Let There Be Light A.M. Johnson

Not a Cliff Hanger

His world was water and rhythm. Hard work and drive kept Royal O'Connell one step ahead of his competition. His spot on the swim team, keeping his scholarship, was the only plan that mattered.

His world was ebony and ivory. Natural talent and ambition set Camden Morgan apart from the other music majors. His dedication scoring him a full ride.

Normally, their paths would have never crossed....

But when Royal meets his best friend's new roommate, his big plan and Camden's controlled environment faces a variable that could destroy it all.

Attraction.

The world they live in had no room for error. That undeniable pull between them was dangerous and neither one of them could've prepared for the choice they'd have to make.

Love isn't always an easy road and, when everything they've worked for is on the line, they'll have to decide if being together is worth the risk.

Autumn Grey says

My life is one happy sigh at the moment. I finished reading this story last night and I loved it so much. Sometimes we don't look for love. It finds us, conquers our hearts and fights to stay. This is the case with Camden and Royal. From the moment they meet, their life changes, molding around this feeling of discovering who they are, who the other person is. And why their hearts race a little faster whenever they are in the same room, despite the society telling them it's wrong to be attracted or love someone of the same sex.

A.M. Johnson's stunning writing shines through in this story as we follow Camden and Royal stumbling through their feelings and finally settling into being who they are, unafraid and ready to face the world together, fight for their love. Fight for who they are.

I'm so so excited for the second book in this series.

Karla says

4.25 stars!

This was such a beautiful heartfelt and sweet story it really stole my heart. I was so nervous to start this book because I've been having such a hard time finding m/m that hold my interest. Anyway, after a few pages, I knew I would enjoy this one.

I was impressed by the writing which made Royal and Camden love so captivating and beautiful. There was something so special about these guys the way they fell in love. They were so different not just personalities but their upbringing. Regardless of those differences, they were so perfect for each other they had such a strong connection that you felt it through the pages. The circumstances they had to deal with were so heartbreakingly especially for Camden but he was so brave they both were. Once they were together they fought for their love and even if I hated that they had to justify their relationship **I admire them so much for not denying it.**

I can't wait to read Kai and Indie's (Royal's twin sister) book. ♥?

Priya says

5 ?

Firstly the cover is beyond Gorgeous, plain and simple yet beautiful and comforting.

Now Ask me 'how was this book?'

My ans :- Gaaaahhhh!!! so the story begins ahshdkdkfkfkgjdhwd Gahhh!! JUST READ IT!!

this book has left me a blabbering mess, and whenever I am talking about this book, I just don't have enough

words to describe, I mean i want to say too much still speechless. This author has a magical writing and you get pulled into the story and can't stop turning the pages. I didn't sleep just to read this one. And now I want the second book of Kai and Indie.

[["you can't help who you love. That love sinks its teeth into your heart and you'll do anything to be its victim"]]

[["This world is such a big place, and most of the time we never find the people we're looking for. People look all their lives for the one person who understands their heart. We search, and hope, and I think... it's a blessed few who find it on their first try. I'm also glad he was persistent."]]

Don't think JUST READ IT.

Sanaa ? Sanaa's Book Blog ? says

5 stars.

He created music and I bent water. We were talent in all its forms wrapped inside flesh and bone.

Every once in a while when you start a book you just know it's going to be an amazing read. This is that book because I absolutely *loved it*. It's my first one by A.M. Johnson and *wow* can she write. *Let There Be Light* was magical, heartwarming, beautiful. Royal and Camden made you swoon, smile and fall in love. They made you *believe*. The secondary characters were just as amazing and I loved Royal's sister and Kai.

He was different than most people. Most people were loud and predictable. Big bass with brass-trumpeted laughter. But Royal, he was too many instruments all in one, too many intricate notes, and I needed more time to hear each one.

Apparently there are books for the parents and uncles which I'm definitely going to read in the near future. This is a standalone book because the next book is going to be Kai and Indie's. I'm so happy and I can't wait for them to get their HEA.

I highly recommend this book! It was beautiful and had a very poetic feel to it.

“You make the quiet more bearable.”

“If I was a cage, then Royal was the key.”

You know that moment, when you start a new book and suddenly realize that this is going to be something special? That moment hit me right after the first few pages. *Let There Be Light* is like no other book I've ever read. And I've read a lot over the last three years. It truly is something special!

“The shape of his face was made up of shadows and stark angles, serious, as he whispered, “ You're kind of perfect.””

