

---

### **Elizabeth (Liz) says**

Cat, especially, but Logan as well, made me feel as if I need to do an all-over scrub with a loofah This was not an enjoyable read for me. There's only so much that the hot-factor can cover for. The kind of manic, ugly sexual manipulation that Cat was into does nothing for me. She needs a psychiatrist, a therapist, and, most assuredly, medication. I have nothing against dark, edgy erotica/romantica that straddles a line. In fact, that's usually some of my favorite. However, I wouldn't even classify this as that type of story. It was evident to me from the beginning that Cat was a cold, callous, malicious manipulator, and \*she\* drove this story. People like that do absolutely nothing for me except make me feel unclean and sick to my stomach. They certainly don't turn me on.

I've enjoyed books by Jasmine Haynes in the past, and this was well-written. For those two things alone, this story gets 3 stars.

---

### **Crystal says**

It was good

---

### **Cyn Mistress Kitty says**

WOW, I thought this book would be just kink about 2 married couples deciding to swing and swap partners. It was that with some amazing hot, naughty sex to curl your hair. But, somewhere along the line, it also became a really moving story filled with a lot of emotions like guilt, jealousy, love, betrayal, fear to name a few. I was pulled into this story wondering how it could possibly have a hea and relieved by the ending. I want to read more by this author.

---

## **Gea says**

To be honest, this book was great when it came to descriptions of the foursomes and all. Like, it was hot. Hot as always, with JH.

But the feelings were fucked up.

How weak can Alexis be? She's doing something she's not comfortable with, just because, for 5 minutes, at some point, she'll do something that she wants. How stupid is that? Also, Drew. What's his fucking problem? he says he enjoys Cat's adventures but he clearly doesn't, if he really did he'd act differently.

These people didn't have healthy relationships to begin with.

Also, there's the sequel. A sequel that I'm pretty sure only exists to high-light how terrible Cat and Logan are vs how perfect and sweet Drew and Alexis are.

Worse yet- everyone keeps blaming Cat for everything, but to be fucking honest NO ONE EVEN TRIED TO STOP HER. If she said she wanted to blow Logan, everyone said yes. She wanted to fuck Logan? Yes, no problem, Cat, do it. She wanted DP? Everyone got ready even before she could finish saying it. But then they fucked up their marriages and suddenly CAT IS A BITCH, CAT IS TERRIBLE, YOU RUINED MY LIFE. Fucking immature.

There's also this part when Drew tells Cat that the difference between Alexis and him, and Cat and Logan is that they didn't act on their feelings... As in, he's throwing in her face that she did wrong and he did right. But not a page later he's using the same argument with Alexis to exemplify how they did wrong on not acting on their feelings, like Cat and Logan had done.

Seriously, this book made me so mad. The only betrayal I felt was how everyone turned their back on Cat, and blamed her for what they all had done.

---

## **Regina says**

If you a book with a little story and a lot of SEX, then this is the book for you! It was over the top and almost redundant! No need to read the second or third installment, pretty predictable!

---

## **Limecello says**

I knew this would be something of a "difficult" read because of all the messy emotions and the situation brought up even in the book blurb.

It was hot, yes, but a lot of that was diminished for me because of the neuroses of the characters. It's believable for them to be upset and confused, but it was more a straight erotica than erotic romance, almost to me.

The fact that the "scorned" wife and abandoned husband then get together at the end felt a bit trite. Just that

two weeks and then they fall in love even though they've been friends for years and haven't felt anything like?

Also - it's as if ... well Cat was just this crazy manic bitch. I wondered how her first marriage actually worked.

Maybe a straight "D" instead of a "D+"

---

## **Joyfully Reviewed says**

Drew and Cat Mitchell have been married for ten years and they enjoy bringing other elements into their sex lives. Drew wants only to please his wife and . . . well Cat just wants to be pleased! She has no inhibitions and with Drew game for just about anything, Cat is willing to push the envelope. She has decided that it would be quite delicious to invite another couple into their bedroom and experience the world of foursomes and wife swapping – no not like the television show! It would just be sex, no harm, no foul. Drew is a bit iffy on the whole thing, but figures if the other couple has no qualms then he wouldn't mind playing along.

Logan and Alexis Hart are the Mitchell's next-door neighbors and friends for the past year. Logan would like to take their sex life up a notch, but it would seem that Alexis is a little more closeted in her desires.

Cat puts her plan in gear and Logan is all for it. Alexis takes a little more time to convince, but eventually her inner “naughty” girl makes an appearance and is raring to go. The deal is that it would just be physical, no emotions involved. Surely they can handle that; after all they are all adults here, right?

Kinky Neighbors is deliciously wicked and slightly diabolical with the driving force of some of the characters' choices. Yet it is one of those books that you CANNOT put down! You just know that when Dr. Ruth said it's okay to fantasize about a third party in the bedroom that she knew what she was talking about. Eventually someone is going to get hurt.

Kinky Neighbors fulfilled all of my expectations and then some. I just wish that the manipulative couple suffered more repercussions than what they did. I wanted them to hurt . . . and not in a good way! But everything else played out just the way one would imagine a foursome with married partners would play out. Because sometimes you just can't separate feelings from the physicality of the actions. Kinky Neighbors was scandalous, decadent, a bit naughty and sizzling H-O-T!!! If Jasmine Haynes decides to write a follow-up detailing the dreadful things that befall that scheming couple, because I am just that naughty, and the wonderful things that can be had for the other couple . . . I am so reading it. Until then I will have to console myself with some of her other works.

## ♥ Beth says

I actually read this one a few days ago and I'm just now getting around to writing my review. I truly couldn't NOT write a review on this one as it several days later and I am still thinking about it a lot and wanting to read it all over again! I think this has to be the best short erotic story I've read yet. It's about two couples (who are friends/neighbors) who decide to get kinky "together" and spice up their marriages, but along the way things start to change and become very intense and complicated.

I was blown away by the intensity of the feeling and emotion packed into this story. And was it hot??? OOOOOO. MMMMMM. GGGGG. ... WAS IT EVER HAWTTTTT!!! I was on fire and completely absorbed by the chemistry between Drew and Alexis ... I've always liked Jasmine Haynes' books, but she truly did an amazing job with Kinky Neighbors and I want to give her big KUDOS on this one! 5 BIG ★!!!
