Some stories I really liked and others not so much....

Amy says

Fantastic compilation of books! Perfect for the summer. This anthology has a little something for everyone!

Nicki Small says

I am only giving this a 3 star as the title is dirty boys of summer. Well it was not really like that. Do not get me wrong, some of the stories in the book were really good and I even bought the rest of the books or marked it on my to read list.

A lot of them were young adult. Which is fine as I happen to really like them gen but the title is very miss leading in this book.

However, having said that what value for money. There are some really hidden Gems in here which I would not have found unless I had read this book. So money well spent.

This set is filled with so many wonderful stories from some great authors.

I loved *The Academy* by Evangeline Anderson. Kristopher and Kristina were twins. They got to spend a lot of time together since their mother died at birth. Their dad was one that thought love was money. He had ordered Kristopher to go to the Academy and Kristina to be married to someone of her father's choosing. Kristopher wanted to audition for the chair in the First System Orchestra and Maestro. Kristina stepped up to the plate and pretended to be her brother and got to the Academy. This story will take you on one amazing adventure. You will find so many twists and turns along the way.

YA in all but two books

Full length books that give you an experience of these different types of books. I liked that most of these books were stand alone. Except for 2 or 3 that had sexual content can be read by all readers.

Unique, interesting - a great cure for the summer heat! Or does it just amp up the temperature?

Included in this set are sixteen distinct books each written by a unique author(s). There are so many different storylines to choose from, it seems there should be one for each mood. Young and new adult, contemporary and paranormal are offered by seasoned and newbie authors. With authors that I already love, such as Evangeline Anderson and Opal Carew, plus authors I recognized like Rachel Higginson, Jen Frederick and C.L. Stone, deciding where to start was the hard part!

Happily, a fellow book-lover recommended *Kiss the Sky* by Becca and Krista Ritchie and she was spot on! These are new authors to me but, after reading this book, will definitely be ones I seek out. Centered on a family and group of friends who are participating in a reality TV show, the characters and their voices just strike a chord right from the start. Rose and Connor are young but have known and loved each other forever. While maybe not actually saying the words, their conversations speak volumes. And what great conversations they have. Articulate yet relatable, funny yet poignant, this book held characters that have suddenly become good friends. Well, other than Scott, of course. Loved it! **5 stars**

Taken By Storm by Opal Carew was a quick, hot, sexy punch as "taken by Storm" takes on a whole new meaning. Jessica falls under the spell of an irresistible bike-riding rocker even though she knows this may be short-term. It was hard not to fall with her as the author knows how to write a panty-melting scene and does not disappoint here! **4 stars**

There are so many more great stories to choose from, but these titles alone have me hooked! ~ Diane, 4 stars

I read The Sowing by Tamara Mataya. I have to say the book was a little weird at first, but I think it's because it wasn't what I was expecting. The author did draw me in and I can't wait to see how the story continues.

MJ says

I got this as a recommendation, since C.L. Stone is a contributing author. Unfortunately, her story was the only one I liked. I tried a few of the others, none were finished. It was a good buy for 99 cents and all full length books, too bad so few were my taste.

I didn't read the first book but you don't need to understand what is happening in this story because the lead characters are different but you do see the continuation of the relationship of the main characters in the first book Undeclared

In this story BO and AM as a couple work well together. I totally felt bad for AM she made a mistake (giving up her Virginity while drunk to an ass of a guy) and she was bullied at college because of it. They called Her Slut, Whore, and worse. [Listen people make dumb choices everyday but there is NO ONE that is immune to it so before you cast that first stone you should look in the mirror.] Bullying is just plain wrong and I am glad that AM with the help of BO is able to take back her life instead of hiding from everyone at the college.

Bo is a former Marine and is in college with AM they have Biology class together and when he signs her up to be his lab partner that is when things become interesting. wink wink LOL
