How To Steal Blade

Jade Archer

How To Steal Blade Jade Archer

Book two in the Contact Series A disillusioned Dom and a bratty sub chafing against being a slave oh! and those nasty cuffs that are cutting off the circulation to his wrists this time making contact is going to require discipline. Deminic s not happy. He relocated to the fast paced, cut-throat business world of the Mebian system to try and find what was missing in his life. Instead, he finds his days an endless parade of sycophantic business owners, fawning hostesses and toadying charity organisations. Even the joy he once found in dominating a sub has long since lost its appeal, as more and more often he finds they re only interested in the tempting bulge of his credit chip. Surely, while he s trying to figure out what he wants in life, it s not too much to ask to find an honest sub? Someone who s just the right combination of submission and challenge? Blade s smart mouth and disrespectful attitude are always getting him into trouble. But this time he s really outdone himself. He s naked, gagged and bound over a rather ominous looking black leather bench. And the cuffs are really becoming annoying. For a start, they won t loosen enough for him to get away before whoever he s being offered up to like a tasty little lubed snack comes in. If only being bound and gagged didn t feel so incredibly tempting. When these two meet there s bound to be some misunderstandings, but is the biggest one of all destined to drive a wedge between them forever, just as they finally manage to get free of the system that s been dragging them both down? Publisher's Note: This book is part of a series but may be read as a stand alone story."

♥Lynn ♥ says

Jade Archer has done it again. I loved this story! Deminic is everything a good Dom should be. I couldn't get enough of Deminic and his sub Blade. This story is set in the world of the Mebian system, where Deminic is seeking a sub to teach and love. Blade enter a contract to better his people and family, but had no idea what he was in for.

Jade Archer has written a story of love that anyone who has ever felt skeptical of the BDSM world can say, I want that. I want that love and trust.

Clover says

cute short bdsm SF story.

Casey says

Really interesting tale in the Contact series. I enjoyed this more than the first outing with Lore because of the extra depth to the relationship.

The author captures the characters thoughts and brings them to life. The scenes are painted clearly without fuss and overwordiness. Even the sweetness isn't too sickly.

We join Deminic pondering what's missing in his overachiever's life and how the subs on the scene hold no challenge. I was pretty neutral about this guy until we see how he reacts to his first encounter with Blade.

The opening scene with Blade had my heart pounding as we find our protag strapped naked over a bench, ass in the air, ready lubed against his will.

The Blade/Deminic dynamic works very well and I like the first tentative exploration into BDSM.

Unlike the first book, where I wasn't really caught up with wanting to know what came next, these characters have made a place in my head/heart. I want to follow their story further. I want to find out more about minor character Alfonesea.

There is a little more world building in the first one, background into Blade's situation otherwise I would say this was a stand alone.

It definitely a book I will pick up again and I'll happily read the next in the series,

Heather C says

So I liked this one much better than the 1st book. At first I thought that Deminic was a total asshole, but as soon as he was in the same room with Blade he acted completely different. I ended up liking him and Blade together! Even though I'm really on into the D/s dynamics, I still really enjoyed this story and plan to continue the series.

kasjo_peja says

I didn't like it as much as the first one in the series. I didn't see bratty, challenging Blade (as I expected from the blurb), but pleasing and forgiving Blade - the kind of sub I don't like. The conflict was resolved really fast and I found the plot rather... shallow. The only exiting thing about the book was a promise of a story for a secondary character Alfonesea.

Wendy Ann says

Yummy! Loved this second installment in the Contact series and the whole D/s dynamic between the main characters Deminic and Blade. Despite being part of a series, this book can definitely stand on its own, but is enriched by having more of the background from the first book. Fantasy world, Dom/sub, cat man, hot sex = great read!! Bring on more of the same Jade, but longer please!!!

Jason Bradley says

Oh I loved these characters! I think I liked the story in the first book better but still am hyped over this series! I looove it!

Serena Yates says

This is the second volume in Jade Archer's "Contact" series - and was just as good as the first. It's a stand alone story with only a few references to the previous volume, but is set in the same future "world". We find out a few more details about the somewhat mysterious (and definitely) cruel Mebians, which fills out the picture nicely.

Like the first book, the limited number of pages didn't take away from my enjoyment. The characters were fun, I felt for both of them from the very start and there was a nice twist at the end. This was more focused on the elements of dominance and submission, but in a very loving context.

Deminic is a great guy - if somewhat bored and desperate for someone to love. He may not admit this in the beginning, but when he meets Blade and sees the potential, he doesn't hesitate. I loved his ability to sense what was going on with Blade and his willingness to compromise, so they could find out what worked for both of them.

Blade was also a great character. The conflict between being a slave (having sold himself into servitude to get training as an engineer) and suddenly discovering that he wanted to be dominated was a difficult process for him. He is bratty, yes, but only because he has no idea how to deal with the situation his master has put him in.

I loved this book and can't wait for the next volume. There was a tantalizing teaser about one of the secondary characters at the end which lets me hope there will be a third book in the series.

Note: This book was provided by TEB for the purpose of a review.

Tory says

Loved it!

Different than the first in the series but no less enjoyable.

The BDSM theme is not hardcore but playful & loving.

Although a short book it launches straight into the story & the characters are so alive & individual, you take to them from the first moment.

Although this book could stand alone it does have references to the first book & really intrigues you with the promise of all individuals coming together for a climactic ending to the series.

Can't wait for the next

Bark (Has Atrocious Taste) says

I do so enjoy these little cat men love stories but like "What to do with Lore" this one felt a little rushed. I wish there had been some feisty dialogue between Blade and his Master Deminic and that Deminic had to work a little harder to keep his pet under control. But I'm mean like that ;)

Tj says

Love Jade's cats. Cute and cuddly:) It was a lite, fluffy read. The story moved fast. I think that is what caused my only negative, the characters went into a dom/sub relationship pretty fast. I just don't think the trust would have been there that quickly. Still, if that is overlooked, the storyline is fun. Overall I enjoyed the book:)
