Guarding Her Heart

I enjoyed the story. It just seemed to wrap up kind of fast. Victoria and Garrett were great characters and I hope they show up again in the series.

Elissa Mahler says

An intense stalker mystery. Will she be able to determine who has stalked her in Paris and then followed her home? Will he succeed in joining them together forever? Can two people rediscover the love they once felt for one another? So many questions, so exquisitely weaved together to form this story. Want to know the answers...read the book!

I was blessed with a free copy of this book, and I have chosen of my own volition to share this review with you.

Susan C. Belanger says

Interesting and compelling read.

While it wasn't the most provocative book virus ever read, it held my interest the entire time and I liked the characters. I'm unhooked on reading book 2 in the series!

Kim says

I obtained this free e-book from Amazon and I am voluntarily writing a review. I hate it when the book jacket is better than the book. I got whip lash from the back and forth actions of this book.

Guarding Her Heart by Laura Haley-McNeil

Crystal Creek Series Book One

Victoria Whitlock's peaceful life took a sudden turn. One minute she's busy writing and sketching for her new book about Paris...the next she feels she's being watched. And then the phone call. Their dad is missing. Victoria continues to feel she's being watched. She was right. Getting home to Crystal Creek Ranch was not the homecoming she expected. And worse...the one man she wants far away from her, is now her protector.

Garrett Reynolds finds that ten years of being apart hasn't changed much for him when it comes to Victoria. Especially finding out she's in danger. He takes over protecting her, but this is not a regular job for him. If something happens to her...he'll never be the same. Not that it matters, they can never be together. Never.

This story was a real page-turner. An unknown stalker. A missing father, which that story is to continue. A father, who by the way, has a penchant for collecting ex-wives and mistresses—not to mention lots of children. A teenage romance gone wrong. Great story.

Carrie Austin-Malone says

I liked the story and loved the plot twist which makes a good suspense story for me. The thing I liked most about the story was it didn't focus on the romance angle heavily so if you are a reader that skips the sex scenes because you don't feel they add to the story but still want a Romance then this book is for you.

This book could be read as a standalone, but is the first part of a series which I plan on reading.

Lillie says

I rarely leave two-star reviews because I usually abandon books very early that I'm not enjoying. This would have been three stars until the very end. One thing that pulled me out of the story was that Garrett is a prosecutor, not a lawman, yet he seemed to be in charge of the investigation as well as protecting Victoria. Otherwise, the suspense kept me reading, and the romance was enough to make me wonder why they had stayed apart. Unfortunately, the solution to the suspense and the reason for their being apart both turned out to be weak, thus the ending was not satisfying.

Isobel Turnbull says

Exciting story

A real thriller which keeps you guessing!

Brilliantly worked out! I couldn't lay it down till I had finished it. Good ending.
