## Dragon Mated Jaymin Eve

It is said that if you lie with snakes for long enough, you either become a snake or you get bitten and die. Makes perfect sense. Except if you are a wolf. If you are a wolf, you lie in wait, you bide your time, and right when their guard is down you kill that f#@king snake.

Jessa Lebron – currently prisoner of asshole dragon king.

In the epic conclusion to the Supernatural Prison trilogy, Jessa Lebron finds herself deep in the world of Larkspur, the dragon king. She will have to play it smart and fight with everything to stay one step ahead of him and while at times it's tough to keep her focus, she will do anything to escape and reunite with her boys, the Compass quads.

Of course, it's impossible to be where she is and not dig deeper into the curse of the dragon mark. As more information is uncovered, she starts to understand why she, of all supernaturals, was the one to be singled out. And this changes everything she thought she knew.

Turns out she doesn't know a damn thing.

There will be decisions to make. Tough decisions. Jessa has to be strong enough for the sake of the supernatural races, but sometimes that's easier said than done.

## From Reader Review Dragon Mated for online ebook

### Taniqua Cary says

Well, I'm not sure. I liked this enough but not nearly as much as the first two. And definitely not as much as any of her other books. Idk maybe I should have reread the others first who knows. I didn't like Mischa the moment she was introduced in the first book, and I still don't but I like her a slight bit more after this. I think I just wanted Jessa to have all the Compass brothers to herself lol. It was still okay though, just not what I was so excited for.

Need to think about this one!

First off: I LOVE THIS SERIES

I love that Jessa likes food so much  
I love the hotness of the Compasses  
I love that Braxton is with Jessa  
I love that the pack is so close  
... and there is so much more!!!

But before you read any further, I love this series and the author(in case you didn't know) and would rate this whole trilogy 4/5.

The review I wrote down below however is more about the things in this particular book, which kind of made me like the series a little less. This is mainly bc I was kinda frustrated after reading Dragon Mated.. and I had to let off some steam and wanted to leave a little (but still polite) criticism behind.

But still I'm so bothered by some things in this book that I can't bring myself to devour the book as fast as humanly possible.

- The first book was mainly about Jessa and the Compasses, which I liked. Well this book still focuses on her but it also brings her sister more into the story, which would be fine, but I belong to the people here, who can't stand Mischa...she might be a nice girl, but not only Jessa (sometimes) thought of her sister as stupid, I did too. With Jessa being so strong, you can't believe how weak her sister is, even though she had a good life... (Seriously that girl has almost no idk common sence?/backbone?/pride? - can't describe it).

I still could have read it enthusiastically, BUT (view spoiler)

Well and then there was Mischa's (view spoiler) I just wanted a clean and nice ending for Braxton and Jessa - well not happening here...

I probably won't read the Compasses books just bc I can't stand Mischa and she'll be probably the center of Maximus story(even though I'm kinda interested in knowing as to why he didn't cling to Cardia as much as

one would expect).

I'd rather prefer more of Jessa, bc she is one serious badass girl :D

Do I wish this was a reverse harem? Yes. Do I really care? No not really.

Other than what I wish would've happened, I have no complaints about this conclusion to the Supernatural Prison series:)

For some super odd reason I finished this book forever ago this month and totally forgot to write a review - so here it goes!

Second time read and a first time review.

I'm such a slacker guys!

*Dragon Mated* is sadly the final book in the *Supernatural Prison* series. But don't fret because there is a spin off series for people who love this one. I think there's like one or two books out for it but it's been a while since I dove into that one so don't take my word for it just yet.

Jessa and Braxton's relationship is on fire. I love their chemistry but I also love how their friendship turning into a relationship didn't ruin any of her other friendship with her friends. Now the whole time I thought her eggos was preggo but low and behold she was just feeling what her stupid ass twin was. I was so sad and disappointed that it was Mischa pregnant first because I just don't like the girl. She whines all the time and even though I secretly wanted her and Max together ... I just couldn't get around the fact that she is just still so naive about everything. She frustrates me to no end.

I loved the ending because I just thought it was way too cute. Overall, I'm happy with this series, again. I loved it the first time around and I'm super happy that I still feel the same way. None of my ratings changed which is always a good thing. I have no idea if I will dive back into that spin off series and read about Maximus.. mostly because I know it contains Mischa and I just can't pretend to like her right now.

Noooooooo, this third and final instalment has completely RUINED the whole series for me!

It's just awful. The first two books have the odd cliche and a tonne of arrogant phrases and predictable occasions, but I could overlook them because the story had a good pace and was interesting.

In this one the romance and happenings with the main characters is slow and downright dull.

What was with the first section with The Dragon King- this could've been so much more interesting. I love a strong female character but the constant swearing and colloquial language just felt so forced. Ugh, just everything was wrong for me.

Sorry. X

Absolutely amazing! I loved this entire series but I think Jaymin has kicked it up for the final book. I laughed, cried (sometimes at the same time), got mad and happy for the entire pack. This is one book I didn't want to put down until the end you won't be disappointed it has everything you need action, romance, love, heartbreak, the works!

