**Daddy's RockStar Friends** Amanda Horton  
**My teenage fantasies want me. All four of them.**

If I could just kiss all of them: my fantasy *Banshee*, America's top rock band and my daddy's best friends. Ten years later and right out of business school, I have one week to clean the biggest PR mess a band has ever created. One week or I ruin my father's firm.

Leather jackets, bare chests, cigarette smoke, the dejavu alone has my throat dry and panties wet. I am a mess! I tremble as Cole, Tobias, Jersey and Rory, stare through me with their steely looks. If intent counts, I'd be naked and spread on the same table where I lay my damage control plan.

And I just can't say no, when they put me in their hot tub. Wet, steamy, desire oozing from my body, I manage to stand as the rockstars close in, moments from making me the luckiest fan girl alive. They pass me around, and I love each one. Love flows hard, like a waterfall.

It's so wrong, yet feels so right. They are my teenage fantasy and I am their missing link!

My father would freak out;  
**can I make this arrangement work?**

This is a great story about Jacine who has a Ivy League education, runs the NY office for their family PR firm and takes her job seriously. One day her father has a heart attack and she returns to LA to help run the LA office and to care for her dad. Her most important issue to deal with is 3 ex friends/band mates, Cole, Jersey and Rory who have gone crazy! Let's not forget the entertainment lawyer and her Dad's best friend, Tobias. All the men have their eye on Jacine who is now all grown up and one beautiful hot young woman! Jacine warns each guy in the band with a sit down that the fighting needs to stop but matters only escalate as they all realize they want Jacine. They each get a taste of her to some degree but don't satisfy her and her brain becomes mush. Jacine knows she should not mix business and pleasure with one let alone 4 men. The guys end up fighting in public and are sent to jail! Can Jacine save their 3 bands and get them back into the public eye without the craziness? What will the guys do about their growing interest and need for Jacine? Can Rory's unusual idea solve all their problems or create more issues? I voluntarily reviewed an Advanced Reader Copy of this book.

### **Four men, one woman, what will happen?**

Jacine returns to LA to take care of her father after he has a heart attack. She runs into trouble with the four main men in her life of taking over for her dad at work. Tobias, her dad's best friend and lawyer, Jersey, Cole, and Rory, all rock stars, definitely don't make things easy for her at all. Between fights, jail, and setting up an epic concert, Jacine has to deal with her feelings for all four of them. I was very impressed with how well Amanda Horton was able to give us the point of views of all five of them and the slower buildup of the intimate actions between any of them. I feel like I was able to understand each of the characters and how they built up their emotions.

Wow. This story sounded so hot and it is. It is a romance love story and I liked it very much. It surprised me. I like the twist of taboo though! The characters are all different but together they make a good relationship. They all have needs and wants. A very short story but enjoyable and readable. Well written story with a nice storyline and plot. I like that the characters and how they develop. A passionate and emotional read with twists.

It is written in multiple POV which gives the reader much more of the thoughts and feelings of the main characters. There are passion, hot scenes and lots of chemistry in this amazing story.

I received a copy of this book and am voluntarily leaving a review.

I received an ARC copy in return for an honest review.

Wow, what a fast read for me, this book has 336 pages and I read it in 3 hours split into two sessions..... Not done that since having my son, and I thoroughly enjoyed it.

The point of view pretty much covers all the characters - Jacine, Tobias, Cole, Jersey and Rory..... With a small chapter at the end from Jacine/Jacy's dad.

The main plot starts with 3 Rockstars Cole, Jersey and Rory who were previously a band but split off into their own bands with a bitter past. Well these 3 get together and end up getting into a fight which will not only ruin their careers if they are not careful but also threaten Jacy's dad's company. Since her dad recently had a heart attack she cannot risk any more stress and flies in to represent her dad and take over the business. Little did she know she would fall for each of her childhood stars, and with the help of her dad's lawyer Tobias she is beginning to wonder how she will resist all 4 men.

My overall thoughts - I love how the book immediately jumped in, no build up, straight to the point. Each chapter was packed and constantly moved the story on. This is why I read it so fast, for me it's important to get me from the beginning or I lose interest fast..... that is just me sorry.

Jacy is such a powerful woman, independent and strong. Being raised by a single dad who is a high powered business man will do that to you. I enjoyed how her job comes first, and she won't let anyone get in the way of her father's health, even going as far as stopping her dad from worsening his health. The respect the men showed towards her was refreshing, obviously they were attracted to her, that helped.

The story touched briefly on Jacy's mum and why she left, as well as how she died. I did want to know more so that it helped me understand why both her and her dad are as strict as they are.

There was so much sexual tension throughout this book, until the climactic ending ( \*wink wink\* ).

The ending..... wow I really want to discuss it but it will spoil it, but I did find myself saying "seriously, would that really happen". I mean don't get me wrong how many women including myself wouldn't mind 4 men chasing after you, but normally you pick one..... Well this ending is different, that's for sure.

