All for Allie

Julie Bailes

All for Allie Julie Bailes

Please read Shattered and Shake (book 1) prior to All for Allie (1.5)

Mature audience only 18+

Walking away from her was the hardest decision I ever made. Leaving her without an explanation broke us both. Our hearts have been left shattered. I could make excuses. I could lay the blame on others, but still I made the decision. I had to. It was the only way to protect the both of them.

After all of Allie's loss, my thought was only on her and her happiness. On her love and need for her big brother. I was replaceable, Kyle wasn't. I wouldn't allow him to crush her heart with his death. I knew I had to follow him. I would throw myself on top of bombs, in front of bullets, whatever it took to get him home to her, alive. There are two sides to every story, and you've only heard one. Don't be so quick to judge; I hate myself for what I've done. But all that I did, it was all for Allie.

From Reader Review All for Allie for online ebook

April says

J Bailes, what the heck have you done to me? Left me in tears , that's what ! A beautifully told story from the POV of the man who left everything to save his friend and brother and in the same action save the only family he has and the girl he loves from losing any more. I'm gonna say after reading Shattered and Shaken I didn't want to like Wyatt. I have a new respect for him and even though I don't want Allie to be without Blake I'm curious to see how Wyatt fights for her. J. Bailes you are an amazing talent and I look forward to reading many more stories from you in the future

Tiffany Readz says

Wow, this book totally redeemed Wyatt's reputation in my eyes. He went to the Marines with a purpose of protecting Kyle and didn't tell Allie because Kyle asked him not to. We learned all of this in Shattered and Shaken, but to read it from Wyatt's POV, he isn't the d-bag I originally thought he was.

Now I kind of feel bad for saying I wanted to smack Allie around in Shattered and Shaken because she had feelings for Wyatt, there was way more going on between them than I thought. Blake is going to be an innocent bystander in the wreck that Allie and Wyatt will probably cause in the next book.

This is a short read, however it will may just change the way you feel about Allie, Wyatt and Kyle as it did with me. I can't wait for the next installment to see how this love triangle is going to play out.

Great addition to the series!!

Nerd Alert says

There are two sides to every story and this just so happens to be Wyatt's side.

Wyatt Cooper loved Allie Anderson to the point he would do absolutely anything for her. When Kyle decided to break Allie's heart and leave her living in fear of losing him when he when and enlisted in the Marines. Wyatt makes the only decision he believes he can, he enlists in the Marines as well to follow Kyle and protect him.

"...Now you listen to me, dammit. You are the most beautiful woman I've ever laid eyes on, Allie Grace..." Wyatt making the decision to walk away from Allie was the hardest decision he ever made. But leaving her with no explanation, it left them both broken and shattered. Wyatt made his choices to protect both Kyle and Allie. He believed he was replaceable but her brother was not, not after everything she has already lost. He would do what he could to make sure she doesn't lose anyone else, even if that meant breaking her heart and him losing her. Wyatt always thought he was doing the right thing, because it was always all for Allie.

"...transforming into this beautiful and graceful woman, who will do anything for anyone. A woman who loves with all her body, mind, and soul. A woman that I can't wait to make my wife someday. My beautiful and feisty butterfly..."

The Shaken series is one of my favorite series from 2013!!! AFA (All For Allie) is a beautifully written story

letting you into Wyatt's world to understand why he did what he did in Shattered & Shaken. S&S left me reeling and wanting more!! It leaves you wanting team Blake but wondering about Wyatt. AFA made me fall for Wyatt just a little bit more, oh who am I kidding, I feel in love with Wyatt. Julie Bailes is one of my favorite writers and not just because of her incredible books but because she is an incredible person as well. If I could recommend any books to my friends the top two would be Shattered and Shaken and All For Allie. Go read them and come tell us if you are team Blake or team Wyatt! I can not wait to read Shattered and Mended but until then I give All For Allie a Nerd Alert A+ or 5 stars!

Christina Racich says

So I must say I enjoyed this book immensely. "Shattered and Shaken" was good, but "All for Allie" was AMAZING!!! Wyatt's POV melted my heart and shattered it all at once! I will admit that I had a negative opinion of him throughout most of "Shattered and Shaken." Even towards the end when I was understanding what he did, I didn't have the full understanding as to why he made the decisions he had. Although I think he should have been honest with her, I do get that he was protecting her heart as much as possible and possibly guarding his a bit in the process. The problem is I believe he has done more damage to them both than even he could have anticipated. Not only did Wyatt lose the love of his life, but he also lost his brother and that is a lot of grief to bare alone. I am anxious to see what happens in the sequel. Will Allie forgive Wyatt? Will she follow her heart or her head? No matter who she chooses, someone is going to get hurt and that includes losing half of her heart as well. I ache for them all and I just need to know what happens next. I am not going to lie that as anxious as I am to find out how this ends, I am extremely nervous for the outcome and I feel for Allie. J. Bailes did an incredible job at conveying these character's feelings and struggles. I laughed with them, cried with them, and in a way felt like I was a piece of them in both books. There is nothing better than when a book takes a piece of your heart along for the ride.

