Nlaramee82 says

Read this book with both of my pregnancies and loved it. It was a great break from all the non-fiction pregnancy books, that let's face it, can sometimes be terrifying to read while pregnant. It was an easy read, that at that point in time, I could totally relate to and laugh out loud at.

Lisa says

Cute book! Quick, easy ready, great for any first time moms out there. It's been on my list for awhile (obviously), just finally got around to reading it.

Ashley says

I want to give this book a 3.5. I read it quickly and really enjoyed it, but the characters weren't developed and I think somethings came out of nowhere, but as a pregnant for the first time girl I loved the main characters feelings and bluntness about pregnancy.

Sandra says

Funny humor talking about being pregnant for 10 months and making a shopping list of all the things that are "no-nos" (like no hot tub) during pregnancy.

I love the birth plan that states she wants it: "short & painless."

If you have seen the doctors plan out a birth plan with the new mom---they are never this simple. :)

funny!

Stacy Juba says

I really like this author's voice. Her humor makes me smile and the pregnancy scenes are very realistic. I need to go back and read the author's previous book, about the character's wedding. A fun chick lit read.

Amanda says

So funny and easy to read!

Celestial Deviant says

Once I started reading it I couldn't put it down. The character struggles through her pregnancy with lots of interesting characters in tow. Favorite character in the book was Grandma "Sessy" because she reminds me so much of an old person I know. A good book to make you laugh out loud at the mom-to-be's craziness and her love of lists.....many lists.

Shelly says

easy, fast, cute book

Sarah says

Quite an enjoyable book! I learned quite a bit about being pregnant, which I find endlessly fascinating, and I love that it was presented in a humourous way. Plus I am also a "to do" list person so I totally understand :)

Putri says

This is the sequel book after the diary of a mad bride to be.

I happened to read this book first then the mad bride.

Yes, it;s indeed funny eventhough I haven't gone trough what she has, somehow I could feel her madness as well and laughed my butt off.

Anyhow, this is a very light yet funny story, whether this book could help pregnant ladies to put a smile on their face, that I dont know.

But at least it could make a non-pregnant woman like me laugh.

Mike Hoffman says

Terrific book for the genre! It wasn't all about "being pregnant" and wasn't all of the shiny happy preggo moments most people deal with. it was the truth! And I repect her for telling it! Its a decent book for a father to be to read to catch a glimpse into the mind of his pregnant wife. I will never get to experience that, but at least I know a little of a few different people's perspectives.

Brenda says

“Diary of a Mad Mom-to-Be” by Laura Wolf follows Amy after her wedding in “Diary of a Mad Bride”.

Amy is still as hilarious as ever now that she's expecting a baby. I found "expecting" Amy to be much more enjoyable than "bride" Amy and found myself laughing out loud throughout the book.

Jennifer says

extremely funny!

Kelli says

I didn't think that I could laugh more than I did with "Mad Bride", but this book surpassed it for me. I just could not stop laughing and I had to stop reading in so many various areas in the book to wipe my eyes and catch my breath. It was a great, light, funny read and I read it in one day. I could not put this down.

Stephanie says

Amy Thomas is back and this time she is more neurotic than ever! Two years after her 'mad bride' scenario, she embarks on a new career at a below par public relations firm and discovers that after the stick turns blue, life becomes a rollercoaster of emotional hilarities.

You will laugh till you cry as Amy's neurosis increases day by day. From her 60+ "Things to Do" list which includes such tasks as "creating will" and "building college fund" to the humorous "Things No One Tells You About Pregnancy".

It is especially great for first time mom's and mom to be's as it will probably provide some much needed comic relief!
