Heart

Some people might look down on being a porn star, but this job has been my salvation. It's the only one that didn't turn me away when learning about my criminal record. After being screwed over by my ex, I vowed to never let another man close, but when my sweet, nerdy friend Mason asks for my help improving his skills in the bedroom, I can't resist. And then there's my gorgeous yet grumpy parole officer who has made it his mission to save me. They both seem determined to test my resolve, and it's getting harder and harder to remind myself why it's so dangerous to trust.

Mason

When it comes to me, awkward nerd is an understatement. I'd rather spend my nights and weekends gaming and coding than socializing. When I somehow stumble into not only a friends with benefits situation with a freaking porn star, but also land a date with a drool-worthy parole officer, I'm certain I'm in over my head. Can I manage to keep from getting my heart shattered if these two figure out they're better off together than with a klutzy dork like me in the middle?

Lucky

I've always had a weakness for nerds, so when I score a date with uber-cute Mason, I'm over the moon. The only problem is that I can't seem to get a certain bad boy porn star out of my head...and he's a freaking client. Dating him is against all the rules, but when I discover that Mason and Heart know each other, I find myself in an unexpected threesome. My predictable life turns to chaos, but in the end, it may just be worth it.

# From Reader Review Heart for online ebook

## AussieMum says

Alright. So I'll admit I'm probably not the craziest about this series. I ignored book 1. Liked book 2. And thought this one was ok, just really bloody slow. And not in an ultra-slow-sexy-burn kinda way. Sort of a so-slow-it's-a-bit-boring-but-still-sweet-and-slow kind of way.

But Mason was super cute and quirky. And I liked Heart and Lucky but seriously hated both of their names. Don't even get me started on Campy...not sure if I'm continuing this series yet.

---

## Ele says

I loved the first half but the second half felt like a whole different book. Too corny for my tastes. Some conflict would have been good.

---

## Kristine (A Cozy Booknook) says

I have eagerly been waiting for this story and was not disappointed. The story is fast-paced, steamy, and full of emotion. The complex characters had me wanting to know more about them. I enjoyed following along on their journey. I enjoyed this book and look forward to reading what happens next.

---

## Zuzu says

[However, as a personal note, I just don't see how they separate the porn star job from the relationship. To each their own but absolutely no way could I be interested in a relationship with someone who does porn. PLUS DP is not sexy!!! Seriously not. (hide sp

## Fabi says

The first half of the story was so good! Mason is adorkable. ?. Heart made my heart hurt. I had some reservations about Lucky. He seemed too rigid and uptight. But I loved how he treated Mason.

Unfortunately, the 2nd half of the story started going downhill for me. I didn't really know/remember this was an M/M/M romance. When the threesome dating started I got a little bored with the slow pacing. The makeout sessions between the three of them almost made me uncomfortable. I started to think that both Mason and Heart needed to start letting go of their issues because I was getting tired of the repetition.

For some strange reason the age gap didn't work for me in this story. Very unusual for me and it's only 10 or 11 years between Lucky and the other two. It felt a little "daddyish" to me.

This book needed a **good** editor and proofreader. Now I'm starting to sound like I didn't enjoy the story which is not true at all. **I love this series and all the Ballsy Boys.** I'm looking forward to more.

### 2.5 Stars

How is a story about a porn star and his two partners...*boring*?

I read another review recently that said sometimes we review books based solely on our expectations of what we think *should* happen and not what actually does. Maybe that's what I'm doing here but being bored almost to tears during this book was not my idea of fun. **Even if the story goes in a different direction than I thought it would, that's perfectly fine if executed well. IMO, this was not.**

The last book, *Tank*, was go, go, go, full steam ahead and deliciously filthy. I did see some negative reviews regarding *Tank* and *Rebel* stating they were PWP and contained too much sex. It felt as if this was a response to that because there is hardly any sex in *Heart*. **Why the story with a menage would be chosen to contain the smallest amount of steam baffles me.** Instead, this is a slow burn with relatively high angst, a MC with severe social anxiety and deep-rooted insecurities, a MC that has issues with self-worth and trust issues, and a MC that helps the others with their problems but is otherwise forgettable.

We've gotten to know Heart and Mason pretty well over the series while Lucky was new, which probably influenced my indifference towards him. **When the three of them (finally!) get together, the dynamic still felt off to me.** Heart and Lucky treated Mason like he was an incompetent child the majority of the time. They do most things together but it still felt like someone was being left out. Heart and Mason understandably have some issues but were so melodramatic - *no one will ever love me, the other two should date because I don't belong with them, they would be happier without me, I'm only good for sex*, etc. I appreciate that each actually worked through their problems and didn't just did a dramatic 180, but it got to the point that I just wanted to smack both of them.

