## **Black Women in Antiquity** Ivan Van Sertima (Editor)

This unique volume provides an overview of the black queens, madonnas, and goddesses who dominated the history and imagination of ancient times. The authors have concentrated on Ethiopia and Egypt because the documents of the Nile Valley are voluminous compared to the sketchier records in other parts of Africa, but also because the imagination of the world, not just that of Africa, was haunted by these women. They are just as prominent a feature of European mythology as of African reality. The book is divided into three parts: Ethiopia and Egyptian Queens and Goddesses; Black Women in Ancient Art; and Conquerors and Courtesans. This second edition contains two new chapters, one on Hypatia and women's rights in ancient Egypt, and the other on the diffusion into Europe of Isis, the African goddess of Nile Valley civilizations. Black Women in Antiquity provides a dramatic account of the role black women have played in the history and development of civilization.

## **Black Women in Antiquity Details**

**Angeltempleusf says**

I learned that African women were indeed powerful and wise rulers of Egypt and Africa, Dr. Van Sertima's research takes the reader to ancient civilizations and the time frame of their ascent on the throne. check it out.
