### Luke says

I just kind of scanned this one. I got to about halfway through and was tired of it, and it was due at the library soon, so I just read bits and pieces of the rest. Seems like a good storyline, but not as good writing as the first one.

### Rachel says

Kennin's reputation as a drifter is out on the streets now. Everyone wants to see an epic race between Kennin and Chris, but complications keep popping up. Shinchou's situation is worse than ever, Raoul can't seem to stop stealing cars, and Tito wants Kennin to stay away from Angelita.

Sure, the ending was a cliffhanger, but it's a trilogy so it wasn't all that bad...

It's a book about drift racing. It was excellent.

I chose to read this book because I finished the first one and I liked it so I read this one. The genre of this book is realistic fiction. The setting of this book is in las vegas and it is present day. The main characters name is Kennin Burnett and he is asin with dark long hair. He is very competitive and is a laid back person. This book is about these kids who race cars and the kind of racing they do is drifting. Well kennin is very good and he is going up against these jocks in school and when he wins against one of the worst drifters they say kennin cheated and want a rematch. Well kennin won fair and square but he said he will just beat him again. His freind tito put all his money on kennin witch kennin did not like that cause what if something went wrong. That night angelita spent the night at kennins but they did not do anything but tito does not belive them and tito is mad at kennin for like a month. Kennin and Angelita like each other but this one popular girl in class likes kennin and angelita thinks that he likes her and she is gunna mess up the thing between kennin and angelita. Well she dosent talk to kennin and at work kennins boss wants to start a drifting track and kennin is funna race for him. Kennins sister ows this guy 5 grand and she does not pay him right away and he tells kennin your gunna pay if you do not lose the second race. So kennin wins the first race and the kid is not happy and wants to fight and kennin beats him. The second race kinnin wins also so that guy his sister ows money to is not happy and tells kennin if you dont lose the last one your gunna pay. So the first kid wants to fight kennin again and kennin wins but well kennin is fighting this impact gun is bothing him but he tries to ignore it. So they start the third race and kennin knows there is something wrong with the car and the tire falls off and he crashes and that is the end of the book. So i cant wait till i read the next book. I love the book it is so good and i hope the next book is good too.

Rate: 7.5/10

Recommendation: I recommend this book to anyone who's interested in cars, graphic novels, realistic fiction, or comedy.

Flaws: I feel that Todd drifted away from the plot a bit and started to focus on making comedy.

Theme/Take Away: Never overlook any challenges that you face, always take them on and you'll be surprised at what great things you can achieve.

Why I chose this book: I chose to read this book because I'm interested in cars, especially the art of drifting. I want to read the first one in the Drift X series, but I could only find this in my library :\

this book is about a teen named kennin who is known as the great drifter on the streets until his sister shinchor gets an operation which her boyfriend jack had payed off but had made a deal with her to pay him back. now kennin must race to gain money to pay off the money but when he decided to disobey things get into trouble.

i would connect this book to the world because people who drift illegally get into trouble and in also making deals with one another.

i would give this book 5 stars because it is a non-stop action book with racing fighting and love.

I liked this book because its about cars and racing. the book is about this kid named ian illegally street races. Tonight he is going up against the top drifter in the state, Chris Craven. His friend tito his sister builds and sells street racing cars for money for college but tonight she is letting Kennin use a nissan 240x the recent car she just built and was about to sell. It was almost Kennins time to race but the people who were racing before them one crashed and the car exploded. The cops saw the explosion and went to see what happened. So all the racers had to get out of there. So Kennin and Chris have to find another place to race cause the cops found out that there was racing going on up there.

Well I choose to read this book because i read the first one so i wanted to find out what happened in the race because at the end of the first book there was going to be a race so i wanted to find out what happened. The Genre of this book i realistic fiction because there could be illegal racing out there so there so this book is

like that just in a book and i am liking these kinds of books realistic fiction. THe setting of the story takes place in Las Vegas like in the mountains because thats where the illegal racing takes place usually at night it also takes place on some of the casinos thats where the main character works. The main character, his name is Kennin he is the best drifter most of the people in his high school now him he has a best friend his name is Tito. Tito's sister Angelita likes Kennin but Kenning does not know it she works in a garage fixing cars Kenning uses her car to drift in races. The Plot summary of the story is that Kenning has a big race and that he needs to win it because Tito bet all of his money on him The conflict is that in the first race it rains and the race is cancelled the second he is threatened by Jack the Jackass so he has to lose but in the end both of those pretty much are resolved because he crashes and thats pretty much how the story ends on him crashing. My opinion about the book is that its a good book im really liking the series and i want to know what happens after he crashes can he race again or not.

Drift is and an awesome book to read. It's written by Todd Strasser. This book takes place in the city that never sleeps....Las Vegas. The main character is a young Japanese guy that is new to the city and he doesn't know much about the new city. But he gets introduce to the world of drifting, and he lives his life in the fast and dangerous lane. If your that type of person that love to race, drift or just love to be around cars. Then this book it great for you. It's really rare to find a book about street racing, or just a book that you will really enjoy to read.

The DriftX book is a series, so in order to understand it you have to read the first one. This book continued with a 17 yr old asian guy named kennin. Hes identity is discovered, hes one of the greatest drifters ever known. This is a really interesting book to read and its a book that once you start reading, you wont be able to put it down. Its interesting how they talk bout cars and what type of things they put in them to make them better.

Kennins identity about drifting is found out, he was trying to keep it as secret so he wouldnt get the temptation to race again. He wasnt interesting in racing anymore because one of his friends died while drifting in the rain. 2 guys from his high school confronted him because they heard that he was a great drifter, but kennin didnt want to race because of the incident that had happened to his friend. At the end he ends up racing and it was raining so he was kinda scared that he might crash or commit an accident that might hurt someone else. AT the end he ends up winning the race. Its a great book i recommend it to people who like to read interesting book.