This book was a 5 star for me. Engaging, page turner, and erotic. Tick tick tick. You all have to check it out.

2 and a half stars ?

Forgetting the whole reverse harem storyline in this, I guess I had different expectations for this as I felt ... empty? I guess is the only way to describe it, when I finished it.

it was a really short read. Each of the men had one 'encounter' with Jacine before deciding they each loved her and wanted to be with her and then decided to all share her. (with a side note of a disappointing only scene of the group together - lack of sizzle ?)

The nightmare with the 3 rock stars squabbling, the jail and the concert could have been explored more - it kind of felt like a whisper in the background when it was a necessity for the story to exist.

As it was so short - why not spend a little more time expanding the scenes maybe?

I dunno. maybe I'm missing the point entirely. ...!! I'm not a writer after all!!! I haven't read any other of Ms Hortons books so I'm not sure if this is consistent with her style or not but I'm sorry I didn't fall in love with it!!!!

This is a story of a daughter coming home from LA her PR company to run her fathers for the big stars in Hollywood whilst he has heart surgery. He gets concerned about how hard she works and doesn't want her to end up like him a workaholic with no life, but I don't think her ending was what he had in mind when he meddled in her affairs. Jacine comes home to sort out three feuding former band best mates Cole, Jersey and Rory after they got locked up for fighting in public and smashing up a bistro, and assisted by her dad's best friend and lawyer uncle Tobias. They all fancy Jacine and believe they are all in love with her. After being told to leave her alone as she can't decide who she wants, they get together and come up with a plan. It's unorthodox but they believe it can work for them. Now they just have to convince Jacine that they can put their differences aside and make it work. Will she be persuaded, how does it end what does her dad think, get the book and find out. It's a three hour read at most so not too long. I don't believe I have read any of Amanda's books before but I will definitely read again. I voluntarily reviewed an arc.

The whole of this book is very good. I did find the ending a little bit lacking and felt that it could have delved in more the story before her Daddy closes it out with his thoughts and the ending.

Jacy works in her fathers PR firm managing the New York offices when she gets a call from Tobias the company lawyer in the main office located in L.A. were he dad is and also is his best friend. Her Dad had, had a heart attack while he was with another client when three of this other top clients, Cole Jersey, and Rory, former friends and ex-band members of the band called Banshee got into a shouting match and brawl in a popular restaurant. Jacine flies back to LA immediately to look after her Dad and manage the mess that these men have made.

All four men have developed feelings for her, some for a very long time and a couple just now realizing what an amazing woman she is. Between her and Tobias trying to clean up this PR nightmare, and ensuing nightmares, the three ex-band members begin to agree about things and devise up a plan to be with her. She has always had a desire for Tobias but didn't know she also had feelings for the other men until she was on a one to one with them.

How they all worked together to finally come to terms, and their plan for her is pretty good. It is something that you will have to read. What happens at the...well that is something that I will let the reader find out.

Oh my gosh this book was off the chain! Three childish rock stars and one hot lawyer Jacine has her hands full. Frank her father suffers a mild heart attack and with these three its amazing he's not dead. When they see Jacine at Frank's office it's like love at first sight. The rock stars start making moves on her and Tobias has to keep them out of jail because of their antics and if the rock stars aren't enough Tobias is into Jacine as well. I voluntarily agreed to receive an ARC of this book for an honest review.

This was a very good entertaining book. It was a quick read and fast paced. The characters had personalities that befit rock stars plus the attorney. Jacine did not want to choose between the four men she adored.. Three rock stars that could not stand each other because of a riff between them that split them apart. Jersey Dys, Rory Holmes, Cole Kane: troublemakers. Former friend and band mates turned bitter rivals. Then we have the entertainment lawyer Tobias Marshall, who was her father's best friend. Jacine had a crush on him since

she was very young. Now the three former band mates all agree to put aside their differences, makeup and present a solution for Jacine, a polyandry relationship including Tobias. What will Jacine do? You'll have to read to find out the exciting conclusion of this story.

Rating: 2.5/5

Heat Rating: 5/5

This review is only for DADDY'S ROCKSTAR FRIENDS which ends at 40% of the book.

I liked this story even if it was filled with editing issues. The core of the story itself was rather solid. I mean, I liked the premise. Rock stars fighting and causing a scene is extremely plausible. And obviously they'd need a PR firm to clean up the mess. The lawyer part was an added bonus but totally fit in with the rest of the story. Even if he was daddy's best friend. Plus I totally dug the last chapter even if it should have been labeled as an epilogue. The change up was unexpected.

There was some good build up with plenty of teaser scenes between Jacy and the guys. Besides the lack of editing my other complaint is that the final scene between Jacy and her men was too short and quick. A sex scene such as that shouldn't be over so quickly. The bones of the situation were there but it wasn't really sensual.

**Cover Comments:** I like the top half of the cover but the woman on the bottom doesn't fit the story at all.

**Pet Peeve Alert:** This story needs MAJOR editing. I've lowered the rating due to it.