### **Kim says**

I have to say... I'm a little disappointed. In the beginning, the background catch-up was a little too verbose - a little too 'explain-y', so the dialogue felt forced and awkward. The author should have spent a little more page-space on letting us see/feel/infer connections and histories instead of placing it on a platter. As the story went on, obstacles seemed just a little too easy to overcome; the resolution too quick and simple. I was certainly disappointed in the end. The first two books had me expectant to see a satisfying resolution to the Dragon Marked and the King, as well as seeing each of our beloved Quads settled in, having found their True Mates. Alas, it seemed that the author had a change of heart between the last book and this one, and decided to prolong this and space out Mate resolutions so that each of the boys have their own spin-off book. Which would have been fine if it had originally been set up that way. But it wasn't. The gains and involvement that we acquired from Grace and Cardia in the last book became null and void: (view spoiler). Ugh. Nope. Nope. Nope. It's a damn good thing that I am so hardcore in love with the Quads and our sassy, snarky, fierce Jessa that I still overall really enjoyed the ride. I am a sucker for pack bonds, brotherly love, true-mate devotion/protectiveness/territorial-ism and profound family/friend loyalty during battle that this is still very much up my alley, even if this third book did fail to deliver the battle and resolution that had been so highly anticipated. I hate to say it, but I'm thinking that the only way that I'll read any of the spin-off books would be if it was still narrated in Jessa's POV. Which seems unlikely. \*sigh\*

As the last book in this series, I have to say, I think Jessa would agree with me here, It truly is a full course meal for the mind and soul. Enjoy my fellow Supernatural fans, you will not be disappointed. I wasn't.

#### **Happy Days, Dragon Mated is finally here!**

What can I say about this final installment in the Supernatural Prison trilogy, how about I liked it, I liked it a lot. *But I just didn't love it.*

Don't get me wrong it was good, I just didn't feel the same love books 1 and 2 seemed to invoke :( That being said I did more or less read it in one sitting, bar a couple of hours sleep.

I think the problem was it just had a different feel. Now I love Jessa, but there were a couple of times where I kept thinking yeah I get it your a special bloody snowflake move along. And I think the whole Mischa thing was a complete cop out, (view spoiler) this didn't engender me to her it just made me think, wow, she's immature as well as dum!

Overall I was happy with book 3 I just don't think I'll find myself rereading it like I have the other two.

**(Rating: ★★★½)**

I was a little disappointed with some of the side character storyline (lack of) endings, until I saw Jaymin has some *Supernatural Stories* planned. So, hopefully/thankfully, those loose ends will eventually be wrapped up. Aside from that, I felt this was a good ending to a fun NA trilogy.

**\*Might contain spoilers!\***

I...I sadly have to say that I'm actually disappointed. I had expected more, or less; depends on how you look

at it. I'm happy for Jessa and Braxton, but angry for Maximus, and I still can't connect, nor love Mischa. In fact, I kinda hate her. I guess I had too high expectations for this book considering I loved the first one, and really liked the second one. But well, you can't always love every book in a series, now can you? Anyway, I'm sad this journey with Jessa is over, and I'm actually not sure if I'll read Maximus story because I have a feeling it involves Mischa too much...

-May Have Spoilers!!!-

This was a wonderful conclusion to Jessa's story! I was kind of worried that this finale book wouldn't live up to the battle and climax it's been working up to but thankfully it nailed it! The battle at the end was epic and kept me on the edge of my seat!

Jessa is put through hell through this last book but like always she has her boys with her. And her and Braxton.... -swoon- I adore them! I can admit though, I got a little bored while they were all stuck in Faerie but it quickly picked back up towards the end.

And the ending was so full of heartache... poor Maximus! And Josephina... wahhhh... sad but happy... totally bittersweet!

The only complaint I had with this novel is Jessa annoyed me a little bit. WE KNOW YOU ARE SO VERY SPECIAL, THE BEST MOST SPECIAL CUPCAKE IN THE BUNCH. Jeez, Jessa was the kinda heroine that could do things no one else could, was special and everyone loved her... it got annoying after awhile.

And Mischa's secret!!! -gasp- I wasn't expecting that at all! Now, for me at least, (I know a lot of people hate her) but I feel like all of her nonsense from the last book made perfect sense. And after reading the blurb to Max's book it DEFINITELY all makes sense. Max is obviously her true mate (which I'm assuming by the conclusion to this one and the blurb of the next one) so of course she was depressed and desperate... And made insane decisions! Her mate denied her, chose another, slept with and flaunted his "mate". And poor Mischa had to sit and watch it all why everyone thought she was being "too human" and being immature because she couldn't get over her "crush" on Max. Hell, her soul was probably tearing apart!

I'm totally team Mischa now, so Max better beg, grovel, and plead to get her back in his book!

(Oh and of course Jessa had to one up Mischa AGAIN when her pregnancy is with twins, boy and girl.) Poor Mischa can't have anything special because Jessa is the most special one always.

-rolls eyes-

Anyways, back to Dragon Mated, I loved it plain and simple. I'm sad to see Jessa go but I know I'll see more of them in the Compass boys books! This has been a wonderfully written trilogy and I highly recommend!
