Celtic Tree Mysteries: Practical Druid Magic & Divination Steve Blamires , Sandy Leuthner (Editor)
Trees, and the magic associated with them, manifest the spiritual aspects of the Green World. *Celtic Tree Mysteries* revives the ancient knowledge and lore of the trees with a practical system of magical ritual and divination.

Within the pages of this trusted reference guide, you will find comprehensive instruction and insight on the theory and practice of the Celtic Tree mysteries, including little-known and often misunderstood tenets.

Learn the difference between the Ogham script and the Tree Alphabet (and how to use them together for magical purposes). Decipher the physical, mental, and spiritual lessons of the twenty trees of the Ogham, and how to incorporate their wisdom into your life.

Find out how to create your own set of Ogham sticks . . . perform Otherworld journeys . . . and discover the deeper, hidden meanings contained within the beautiful, ancient Celtic legends and Green World lore.

From Reader Review Celtic Tree Mysteries: Practical Druid Magic & Divination for online ebook

Clare says

I think the author pretends to know much more than anyone else, which is suspicious. Another fine example of "What I Wish Was True".

Sophia says

A very useable resource. Very helpful for people looking to actually get beyond reading, get outside and practice.

Gwyndyllyn says

This is a fantastic book with a lot of tree lore. It is not just divination. One of the things that I like about it is that it is focused on getting you to relate to the trees. On the other hand, there are a few times where it feels kind of like the meaning of the trees is being made to fit a particular linear progression through the grove. I would recommend it as a strong book, though.

Lia says

Surprisingly scholarly, for a Llewellyn book. I was enjoying it very much, but had to return it to the library. I will buy it so I can practice the things entailed within (making Ogham sticks, learning to commune with trees) at my own pace.

Maya says

3.5, surprisingly very well researched for a Llewellyn book. In fact the first part I felt was VERY well researched. The rest was UPG in my view, though I liked the exercises he included into the book.