I personally feel that "All for Allie" is my favorite so far in this series! Wyatt has such a sweet demeanor and loves so deeply. He was not what I was expecting him to entirely be and I am in love! Men have a way at getting straight to the point and putting it all out there, and because of that I feel that this book flowed more freely and he is not at all shy with his feelings! He is a man that will admit to crying, and for that my heart swelled even more for him! I enjoyed "Shattered and Shaken" as well, but we women can be fickle and over analyze everything! I would feel the same way as Allie in her situation and I know it, but I felt some parts were slow and I wasn't as captivated in the first book as I was the second. I know what it feels like to be pulled in different directions and not wanting to hurt anyone, but someone is going to get hurt no matter what and that girl needs to make up her mind before she drives me nuts!! ;) Men are so much more straight to the point and I was unable to put Wyatt down! In a way I can totally see why Allie is having a hard time choosing, but that man proved himself to her over and over so many times that I would have hoped she would have questioned his absence more than believing he would have used her like she assumed!!! WOMEN!!! Sometimes we women drive me nuts, and that includes myself!

Okay, I am done rambling about my frustrations! I give this book a 5 star rating and urge you to not just add it to your TBA, but also add it to your wishlist and pick it up on release day! Even if you weren't overly thrilled with the first, I truly believe you will enjoy "All for Allie" so give it a try! Just a fair warning that your heart will be split in two and you will be sitting on the edge of your chair until this story continues in April! This book was the retelling of the first book in Wyatt's POV, so we still have no clue what happens since S&S ended!! Such a TEASE I know!! ;)

*****I received an ARC of this book in exchange of an honest review!*****

Sarah Osborne says

Wow!! Unbelievably awesome, loved hearing things from Wyatt's side. Now to read the final book in this series

Cassie says

I loved that we got to see Wyatt's side! While is still doesn't take away from the fact that he really pissed me off at the end of Shattered and Shaken, it gives great insight to his undying love for Allie. I cannot wait for Shattered and Mended.

CJ at Book Happiness says

4 out of 5 stars

In my opinion, All for Allie should be read before Shattered and Shaken, but apparently that's not the authors

intention.

After reading Shattered and Shaken I was left with questions about Wyatt's reasoning for leaving Allie and I felt that we didn't get to know Wyatt at all. All for Allie cleared up some of these questions and also lets us get to know Wyatt (and Kyle) since it's told from Wyatt's POV -- which I love.

I understand that Wyatt thought that by enlisting with Kyle he would be protecting him and bringing him home to his family. I don't actually believe in his reasoning, especially if he cared for Allie and Lucille as much as he claimed he did. The fact that Allie was able to "live her life" with Kyle enlisted and Wyatt leaving her should have proved to Kyle and Wyatt, during their term, that Allie was strong enough to handle the truth. He shouldn't have waited the four years to come back to her he could have came back with Kyle at any time to visit.

I want to like Wyatt, i really do but I'm finding it hard although All for Allie does show a very sweet, loving side to him that I don't think was portrayed in Shattered in Shaken I'm finding it hard to get a feel for their bond or connection. However, I can not wait for Shattered and Mended to see the fate of Allie, Blake and Wyatt.

I would recommend this book - I just wish the storyline was a little stronger.

Lisa says

This is a prequel to Shattered and Shaken but should be read after.

I was team Blake after reading Shattered and Shaken plus didnt really understand why Wyatt would leave all the people he loves behind. After reading All for Allie from Wyatt's point of view I now understand he was trying to protect the only family he knows and the people he loves hoping he would achieve bringing Kyle back alive and that Allie would understand why he did what he did and forgive him.

I do have a strong emotional understanding with Wyatt's reasoning and love the fact he would risk himself to save Allie any pain, I am now torn between the two as they both have heartfelt love for Allie in different degrees and ways, how can anyone make the choice?

Can not wait for Shattered and Mended to see the fate of Allie, Blake and Wyatt.

Julie Bailes has created a bitch slappin beast of a book, deserved a five ***** rating, she is abso'fuckin'lutely a fantabulous mothershaker. Proud to be called a fan of this amazing woman's work.

Would recommend to any reader's who love a good love triangle.

