Nikki heads to a resort to meet with her family and have Christmas together. After unexpected calls from two of her pet sitting clients, she, one of her clients and two dogs head out only to be snowed in at the resort. After a nasty employee is murdered right outside of her cabin, and her brother is considered a suspect, she is determined to figure out who actually did it. Along with her client/new friend Sonia, she asks questions until on her quest to find the truth she endangers herself and her brother. An exciting rescue and capture and a pretty satisfying mystery.

Too much snow is only okay when you are indoors

A decent plot fell away a bit at the end. Nice build up but the big reveal just wasn't up to the rest. Nice characters but just a bit weak

She's been packing for the trip to spend Christmas with her brother and parents at the ski resort he's working at. Now she has added guests, Coco the dog and Sonia along with her dog Princess. Their first impressions of the owner and housekeeper aren't good. Abrasive, rude and arrogant! When she takes out Princess for an early morning nature call, she stumbles over the body of the housekeeper. With her brother looking like the chief suspect, she and Sonia start to investigate the owners and the other guests. Why did the housekeeper have three photos hidden in her room? What is the significance of the meeting arranged on the mountain? Will they find the killer? Will they have to go to the danger zone to find out why it was important?

This is the third book in the Wagging Tail Mystery series. Nikki, our protagonist, is preparing for a Christmas getaway with her family. As she is packing, she receives a phone call from one of her clients who cannot get out of town to get to her niece's home for the holiday. Nikki kindly offers to drive her and Princess since she will be going the same way. Next another client calls and has no place for his German Shepherd to stay due to a last-minute request from his boss. Coco is such a great dog and well trained that

Nikki offers to keep him with her for the week. Finally, Nikki and Sonia are on the road with the two dogs and snow is falling. Pretty soon they find themselves driving in a blizzard with the road closed to Sonia's niece's house. Nikki ends up taking everyone with her to her cabin. So far nothing is going as planned. They make it to the cabin, check in and settle in for the night. Sometime during the night, Princess wakes Nikki up to go outside. When Princess begins to dig in the snow, Nikki gets curious and finds the body of their housekeeper, Ashley. The set of events set off a chain reaction leading Nikki to delve into the murder when someone she is close to is targeted as the killer. The story is filled with excitement, as Nikki and Sonia get involved to expose the real killer. Will Nikki be able to solve the mystery before the snow buries all the evidence? Another enjoyable read from author, Cindy Bell.

Great story.....

The author has done a great job of choosing a cast of characters and putting them together with a mystery of mayhem and suspense. The woman that spends her time walking and dog sitting, finds that to save her brother from being arrested she needs to solve the murder.

The mystery is pretty good and the characters certainly are, does anyone remember old TV series "Car 54 Where Are You" ? That's the level of policing of the bumbling new recruits who managed to get to the scene in the blizzard. I enjoyed it.

Kept My Interest

I stayed up late last night reading and got up early to finish this book which is a sign of a good cozy murder mystery. Set at a ski with some quirky characters and a hint of romance, the combo makes for a read one cannot put down. Add in dogs and cats and one has a winning combination.

I just finished reading all three books in this series. I really enjoyed all of them. Like always Cindy Bell never lets me down. You do not have to read all of the books in the series. Once again the characters are ones

you fell like you are one of them and the mystery keeps you guessing.

Nikki is preparing to spend the holidays St. Bernard Cabins with her brother, Kyle and her parents. Sonia Whitter and Princess were planning to vacation and suddenly find out that Princess cannot go with her in the car service she had hired to drive her to see her niece.. Nikki had already planned to take Coco, one of the dogs she walks daily, with her so she invites Mrs. Whitter and Princess to ride along and she will drop them off at her niece's. The drive was very snowy and they could not go to her niece's so Nikki took Sonia with her to the cabins. Because of the snow it took them a while to get there.

They are checked in to their cabin by Gloria and Max Merner, the owners of the St. Bernard Cabins. When Nikki walks outside during the night with the dogs she stumbles over a body which turns out to be the housekeeper they had met on their arrival, Ashley. It appears Ashley has been strangled with a scarf owned by Betsy, a cabin neighbor.

Ashley and Kyle had been arguing earlier and the police have made Kyle the prime suspect.

Her parents flight has been delayed due to the snow and it appears it will not be a Merry Christmas,

There are many suspects but Nikki must find out who really killed Ashley so Kyle would not be in jail when her parents arrived Christmas Day.

She phones her could be boyfriend, Quinn, a detective on the police force at home for his assistance.

Nikki finds information in Ashley's cabin that leads her to believe the answer is on Fir Mountain, a very dangerous place.

This is a great story with danger, mystery, dogs, romance and family. This is another great Wagging Tail Mystery by Cindy Bell.

I received an advance copy. This is my honest opinion. I recommend this book.

Anita Burkett says

Vacation at a resort in a blizzard

Kyle is working at a resort and when reservations are short the new owners tell him he can invite his family to come for Christmas. His parents are flying, but his sister Nikki, is driving. She offers to drop Sonia at her niece's home on the way, but a blizzard causes the roads to be blocked, so she takes Sonia and Princess with her to the resort. She also has a German Shepherd she is caring for for a client. Then she trips over a body in the snow and .This begins the solving of a mystery.

I love Cindy Bell cozy mysteries!

Another winner

A great fast read. Although the relationship between Nikki and Quinn is building slowly, the action is definitely quick. A good rain/snow day read, huddled up by the fire with your favorite hot beverage and cuddling fur babies. Such a cozy scene for a terrific cozy author.

Johnna Hill says

In this book we get to meet Nikki's brother Kyle while at a ski resort where they are supposed to have a family vacation. A blizzard keeps their parents from flying in and then Ashley, a resort employee is murdered. Her and Kyle, also a resort employee, don't get along. There are only two officers in the area and their main suspect is Nikki's brother. With only two incompetent officers around, it's up to Nikki to find the killer.

The only complaint I have about this book is that Quinn wasn't there with Nikki! I felt that in the last book they were getting so close to admitting their feelings for one another. They have a incredible chemistry and it drives me crazy that neither one of them will say anything about it to the other. Hopefully a fourth book isn't that far away. I need more of this series!

The latest edition to the Wagging Tail mystery series finds protagonist Nikki Green preparing to meet her brother and parents to celebrate Christmas. Unfortunately, things don't go as planned and once again murder and a massive snowstorm intrude on her holiday. When a loved one becomes a suspect number one, she dives head first into her own investigation and soon finds that there are several people who had it in for the victim. With help from her friend, Sonia, and dogs Princess and Coco, Nikki slowly peels away the layers one by one. I loved the storyline and Nikki's loyalty to her loved ones but the ending seemed rushed to me. I am very much looking forward to her next adventure.
