## From Nanny To Wife Kate Hopkins

Nanny, Hope Landry loves children. When the doctor told her, she could never have any of her own she decided to dedicate her life to taking care of other peoples children. When she accepts a job, taking care of Ryan Kendall's three year-old daughter she thinks it will be like any other job. She soon learns how wrong she is.

Ryan Kendall is a workaholic with trust issues and a greedy ex-wife he wishes would disappear. The only bright spot in his life is his daughter Zoe. When Zoe's mother sues for full custody Ryan vows to do everything in his power to keep his daughter with him, even if it means getting married again to do it. He realizes that not just any woman will do. He needs someone who will love Zoe almost as much as he does. What he needs is Hope. Ryan convinces Hope to marry him for Zoe's sake. What he thought would be a marriage of convenience turns into something more when he and Hope find themselves falling in love. Will they be able to make it work? Or will their marriage fall to pieces?

## From Reader Review From Nanny To Wife for online ebook

### **Meghann says**

It was a great read. The only problem is that the whole book seemed rushed.

---

### **Janet says**

i enjoyed this book it reminded me of the show the nanny it had no resemblance but for some reason it did ... i finished both book in a day it was nice :)

---

### **Paola and Francesca says**

This is a book that really pays attention to details such as the fact that the rich protagonist Ryan has a house with a three car garage and that his daughter's bedroom is located behind the third door on the right in one of the hallways. I'm a bit confused about why this man has a housekeeper, cook, and butler but only a three car garage, but who cares where the help park, I guess? The point is that the book is meticulous about details like that but not about properly using apostrophes.

To be honest, I knew from the title that this was going to be a hate read for me (I downloaded it for free from Amazon at some point for reasons that now elude me). A rich employer hitting on his employee! Totally romantic and not at all creepy! But wow, add in a three-year-old who hasn't yet mastered helping verbs and refers to herself in the third person? Oh yeah, here we go!

Seriously though, never mind that the book sometimes shifts locations without any indication that we're now with the nanny named Hope (subtle) and not in the rich guy's office. Never mind that all the writing meant to make the child Zoe seem cute actually makes her annoying to me. Never mind the typos. This quotation right here is why I really didn't like this book:

Hope knew the minute she laid eyes on Zoe Kendall her life was never going to be the same again. This little girl would give her life meaning. She knew that as surely as she knew her own name.

Really? We're getting the love at first sight trope about a child? That must be one magic child. Of course the whole reason Hope became a nanny was because she couldn't have children, so really, this isn't so much a job as a way to fill the gaping hole in her life left by childlessness, which sounds totally healthy and not at all like a terrible way to deal with her grief over her divorce and infertility! And is her ex-husband who couldn't handle her infertility the villain of the piece? No, of course not. It's the rich guy's bitchy ex-wife who is a parody of bitchy ex-wives.

I will generally read everything on Amazon's free romance list, but I will not be reading the sequel promised at the end of this.

---

**CJ - It's only a Paper Moon says**

Amateur writing, bad editing and syntax as well as a pace that was too fast or too slow depending on the author's mood. Not worth reading.

---

**Karina says**

Really good story, I enjoyed reading the book and can't wait to start reading the second book. Right from the beginning the ex-wife was a pain.

---

**PattyPepperpotts says**

Serves me right for reading something with such an unimaginative title.

---

**Crystal says**

I just loved this story. I love when you get two strong personalities together. They just bring out the best in each other. I love how they come together for his three year old daughter Zoe. His ex-wife is a major witch.

---

**Beth says**

I liked this story. I am eager to start the sequel to it today!

---

**Amanda says**

Fun read with likable characters relatable storylines. However, nothing new or overly interesting.
