Summer Fling Mari Carr , Jayne Rylon
Summertime and the lovin' is easy...until it's not.

Compass Girls, Book 3

Too much love and loss taught Jade Compton to protect her heart and her sanity by steering clear of all that romance nonsense. She's doing just fine, working two jobs, hanging out with her cousins and her best friend, Liam.

But when a combination of unbearable heat wave and a case of the boredom blues knock her down, she longs to do something spontaneous...maybe even a little bit reckless.

Liam Harrison met Jade when she was sixteen—in the local cemetery. If he's learned anything after eight years of friendship, it's that Jade has a wild streak a mile wide. And while he doesn't want to tame the adventurous woman, he wouldn't mind showing her a few sexy ways to channel some of her impulsiveness. With him. In the bedroom.

When he proposes a sexy, no-strings-attached summer fling, Jade jumps at the chance to spice things up and indulge some pretty kinky fantasies. Then summer ends...and Jade comes to the uncomfortable realization that there's only one place she's comfortable in her own skin—Liam's arms.

Warning: Excessive heat in this story—in the bedroom, the barn, the kitchen, the bar. Drink lots of water. Stay hydrated!

Warning: Excessive heat in this story—in the bedroom, the barn, the kitchen, the bar. Drink lots of water. Stay hydrated!"

My Review: I am totally in love with this series and how it is giving you a little taste of everything. This one might be the hottest of the bunch, I loved Jade's defiance and spunk, not to mention the determination and patience Liam used in response. I also enjoyed seeing the rest of the characters continue to develop along with the underlying storyline. This was definitely a hot, steamy summer read (or in the winter to warm up a bit). I only have one book left in this series and I know I am going to miss it, but I think I am going to have to go back and read the previous series about the fathers and mothers.

Vee says

Another heart wrenching read by Mari Carr and Jayne Rylon. Jade was a hard ass with a heart of gold and a lot of fear and guilt. Liam was a loving, dominant man that new just how to handle his wild woman. I cried, laughed, smiled, and cussed. Seeing the family dynamics is always heart warming, and watching the work with Vicky and how her illness is effecting everyone was sad and good all at once. I loved this book and I love this series. The Compton family is always great to see.

I can't wait for Sterling's book and to sadly see the ending. When I read the ending of the Compass Brothers I was sad to see them go, and I'll be sad to see the Compass Girls go, BUT hopefully Mari and Jayne will write about the Compass Boys and their happily ever afters....

Rachael says

I love Compton Pass! First we had the 4 brothers and now we have their 4 daughters aka the compass girls. This book is about Jade. She is wild, rough, and always pushing the envelope. She and Liam met when she was just 16 and over the years their friendship grew. Now it's 8 years later and the friendship is changing. Watching them come to terms with their feelings for each other put a smile on my face. Liam understood what Jade needed and was strong enough to give it to her, even when it meant he had to let her run away. There is one more book in this series and I'm looking forward to Sterling's story. My only fear is what will happen to Vivi in this last installment.

Shaly says

After the first two extremely disappointing books in this series, I was really rooting for the two badasses of the bunch. I'm glad Jade didn't disappoint me. She was tough, fierce, loyal, stubborn, a fighter, rude, a cuss, courageous, a sweetheart and super kinky! I loved the chemistry between her and Liam and the fact that we got to see how they met, became best friends then lovers was awesome because in the last book, that relationship was rushed and not explained. Here we see their friendship/relationship progress. The light BDSM elements introduced throughout the book and Jade and Liam's relationship is done quite nicely and very erotically.

Its still very frustrating to see that Vicky's disease is being glossed over, Sterling's book is the next and final installment in the Compass Girls series and I'm afraid these two authors are just going to spring some unfortunate news on us readers regarding dear Vicky after glossing over her illness in all three books and that would just suck....

Christine says

This story is about Jade she'd the daughter of Sawyer and Leah. She grew up in town because her father is the sheriff but this hasn't kept her from being close with the other Compass Girls. Jade is the risk take the bold one of the girls and she's kept her heart guarded her whole life. When she meets Liam while visiting a deceased family member at the cemetery they form a friendship. Eight years later and things change after one impromptu kiss. Can Liam make her change her mind and take a chance on love?