All characters in this book are enigmas, each in their own deep way. But especially the main characters Camden and Royal. They are characters beyond comparison. Something special, something else. Like the author found them on another planet and put them into her book. I can't describe Camden and Royal other than as pure perfection.

“My fingertips buzzed and my heart hammered, and he was the song I never wanted to stop listening to.”

Camden and Royal are no characters that should be explained in reviews, because they can't do them any justice. They are characters you have to experience for yourself. And believe me, if I say you totally miss out on two wonderful men, with so much depth that you can drown in them, if you don't read this book! They make you wish they were real and part of your life.

“He let me in. He gave me everything. He was my something more.”

Let There Be Light is a book that drew me in right from the beginning and didn't let loose until I finished. Reading this book creates some addicting magical and sparkling feeling around you, a melody you wish would never end. This story is something more.

“His lips lingered over mine, tasting until the world went quiet, leaving behind a blank sheet of music. And the first note. Would be a drum. The sound of my heart finding his.”

Mg ♥ The Bookishmedialite says

Just like Camden's notes, Amanda's words flow beautifully. There are no words to describe how her words made me feel. Just one chapter and I knew it—I knew that this book was going to own my heart ♥.

For the ones who haven't read an M/M book before. Be brave. Take risks. Be different. Because nothing can

replace the experience. The feelings! Thank you, Amanda, for opening my eyes to a new genre—for getting me out of my comfort zone.

I need Indie and Kai's story ASAP!

Malene says

Let There Be Light is a beautiful and honest coming of age m/m romance. Royal, his twin sister Indie, Camden and Kai are some pretty remarkable characters. They wormed their way into my heart immediately. This story has so much heart and deals with real life issues. Sexuality, coming out and acceptance.

The relationship between the twins Royal and Indie is so special. I enjoyed every moment of them together. These two and their families are all about embracing one another and their differences. They love and accept no matter what. Their upbringing has been all about that. Pure love. For Camden it's the opposite which has led him to live a very lonely life with not much human contact.

When Royal and Camden see and meet one another it's captured beautifully. There's an immediate attraction and curiosity. They try to figure out what it is but the opinions and thoughts of people are making it difficult. I enjoyed how they explored one another and that powerful connection they share. They are two young men who's trying to figure themselves and life out. It's real and at times heartbreaking cause of its honesty.

Let There Be Light is all about the characters and their story. Their journey. I was with Royal, Camden, Indie and Kai all the way. Now I need to read the Avenues Ink series since I was introduced to them here. I'm crazy about Indie and Kai so I'm so happy that they'll get a book. LTBL was all about love and emotion and I felt it all.

4 Risk It All Stars

Zilpha Owens says

Love in all its forms is precious. Let There Be Light deals with love that, in some eyes, is forbidden and unacceptable. A.M. Johnson's prose is lyrical and smooth and elegantly gentle and I immediately got lost in her storytelling. I could picture everything she was writing and feel every emotion she was conveying.

A story about young adults coming of age, adjusting to college life, making friends, falling in love - Camden and Royal are beautiful souls. Trying to figure out who you are is hard enough, but when you have a society that doesn't completely accept a definition you've decided on, it makes it that much harder. But with the love and support of those most important to you, anything can be attained.

There's a message if the reader is willing to listen. Let There Be Light Is simply a love story in its purest form.

This was a great coming of age story! I loved it ❤?

The characters were honest and real. The story was simply beautiful. I can't wait for Kai and Indigo's story.

Nazanin says

4.25 Blue & Red ... & Pink Stars

Love sinks its teeth into your heart, and you'll do anything to be its victim.

Most of the times in my reviews I talk about what I didn't like in the book but this time I want to tell you why I loved it!

Well, the MCs! They were perfection! You just can't not love them! They were in sync with each other, so perfect for/to each other!

Royal, he was too many instruments all in one, too many intricate notes, and I needed more time to hear each one.

Camden was a mysterious enigma hidden behind wood and sound ... a piano genius.

Royal was a cello, deep and smooth, and it was his melody that played the loudest.

The writing! It was so so good! I don't know why I hadn't noticed/heard about this author before?!? But as I always say better late than never! I loved the writing! It's lyrical, magical, poetic...! I actually couldn't stop reading! It made me smile, made my eyes well up, made my heart bleed (for Camden)... Full of emotions!

Freedom was a soft jazz piano playing in the background, the quiet acceptance of the stranger in the room. It looked like the boy I was in love with, tall and strong, sun-kissed hair, and tan skin.

