My Dark Knight

Sheriff Squinty

My Dark Knight Sheriff Squinty

Skylar lives in a world where her pack is slowly and deliberately being obliterated by the merciless Black Mountains Pack, led by their vicious and cruel Alpha, Gabriel. So what happens when she learns that the tyrant Gabriel is her soul mate?

Soon, Skylar will discover that there is much more to Gabriel than meets the eye, and there are dark forces surrounding them that will put both of their packs in great danger.

TeaAndBooks says

This literally needs to be an actual book

Manal says

I really enjoyed this one, a little long(Wattpad's page is equivalent to two normal pages in any normal book) and I've got exams on a daily basis but as usual I couldn't hold back , and sacrificed my study time to read this , and I'm not regretting any second of it ..

Julia says

Even though this is not an actual published novel, it's a Wattpad story, it felt like one. It did not feel as though I was reading it on Wattpad because this story in particular is up to par like an actually werewolf novel.

I love the concept so much. The author really did her best with the whole plot and the way she told the story flowed nicely together.

A publishing company should pick this up cause I need a physical copy which I can constantly pick up when I need to.

Chamie says

Hopefully there will be a sequel to this awesome book!

This is one of my favorite book about werewolves, the flow of the story is really good, the emotion between Skylar and Gabriel is amazing because I felt deeply connected with them.

The plot is also really great, it's so suspense and full of surprises!

And yes i'm so agree that this book should be published!

Andrea says

This was my first ever book On Wattpad, and I've been on Wattpad for 2 years. I WAS NOT DISAPPOINTED! Now, thaks to this book, I have added some other werewolf book into my libraray! I don't

expect them to be as good, but I have high expectations!!

LOVED THIS BOOK!!

PEACE LOVE

Jessie says

This should be published

Kristy says

What a gem... Wattpad hides some amazing authors. I really love this book & believe it should be published!! I read it the first time as it was being written, which was a slow process but well worth it... As the author made the storyline flow & it was enjoyable to read. I just finished reading it for the 2nd time & I flew through the book, not being able to put it down until the last words.... Watching us. I am now waiting patiently for her 2nd book 'Buried" to be updated & finished.

tisha says

like i said, i loved it and then when i finished it i remembered that it ends like that and i wanna know more- i need to know more but i don't want to bug sheridan to write a sequel cause writing stories is hard a'f and- and, i love you gabriel and skylar. you make me happy. i hope she gets this beautiful masterpiece published soon.

Sandy Ho says

Another hidden gem on Wattpad. It has been so long since the last time I stayed up until 4AM to read a book. The author said that she easily got bored with books if the characters fell in love very quick. I agree and I just fell in love with Gabriel and Skylar. I understood perfectly why Gabriel made his choices and Skylar's emotions felt so real that at some points, I felt like my heart was being ripped out. For once I didn't want to punch myself in the face with how idiotic some protagonists could act. I still haven't finished but there's no denying that I am in love with this book. It should be published.

Patience Kalu says

This book is simply perfect and original!i got hooked right from the start!!luv it! I'm rating it 5 over 5!

Kandace says

I really did like this book.

But the romance had me like.

The writing was a little slow for me... and a little bit repetitive. Even with these set backs for me this still was a good book.

The thought behind the plot made total sense. Sometimes I feel with paranormal books, the stories can get kind of crazy. Like there's no actual logic behind things that happen other than "magic" or whatever, but this wasn't like that at all! It was well thought out. 5 stars if the romance would have moved a little faster... lol

Antarc says

Out all the bad material I have read on Wattpad, this one was an okay read, especially for a werewolf story (and when you're a Wattpader like me, you can agree that werewolf books suck on Wattpad, especially the popular ones).

Of course, like all werewolf stories, it contains some cliche, but this one was good and enjoyable to read. I liked the protagonists (both male and female leads) and how their relationship evolved. Gabriel is much more than the dangerous alpha he seems to be, and I found Skylar a very likeable girl, in contrary to many other werewolf stories where I can't stand the girl.

There is also a good plot; a progression in the storyline. It's so much different from other werewolf stories. The writing style is also good.

Now... Let's get to the negative points.

First: the cliche: It is impossible to avoid it in a werewolf story: Girl mated to powerful alpha with a rather dark past, he is her pack's ennemy and all, he's had a relationship with a packmember before. But it was quite okay because it is not too much.

Secondly: the characters:

Gabriel was really interesting as a character, but I really dislike how he treats Skylar when she goes to live with him. He would have used his superiority over her Alpha to force her to go with him hadn't she gone willingly. Also, when she finally lives with him, he puts a lot of distance between them, and acts really cold. I mean, I understand that he had his reasons, but he gotta assume: if he were going to be like this from the start, then he should have left her alone with her family.

He is also too much secretive. Honestly, I felt like he didn't trust the female lead. I hate how hypocrite he acts at some moments, especially with Eva. The way he used her is disgusting, but I really can't find it in myself to like her.

Then the girl, Skylar: honestly, she's one of the only girls I can tolerate from a werewolf story and she had some depth; but she is too weak. I like her personality, but there are moments where I want to slap her face. Especially her wolf. It annoys me. She can't even control herself around Gabriel, and I feel like she is insecure. She belittles herself too much and can't fight against her wolf, or her friendship with Will. There are also moments where she acts like a coward; running away will not solve your problems.

Eva and Will: I am quite disappointed by these two. I would have loved to see how their relationship improved, but they only existed as potential rivals for the main characters.

And there is also this weird thing:

Gabriel and Skylar love each other

Skylar is loved by Will. Will is loved by Maria. Will then finds out his mate is Eva, and then BOOM! He immediately loves her, and she doesn't resist him for too long. Then, Maria discovers that Will's big bro is her mate...

You got my point. It was really improvised and repetitive. I would have loved more interaction from characters like Gabriel's Beta.

There are moments that just happen to "save" other events in a lot of chapters. Like that time when Maria was depressed because of Will, then she met his older brother again, and then, you know what happens next.

The writing is okay. Not great nor good but okay. The writing style isn't impressive and it lacked a bit of description. As for the grammar, this story needs to be edited because there are quite a few mistakes.

Then, you have some events that are really like... Incredible? I mean, I didn't even know werewolves and angels were related, much less that they could have kids. And why does the old ennemy seem to appear just when Gabriel finds his mate?

Again. You got my point. By some moments, it reminded me of Twilight.

I also didn't like how the story was towards the end, it was a bit disappointed but Skylar and Gabriel end up together.

So in the end, I think that My Dark Knight is an okay read. The beginning is really interesting but some moments are really boring and the end disappointing. The way Gabriel emotionally treats Skylar in the beginning is also annoying.

Hbiba says

I remember reading this book on wattpad, got me hooked from the first chapter ❤

S says

I loved this book. I am not giving up hope for a sequel.
I would be one of the firsts to buy if it gets published paperback.

Noël Hungerford says

I'm not usually one for werewolf/Lycan books, but MDK was amazing! I couldn't put it down for the life of me. Very glad I gave this book a chance and got over my werewolves-suck-to-the-moon mindset. I hope to one day see it published, because I will definitely be buying a copy!