<3 ya face girly. ♥♥♥

Naughty Mom Story Time says

Pulchritudinous [puh-kri-tood-n-uh-s]: adj. physically beautiful, comely; n. formal, literary or physical beauty

What can you say about a man that would use such an unknown/rare word to describe how beautiful you are when he sees your naked body for the first time? I'll admit, I had to look this word up. I didn't expect to find its definition to be so utterly romantic. And ladies, that's exactly what we get when we read All for Allie.

In this story we get to read Wyatt's POV. In this companion piece several parts of the story are filled and explained as to Wyatt's whereabouts and whys. We also see how intense his friendship with Kyly (Allie's brother) was and deeply his love for Allie runs and that he'll fight to win back her love.

Wyatt is another one of the good guys. His one and only love is Allie and he won't let her go. As I fell in love with Blake in Shattered & Shaken, I began to see Wyatt in a new light. As I read this story, I began to feel torn between Wyatt and Blake. They both loved Allie completely and unconditionally and treated her as if she was the only woman in the world. I can say that Allie is one lucky girl to have both of these amazing men after her heart.

As did the first book, I had to fight back tears. This was another emotional read and though it was a novella, it added so much to this series.

All for Allie gets 5 Naughty Stars for making me feel so much in this novella.

Jennifer Weaver says

I loved Wyatts version!! I can not wait for their story to continue.....

Susan W says

Liked this much better than the first book. However, I find it completely unbelievable that Kyle doesn't tell Allie where he is going.

Pearl Reads says

REALLY? SERIOUSLY? I did not want to like Wyatt. Now I freakin LOVE him. He's so selfless. So freakin loving. Damn, how can I be Team Blake when I want a piece of Wyatt myself??

Simply put, this is Wyatt's side of the story and now, it all makes since. Enough said. I need book two. I want book 2. April is not coming fast enough.

"When I'm without her, I feel as if I can't breathe. When we fight, my heart remains contracted until we make up. At her smile, my knees go weak; my tongue gets twisted, and my insides become knotted. The very thought of me losing her is slowly killing me."

"I have to keep telling myself that I'm doing this for her, only her."

"You and I both know that we aren't promised tomorrow, and if anything were to happen to me, and I wasn't able to tell you how much I love you...I want you to be positive that I've shown you all the love I have for you. I don't want you to have a doubt in your mind that you own my heart. You're the only one for me."

I have to force myself away from her, but before I do, I kiss her one last time on the cheek. I bring my lips to her ear and tell her that I love her, I hope its not the last time I get the chance to say it to her. "I love you, butterfly; please don't forget that. I'll be back for you; just wait for me. Don't hate me..."

Be still my freakin heart Wyatt!

My Secret Book Spot says

All for Allie (The Shaken Series #1.5) by Julie Bailes
5 out of 5 Stars

You know when your heart feels like it has a fist wrapped around it like a vice? That's how mine feels right now as I'm writing this. I just finished All for Allie and I am just crushed for Wyatt, broken for his loss, his solitude, and his experiences both with his natural family and with the Andersons. While I was completely team Blake in Shaken and Shattered and I started this book really thinking Wyatt could bite the wad and I completely disagreed with his choice to join the military, I have found myself loving Wyatt for completely different reasons.

Open to who he really is, loyal to a fault, corny and romantic, and absolutely in love, Wyatt gives everything he has for Allie. He sacrifices his own happiness and future, in a way I don't personally agree with, for what he truly thinks is best for a family that has come to love him and for a young woman that he finds all his joy and purpose in. Unsure how it will turn out, he promises himself and his best friend Kyle, Allie's brother, that he will fight for her until his last dying breath.

Allie is such a phenomenally real young woman: She is flirtatious and naive, snarky and sweet, easy to rile up but even easier to forgive. She's lost her father to cancer but opened her heart to life because she realizes it's precious and valuable in only the way a strong survivor could. Loving Wyatt is like breathing, it's not a choice you ever make to start breathing, it's just something your body started doing and you only realize how much you need it, when you lose it.

Overall I am so caught up in this series I don't even want to write the reviews!! I want to finish the books and then come back, but that's not my honest, first response so I am making myself stop between each book in the set. Bailes is a fantastic storyteller and I am off to read book 2!!!

A complimentary copy was given in exchange for an honest review

Pepper, My Secret Book Spot

Laura Smith says

Loved! Read this little novella in one sitting and this time it's Wyatt's point of view. Make sure you've read book one.

I disliked him in the first one but I learnt so much about him in this book and I feel so in love with him.... I'm know stuck between Team Blake and Team Wyatt and I want them both to win!

Perfect piece to the story and I'm glad Julie Bailes gave is this POV
