Cain (Ben Blue Book 5) Lou Bradshaw

Shadrac Cain, or simply Shad to his few close friends, but most just call him Cain, is a mountain man, a loner, and someone whose good side you want to stay on. He strictly adheres to nine of the Ten Commandments, but there are those who just need killing. Cain finds a home in the San Juan Mountains of Colorado, but he also finds the region is infested with a band of white renegades, who are as cruel and ruthless as any in the annals of history. When Cain stands between a powerful war lord and his victims, it becomes an all out fight to the finish.

Cain first appeared in "Ace High" and was instrumental in helping Ben Blue get his herd through to the railhead. It is the 5 th in the Ben Blue series.

Awesome

Just when I think there isn't a possibility of a more amazing character than the ones he has already given us Mr. Bradshaw shows me I was mistaken.
I hope Cain shows up again.

Highly recommended

Always enjoy the terminology that the author uses to explain the territory and the characters. Cain is one of most interesting characters and you hate to lay it down.

Marcia Biggerstaff says

Shad Cain

With a man like Shad Cain on your trail, there's nowhere to hide. Great story with just enough Ben Blue thrown in to keep you turning the pages.

Cain (Ben Blue Book 5)

There aren't enough adjectives to describe Lou Bradshaw's way with words and his talent for spreading a yarn. Cain, is a must read for all of you western fans. I almost hate to start one of Bradshaw's books because I know there will be an ending. This read is for sure a "can't putter downer" so, "giddy up."

Vera G says

War

This book was more about war and enough about western life. It kept me interested but I would rather get a glimpse of day to day life.. wicked men cause a lot of hardship for a lot of people.

Betty B. Norris says

Another good book

Continuing adventures of Ben Blue are good clean reading stories for families who love western adventures with a hero and happy endings.

An LB Western About Shadrack Cain/Mountain Man/Protector

LB has penned a western novel about a friend of Ben Blue named Shadrack Cain, but called Cain. A late bloomer of a mountain man he came to be one of them as the days of the Mountain Man was fading into the past. He built a homestead in the mountains and brought 25 sheep to raise for the wool. Then he became an enemy of the toughest outlaw gang in Arizona and New Mexico Territories. This is an excellent read for the

genre.....DEHS

Mikkel Libby says

Good story.

I don't usually like first person writing but I did enjoy this one. Cain was a character that knew he was at the end of an era but was more then willing to try a New way of living. But before he could do so he needed to rid the area of some ruthless men
