Green Biosynthesis of Nanoparticles

Cab International (Editor)

Green Biosynthesis of Nanoparticles Cab International (Editor)

There are physical and chemical methods of synthesis of nanomaterials. But due to the damage caused by these methods to the environment there is a pressing need of green nanotechnology, which is a clean and eco-friendly technology for the development of nanomaterials. The present book includes green synthesis of nanoparticles by algae, diatoms and plants. The mechanism behind the synthesis of nanoparticles will also be discussed.

The book will be a valuable resource for students, researchers and teachers of biology, chemistry, chemical technology, nanotechnology, microbial technology and those who are interested in green nanotechnology.

Green Biosynthesis of Nanoparticles Details

Date : Published January 8th 2014 by Cabi (first published October 1st 2013)

ISBN : 9781780642239

Author : Cab International (Editor)

Format : Hardcover 248 pages

Genre :
