## **The 7th Bullet J.C. Loen**

The 7th Bullet is the third book in the The 9 Lives of the Outlaw Known as Crazy Cat series—a Gothic western that draws upon elements from both horror and crime. It's a foreboding tale of friendship and grief, madness, and haunts, and seeing a man about a horse.

Lee is offered a chance at freedom—all she has to do is assist a Pinkerton detective during an investigation and sign a contract where she swears to become a law-abiding citizen. She agrees to help the detective, but will she sign the contract and give up her outlawing ways?

The investigation brings her to the arid Bonneville flats and a lodge run by a family of spiritualists. They may or may not be able to talk to the dead, but they certainly have a connection to them.

- Recommended for mature readers –

## **From Reader Review The 7th Bullet for online ebook**

### **Pam Mooney says**

Delightfully disorienting. I have not read western gothic before but it works for me. I loved the characters banter and eccentricities as they are both familiar and original at the same time. This is where the disorientation comes in. The drop of horror really took me by surprise but was fun and interesting for the setting. The ending brought the story full circle but I truly did want to read another chapter or two so I am happy to know that this is a series. I can start at the beginning and read forward also. A good read.

### **Louise says**

I received this book free through GoodReads.

This book was easy to read and the writing flowed well. Despite being #3 it is a standalone book that has references to the tale so far.

After reading this I am keen to read more and start from the first in the series.

### **Lynn says**

I was pleased to win JC Loen's "The 7th Bullet" from goodreads. I haven't read a western since Louis L'Amour. To tell you the truth this weren't nuthin' (lol) like his.

I really enjoyed the strong female outlaw. The story kept me reading and wondering if I was right in what I expected to happen. Odd was a perfect partner for her.

I don't want to give to much away but I am looking forward to reading more of Cat's exploits. Keep up the great work.

Cheers

Lynn

This was a entertaining incredible read! I haven't read the others in the series and it didn't hurt the story. Just made me more curious about the whole series! It starts off with Lee (might be Lily) standing at the gallows with the noose around her neck, ready to be hung.....and, ends up with her standing over the grave of her dear departed husband. (With nothing but adventure, fun, often gruesome details included.) –

Reminds me of “The Artful Detective or Murdoch series” on television --- a speedy fast (read it in a few hours) read! Now I have to go find the other two and wait for the rest to be written!

I received this book free from Goodreads/author for a honest review. I really can't put into words just this was just a strange read. Nothing like I've ever read before. I'm still undecided whether or not I'd like to continue the series.