This story was so good, I loved learning about Jade's twin brother and about Liam's fiancée and how they were able to relate because of their losses. The two of them are so right for each other it's perfect. I think it's funny that the girls seem to have similar tastes in relationships as their parents. I loved that Jade was able to eventually open up to Liam and accept him and realize that she could be a "girl" and still be tough. A really great story.

Dar says

Have your tissues close, this starts with a sob and ends with a smile!

Jade is the only child of Sawyer and Lead Compton. Have to say that the parents story was my favourite of the previous series, so I had high hopes for their daughter's story, and while I wasn't blown away, it was a good read.

Jade has always felt second best and not quite up to measure. This causes her to have wild streak in an attempt to feel alive, a thrill seeker more or less. Liam has had heartache himself, but he was an adult when it all happened, whereas Jade has always felt this way

Liam is adult in this relationship, and while it seems to develop and run quickly, it is beautifully and easily explained. Parts of it grabs you, there is a conversation between Jade and Sawyer towards the end that will twist at your heart.

I love this family and these stories, so I will easily admit that one of the stars is probably for sentimental value, but it is an earned sentimental value and I readily admit it!

My rating: 4.5 of 5 ??

They met eight years ago in the middle of the night at the cemetery, each grieving their own loss. And in the years since then Jade Compton and Liam Harrison had become fast friends.

Jade is a bundle of energy, adventurous and at times reckless. She is one of the Compass Girls, the Compton cousins who are as close as sisters, and any spare time is spent with them. Days Jade works with her family but at night she tends at the bar and doesn't think twice about jumping in the middle of a brawl to try and break it up.

The summer is already hot and boring, when in a moment of unguarded recklessness, Jade ends up challenging Liam with a kiss. And in an unexpected move, Liam challenges her right back..... to a summer of unrestricted sexual adventure, but with an end date.

Liam knows he wants more out of Jade than only a few months, but he also knows her well enough that any mention of long term commitments will have her running for the hills. This way he hopes he will slowly earn her trust while exploring all of the sexual curiosity she shows, and allow him to let his dominant side shine through.

PHEW!! Take that you blasted Canadian winter!!! I'll sic Mari Carr & Jane Rylon on your arse!!!
Yup, found out quickly I was overdressed for the reading of this book!!

First off..... I adored the characters. I really did. Jade is a beer-slinging, smart-mouthed, swearing spark plug with bristles a mile long, but it's all there to protect the most tender of hearts. All of it is pure self-preservation. She's lost enough and doesn't want to risk losing more, so she works hard at not caring too much. But life and love don't work that way.

Liam sees her for who and what she is. Sees right through her self-protective layers and outrageous behaviour down to the core of her. He loves it all, the whole package. He needed time to get over his own loss and to learn the value of what he had in Jade, but he is confident in his feelings and in how to handle her.

Some of the dialogue, the banter between these two is so entertaining, so dynamic, it had me chuckling throughout the book. The irreverent nature of Jade is hilarious at times. And Liam's corrective dominating response is positively panty-melting....of course, half the time that is what Jade is after!!

The heat.....well.....I think you should consider very carefully when and where you are going to be reading this book. Unless you are an excellent poker player, I would avoid commuter trains and doctor's waiting rooms. It is HOT, people. FRICKIN HOT!! Lip-smacking, finger-licking, spine-tingling heat.....

This is a third book in the Compass Girls series, but can quite easily be read as a standalone, even though the entire cast of characters are recurring. But why would you.....just read them ALL!!

?A salty, fierce and salacious tale of ultimate trust.?

Katherine says

Locking yourself away from emotions can be freeing but sometimes the most freeing of experiences comes from allowing emotions in.

This story reminds us to live life to the fullest but to never take it for granted.

Clare O'Beara says

The sheriff's daughter Jade resents being stuck at home to care for an ailing grandparent and she tends a bar, when she's not doing ranch work. The kids she grew up with are just as dumb as ever and in a familiar trope, her one good friend is a guy she doesn't want to kiss in case it would spoil the friendship.

I'd probably have liked this romance better if the man hadn't been hitting the woman. Even in kinky play, either nobody hits anyone or it should be turn about is fair play, if that is what you are into. How come romance writers are setting young women up to be bullied, beaten and used?

I felt that the location detail was well written and convincing, with hot summer outdoor work to be done, shirts sticking to skin and dust in the air.

As for girls who are stuck in a rural location because someone ill at home needs them, they should take any course they can to broaden their skills and make online friends in a field which interests them. This will reduce frustration and set them up to do some work, maybe from home, of more use to them than bar work.