There were a couple of loose ends left and things included in the story that had no purpose. We've told how much of an ass Heart's new parole officer is but never introduced to him and it's never mentioned again. Lucky's brother, Ranger, is given quite a bit of on-page time talking about what's going on in his life and the problems he's having, but nothing comes of it. Was the purpose to motivate Lucky to get his shit together and pursue the other MCs, like a "life's short" kind of thing? There is something Lucky does for Heart to help him improve his life and get rid of his crazy ex but we're never given a resolution on what happened to the ex. Why did Lucky constantly harp about how he was too old for Heart (33 vs 22) when Mason was around the same age and yet that was never mentioned?

All the nicknames personally bug the hell out of me. Heart's is understandable but why must everyone call Lucky by his nickname instead of his given name, Jasper? Am I really supposed to believe that Mason went on four dates with the man and never asked for his real name? And as for the sex, there is only really one sex scene with all three of them at the end and probably three overall. **In case it's not clear, click off this page and run far away if you're looking for a steamy read.**

I normally lurvvvve slow burns but this one just bombed for me. I think the story was cute but the wishy, washy, *woe is me* MCs and lack of steam just did it in. Add on top of that the mushy, cheesy last third of the book plus a lackluster, unsatisfying ending and, well, here we are. Maybe I'm judging it more harshly because I expected something entirely different, it's quite possible - regardless, I wouldn't read it again.

**Santy says**

This was very \*ahem\* BALLSY \*ahem\* ??

By that, I mean, there were numerous(but well placed) sexy times of the scorching variety which was 10000% appreciated.

While I didn't feel the 3 men were at the "declaration of love" stage yet, I felt the connection between them and totally believed they cared for each other and were in it for the long run. This sometimes is difficult to achieve with a ménage book & I was more than happy with the outcome.

P.S: I really need Pixie & Bear's Book now!

---

**Cadiva says**

**Another great instalment in the Ballsy Boys series**

I do love a good menage and this one took its time to build up with each of the three men needing their own unique approach to the complexities of a relationship with two tigers.

Each one brought something to the relationship that the others needed and it was a gradual build up of trust between Heart, Mason and Lucky before they finally took the step to solidify their threesome.

It's a sexy read, but not overtly so and it worked the better for it I think. The sex is emotional and connected with equal time given to developing each side of the triangle.

I'm still waiting to see if Pixie lands Bear and get the story behind Campy's new roommate and I'd not be adverse to finding out if doorman Greg and Lucky's brother Ranger get their HEAs too!

2.5 stars

I liked Heart

I loved Mason

I never warmed up to Lucky

As a throuple they just didn't work for me

The book had some really sweet moments as well as adorably cute ones but I didn't particularly like the relationship dynamic. There was just something that felt off.

---

## **? Todd says**

**Hot. Hot. HOT.**

**You know how some ménage books are all about 2 of the guys being in control, while the last is more of a 3rd wheel, the play toy, if you will?**

**Well, this is so completely *NOT* that book.**

**I loved how their three-lationship developed, with lots of genuine feels, plus loads and loads and loads (pardon the innuendo) of steam.**

**Aside from a lot of humor, it was also a treat to see Mason gain confidence, Heart learn to trust, and Lucky show his tender, nurturing side.**

**But Mason and Heart's ex's? UGH!!!**

**Yes, this is a series about porn stars, but it's turned out to be so much more than that.**

**4.25 stars.**

#### **4.5 stars ????**

Great book 3 for our boys.

Mason, Lucky and Heart make a great threesome. Each person brings a different element to the table that makes for great reading. Looking forward to Pixie and Campy's books.

---

### **michaela says**

I was admittedly slightly worried going into this mainly because mmm isn't usually my cup of tea and I had really enjoyed the little moments we got of Mason and Heart in the previous books and was looking forward to seeing how their relationship panned out but slightly put off at someone else being added into the mix.

I felt Mason and Heart had such good chemistry and I really enjoyed their friendship and when things got a little more heated between the two. Adding Lucky in, at first, I didn't quite like because of the way it was played out BUT I ended up really adoring the three together. Lucky added a balance to the trio. Mason and Heart were both insecure about the same thing but in different forms and Lucky added this confidence in that helped both men. They all three helped one another in different aspects — they needed one another to heal in the different ways they needed to. ( Plus the steamy scenes between all three were whew. )

While I did feel like some things were overshadowed by having three and it wasn't my normal kind of read — I really did enjoy this. By the end I was melting from the their chemistry meshing together and how they all three completed one another.

Plus we got to see some former couples and other characters stories pan out a tiny bit which is always a plus!

Four stars because I love this series, the writing and this trio added a beautiful addition to it!

---

### **Chris says**

Yup, I loved these guys .. Heart, Mason & Lucky. These guys all with insecurities and fears but so needing love. I really enjoyed their story and the camaraderie between the Ballsy guys. It was steamy and super hot !
