## **You Fit The Pattern** Jane Haseldine

Crime writer Julia Gooden has just completed the most important story of her life—a book about her beloved brother’s childhood abduction and how she found his killer after thirty years. But that hasn’t taken her focus off her day job—especially with what looks to be a serial killer terrorizing the city. Female runners are being snatched off jogging trails, then slaughtered in abandoned churches.

As Julia begins investigating, with help from Detective Raymond Navarro, she realizes just how personal this case has become. The murders, planned and executed with uncanny precision, are of women who share traits with Julia. Now he’s contacting her directly, insisting things will get much worse unless Julia makes him famous through her writing.

But no matter how skillfully she plays along, her opponent’s ultimate goal is clear. And only by unraveling the threads that link a killer’s twisted mind to her own dark past can Julia prevent herself from becoming his final victim . . .

“You Fit the Pattern,” Jane Haseldine’s fourth hardboiled mystery featuring hard-nosed Detroit reporter Julia Gooden is entertaining but meanders from its usual high series standards.

A serial killer is targeting young female joggers in Mayberry State Park in the suburbs of Detroit, Michigan. In the opening chapter, single mother Heather Burns is out running her usual route when she encounters a stranger in the parking lot.

Heather notices the woman again while using the restroom. But things aren’t what they seem, and Heather realizes the stranger’s odd behavior—her voice, and the way she moves, are not the attributes of an elderly woman. She’s too agile, and her hasty movements and wig become apparent that Heather is dealing with a different kind of person.

Heather becomes one of a handful of victims, her body later found in an abandoned church by Detroit Police as they investigate the crime. Strange symbols are being left on the victims’ bodies, sexual and religious references. As the police and crime reporter Julia Gooden investigate further, they discover a terrifying pattern emerging among the victims.

The bodies are being clothed in blue dresses and different colored wigs, a pattern shaped to resemble Julia Gooden, the killer’s main target.

A teasing of backstory on the serial killer heightens the suspense and mystery, and Haseldine does a good job creating flawed, believable characters that readers will care about. But the emphasis on the occult and black magic seems out of place and requires suspension of disbelief.

Thanks to the author for supplying me with an ARC copy for an honest review.

### A Julia Gooden Mystery

Julia is back! Crime writer Julia Gooden has finished her book on her brother's abduction and murder when he was a child. And she has helped put his killer behind bars. It's a good story, but her editor wants more emotion and Julia isn't sure she wants to do that.

She's not letting that get in the way of investigating other crimes. Someone is abducting women joggers and

leaving them dead in empty churches with cryptic drawings in their hands. And all wearing the same dress. The exact dress Julia wore at a police function with her boyfriend Ray Navarro once.

As Julia digs into the case she gets a call from the killer himself. He wants to be famous and he wants her to make him famous by writing his story. He'll even give her little clues to the next murder. As the case evolves Julia and the police come to understand that this one is personal. That Julia is the intended last victim. But why? And who is this person?

This is one of my favorite series. Julia is no one's victim and Ray has no intentions of her being one.

There were some really good new characters in this one and a lot of misdirection which had me over thinking everyone.

That's good!

Well Done! A big thank you to Kensington and the author for a copy.

One of the best books I've read this year!

Jane has done it again with class, style, and a plot that dares to challenge every readers mind!

In this remarkable story Julia Gooden (crime writer) has just completed a book about her brother's childhood abduction and the killer she placed behind bars.

The too numerous to mention twists and turns will have you glancing over your shoulder because the women runners are being snatched up from jogging trails and killed in abandoned churches.

There's another catch -- the women being killed bare a canny resemblance to Julia.

The clock ticks with Det. Navarro by her side they must end this NOW before Julia gets killed.

The serial killer she now faces will not stop until he gets what he desperately wants and that is JULIA!

My word this had me gasping for air all the way through.

You Fit the Pattern for me was a nail biter that had everything a true thriller needs including the passion, the intensity, the dynamic to keep readers intrigued.

As a super fan of Jane's work I can tell you after reading the past 3 novels she is one superb writer!

Congrats on another great novel that is a must read for 2019!

Thank you to Jane, and her publisher, for providing me this ARC in exchange for this honest review.

This ARC will be donated to The Hoyt Library Kingston Pa in loving memory of my niece Cassie Ann Gatcha.

Thank you so very much for allowing me the opportunity to read such an amazing novel.