Sassafrass says

Wow, this one was GOOD!
Summer Fling - Mari Carr,Jayne Rylon

This is just a quick review to say that I loved Summer Fling! This story was just so great and emotional. Not to mention hot. This is just such a fantastic series. I think I've enjoyed the girls more than I enjoyed their parents' books. *4.5 STARS*

Tanya says

This is the third Compass Girls book, Jade's book. Jade is the daughter of Sawyer, the town sheriff. She is portrayed as the toughest of the girls, but she is hiding the fact that she fears to love because she is afraid of more loss in her life. Liam has been her friend for 8 years, but he is ready for more than that. Because of Jade's fears, he has to approach her cautiously though, proposing a Summer Fling, something she will accept more readily than dating him. It works, and Jade falls in love (of course!). If you have read the others, it will come as no surprise that Jade might have a kink or two going on, and of course Liam's is the appropriate match for her. :)

I love the Compass series. I just wish it was longer. We got not only Jade's story but some about all the girls, and more about Vivi and the other family. It was a great book.

These Compass girls take after their parents big time!! Is it any shock to us that the daughter of Leah and Sawyer would have a strong submissive/masochist side?? I have to say that this book has quickly become my favorite of the girl's books so far. Those who have heard me talk about the Compass brothers series know that Silas is my number one and Sawyer is my number two. Those books hold a big chunk of my heart, and I have to say this spin off series is living up to the love I have for the originals. Highly recommended!!

Jade Compton met Liam when she was just 16 years old, and they were both very vulnerable, as most people who visit a cemetery are but they weren't there during normal viewing hours. They both happened to be there in the middle of the night. The bond that came from that night was a lifelong friendship. So she didn't expect much more than a big laugh when she kissed him outside the bar she works at kind of in a blow off steam/joking way. That is not how that kiss went off at all.

When she ignites a fiery passion in both of them that could have led to much more had they not pulled back. That one kiss has her avoiding the best friend she has ever had, and he isn't happy about it. He is determined to have her as his own now. He sees that a part of him has always been waiting for Jade, and he will stop at nothing to make her his own. He propositions her with a summer fling, and it is an offer that she can't turn down, although she makes him work hard to get her to agree. He gives her a taste of the submission/pain she has longed for, and she can't help but want more of it.

This is an amazing book!! It truly had me from the first page! I couldn't put it down. My emotions were tied to Jade's as if I was living the story with her. It isn't every book that makes you tear up in the first chapter. I love this series soo much. The continuing decline of Vicky hurts my heart, and I have to say I cornered Jayne Rylon about Vicky. (and I'm not telling what she told me .. hehehe) I read this book right after a complete reread of the Brothers' books. I literally went from Sawyer's book to Jades, and oh the tissues I used!!

I highly recommend all of these books!! If you haven't read the originals, snatch those suckers up!! And for the love of all that is holy don't stop till you finish this one!! :)

ms bookjunkie says

Friends to lovers of the hot hot hot variety. Love!

Erin says

Before I go into it... I must say I really did like this one.

I mentioned in my review of that I would have been happier if it hadn't been Hope who was interested in the Triad relationship like her parents had.

I echo my sentiments with this one. It really did make me realize that the books are simply recycled version of the Compass Boys.

Seth ... BDSM and Horses = Sienna + Horse handler Daniel (Can't remember if it had BDSM tones or not)

Silas, Colby, Lucy ... Triad relationship = Hope, Wyatt, Clayton ... Triad relationship

and now we've got Sawyer ... BDSM = Jade ... BDSM

Which means the next book is probably going to be another pretty direct mirror of her parent's book (Sam) .

I think the entire series could have benefited from mixing it up as to which child had which kink instead of simply mirroring her parent's darn near exactly.

Now having said that, I really enjoyed this one, and I think it was my favorite so far. I like Jade even though she was super stubborn to the point of wanting to slap her.

Liam I REALLY liked.

The BDSM wasn't bad at all, though Liam shouldn't have played the night of the car accident since he knew he couldn't keep himself in control. But that's just the safety girl in me.

Funny, this one really didn't feel like it was set in the future at all. There was absolutely no tech that gave it a future feel. (Other than mention of the Bottom's Up tap system, but I'm pretty sure we already have that.)
