Lex says

Such a cute books for kids. It was basically a summary of the movie but for kids.

Eden says

In the case of Finding Dory, The Little Golden Book, as opposed to The Big Golden Book, did the better job of capturing a summary of the movie for small children to read.

The Little left out more of the more complex plot points and kept the minimum to ensure a complete story was told clearly for the reader. It left out the whole plot line of Nemo and Marlin going to find Dory, which surprised me; but the story was able to come to a conclusion that would be best for a Beginning Reader to comprehend.

Jocelin says

This little golden book gives the reader an overview of the new Disney Pixar film "Finding Dory" (which is really good by the way, 1st one still better!) Of course the general plot of the film is presented because Disney wants everyone to come and see the film in the theaters (highly recommend it). A cute addition to your little golden books library.

Can I just say, baby Dory is absolutely precious!

Kelis says

I got the book of

Kat says

Basic Plot: While on a field trip with Nemo's school, Dory remembers her family and decides to go searching for them.

My son decided to get this as soon as he saw it in the Nook store. I was hesitant, as the movie isn't even out yet and I didn't want it spoiled. Even with the detail of the book, I don't think I got too many spoilers. These adaptations leave out all of the funny bits for watered down, simplistic plot. In other words, they leave out all the fun. It only makes me want to see the movie more.

Jodie says

Absolutely love the first one, have been dying to see the first looks at this one. My little nephew is gonna love every minute of it! Can't wait to let him read it and then to take him to see the movie on the big screen in June.

Jenn Swanson says

Both my daughter and I really enjoyed this book! I would absolutely recommend this.

Sarah Capettini says

This is a picture book (Little Golden Book) by The Walt Disney Company. This is for children 3 and up.

This book recounts the film Finding Dory. Dory is blown away from Marlin and Nemo and goes on an adventure to remember where she came from and where her parents are. Marlin and Nemo meanwhile, go to rescue her while Marlin deals with figuring out how to be a good friend.

Most of the Little Golden Books I've seen (and I collected quite a few when I was a child) try to replicate the art of the cartoon in the book. This isn't a bad thing and if your child just absolutely adores Cinderella and they're just beginning to read, well, then they're more likely to want to read that book. This one is a pleasant surprise because the art is unique, unlike the cartoon style. I actually gave this to a child I was mentoring in reading skills to hopefully engage her in reading outside of school hours and she fell in love with it and carried it everywhere. I'm very glad that this book can encourage children to read wherever they are.