The secondary characters! LOVED them! Royal's parents and sister, they were perfect! They have their own issues apparently but so supportive! Maybe I go and read his parents/uncles' stories too! And Camden's roommate! We all need a friend like him in our life! Can't wait to read Kai & Indie's love story! Please don't make me wait too long, please!

And that cover?!? My God, It's SO gorgeous! Love it!

Probably you're thinking why 4.25 stars and not 5 stars?! Well, the epilogue was more like an HFN and at the end, it left me wanting more for them! It wasn't enough for me! Told in dual POV, 1st person. It's the first installment in the "Twin Hearts Duet" and it's NOT cliffy. Overall, loved it and hope you enjoy it as well!

5 sweet stars

My heart *sigh* Such a beautiful, heartwarming and sweet story. I loved it so much. The writing was flawless and in some parts poetic.

The romance between Royal and Camden was lovely. These two stole my heart and I have a smile in my face most of the time. They make my heart aching and swooning for them.

Let There Be Light is a must read, prepare your heart because these boys are going to make you fall in love with them.

Becca - ★Wicked Quests of a BookNinja★ says

What can you say right after your heart had been stolen? What can you say right after a book took over your life? What can you say right after you met the most unique boys ever? What can you say right after one of your favorite authors put another masterpiece on your table?

You know what can you say? Nothing. Because finishing this book means silence. Perfect stillness. Quiet cherishing of the beautiful experience.

A.M. Johnson is one of those authors who can write anything, it will turn out utterly perfect. Her words are pure music to the readers' hearts. She's touching your soul with each and every tiny little details she puts into her stories. And she creates yet another unforgettable composition. Because

Let There Be Light is a story you have never ever imagined.

Camden and Royal means the world to me. I'm still not ready to let go of them. I will miss them each and every day for the rest of my life. Their journey is something more than special. It's infinite, it reaches above the skies.

My love for this book is undying. It's a love that only happens once in a lifetime.

book bruin says

Absolutely and utterly beautiful. **Let There Be Light** is a stunningly honest and extraordinary coming of age romance. AM Johnson's words will captivate you and make your heart sing. I am constantly in awe of the poetry and magic she creates on the page and it was no different in **Let There Be Light**.

Royal and Camden's story hooked me right from the start and didn't let go. There was so much beauty and tenderness in the vulnerability these characters displayed. The excitement, confusion, joy, and heartache of first love will resonate with all readers. I loved that the story focused on the journey of our characters - the highs, the lows, and everything in between. Each discovering who they are, accepting the things they cannot change, and coming out stronger on the other side. There was no unnecessary drama between Royal and Camden and watching them discover and sometimes fumble into love was so endearing and adorable. The ending wrapped things up on a positive note, but perhaps a little too neat given the world we live in today. For myself, it was perfect and I loved the overall feeling of hope that the author left me with.

I could not have loved this next O'Connell chapter more and also the cameos from our favorite Avenues Ink characters. Declan and Paige were as wonderful as always (#parentinggoals) and they will forever have a special place in my heart. I'll be honest though, Kai definitely caught my attention and has me very, very, very intrigued. I am so excited for Indie's story next!

I voluntarily read an advance reader copy of this book

Gabriella (Gabi) says

I would like to recommend this book to those who are just venturing into the MM romance genre. It is a beautiful book, with beautiful writing, I think the music helped with that a lot. Slow-burn romance in college

setting; coming out; a side of homophobia and bad parenting on one side. Royal's parents however are very accepting and understanding. I did tear up a few times, but unfortunately this isn't something I haven't read before a few times. I wouldn't go far as to say I was bored, or the story was unoriginal, cause that wouldn't be true. But it wasn't anything special to me.

The steamy scenes were very vague, the author decided to describe the emotions in detail instead of who put his dick where. At least it didn't fade to black, so there's that. So if you're not ready for hardcore gay sex, this book would be perfect.

I don't want to diminish this book, because It really is great. I think if I would have read it one and a half year ago (when I started getting into MM), I would've loved it. But now, it didn't wow me, though I enjoyed it, mostly because of the music and how it was described. I did find the writing a bit dry and blame solely Alexis Hall for feeling that. Then again I might feel that way, because of the melancholic atmosphere that surrounded the book. Not sure if those two things have anything to do with each other though.

Oh and also the parents have their own books, that was clear, but I didn't feel like I missed something. This duet is about the second-generation. The next book, even though is tagged as MM romance, will be about Royal's sister, Indie and his best friend Kai. I can't deny that Kai is very intriguing, but I probably won't read that book. Also if your interested about the twins' family, read the Avenues Ink series.
