## **Shipwreck on the Pirate Islands** Geronimo Stilton

Enter the world of Geronimo Stilton, where another funny adventure is always right around the corner. Each book is a fast-paced adventure with lively art and a unique format kids 7-10 will love.

My sister had come up with a new way to torment me. She'd combined my two least favorite things - travel and ghosts! Thea had heard rumors of a haunted pirate treasure buried on a desert island. And before I could say "avast ye scurvy rats," she'd dragged me into her treasure hunt!

Not one of the better stories, imo. There were some interesting facts on pirates and survival skills. Also, Geronimo donates his wealthy find to a museum, modeling generosity.

From Annalise:

I like Trap because Trap tricks Geronimo. I like to learn about pirates.

Geronimo is tricked into going on a vacation with his sister, cousin and nephew and the plane crash lands and they are on the island for 10 days. They find a treasure and get off the island and discover that they were related to the pirate who owned the ship. They donate the ship when they get back.

Maybe I just don't like listening to this kind of book aloud, but I found the whole thing annoying. My kids enjoyed it, though!

I had to read this to find out what my students like about these books. They have lots of colorful illustrations, providing support for struggling readers. The story is the fun adventure of a scaredy-mouse reporter who keeps stumbling into dangerous situations. Short chapters make it easy to feel like you're accomplishing something. I finished a chapter! And another! Not a life-changing work of literature, but a fun read for lots of elementary students.

Thea has really done it this time: Geronimo is being dragged along by her on a vacation that also leads directly towards a possibly haunted pirate ship! Dami is at it again with the adventure and mystery in this entertaining entry to the "Geronimo Stilton" series. Make sure you have sunscreen on hand for this fantastic read!

This was my first Geronimo Stilton book (read with/to my 7-year-old son), and I was very pleasantly surprised. The first thing you notice about this book, is the creative use of colours/fonts/shapes/curves of various emphasis words throughout. For example, you read the title of the resort spa, and it's in pink, curly font - you read the word excited and it's multicoloured in a bold spikey font - etc. It's quite interesting.

I also quite enjoyed the little side information (not excessively done, but a few parts here and there) that were really good at elaborating either story or factual (in the mouse world) information. For example this book was on pirates, so there's a 2-page information dictionary type part for pirate terminology and it's meaning. Later on, there's a few "famous pirates" and when they lived/why, etc. Also, the illustrations are sometimes part of the text page or a full page on its own.

The story itself was well written - exciting enough to keep the target audience interested, but not so drawn out as some stories - which serves well to keep the reader interested. There are cute little play on words throughout (again, not done excessively to annoy, but just enough to stay cute/fun), using mouse/rodents/cheese/etc. such as the mouseum (museum) or a mousetache (moustache). I enjoyed it.

Finally, the characters were fun and interesting. Each mouse in the family has their own personalities and it is fun seeing them mesh together. The main character isn't "perfect", nor claims to be - and they all have their quirks. Overall, it is a really good story and I look forward to reading more in the series, as does my son.

I find this book as exciting as The Thirteen Ghost which is from Creepelia von Cacklefur in the Geronimo Stilton book series. I really enjoyed this book and I would like to read the entire book series of Geronimo Stilton.

Great series for learning Italian. Geronimo Stilton has all of those richly descriptive words that add native colour to a learner's vocabulary.

The second book I read from this series and I thankfully liked it (unlike the first I read)! There's a nice balance of actions and character development that make Geronimo an easy to scare but willing to fight mouse! I especially liked the quote about the importance of personal history: "Our past, for good or for bad, belongs to us. We need to know it in order to know ourselves better."
