Mission Atomic Sarwat Chadda

Confidential until July 2016!

Checkmate.

Thirteen-year-old Dan Cahill and his older sister, Amy, are running out of time. An exiled Cahill known as the Outcast has already recreated three of history's worst disasters, and he's saved the worst for last. If Dan and Amy can't find and stop the Outcast fast, he will initiate a full-scale nuclear meltdown. But as Dan and Amy race around the world, they discover something horrifying. The Outcast's disasters are only a smokescreen to cover up his true plan, a diabolical revenge on the family that betrayed him. Soon Amy and Dan will have to confront a hard truth: sometimes the only way to save the world is to sacrifice everything you love.

Sue says

Final book in the Doublecross series, will the Cahill family kids be able to stop Nathaniel? Will he destroy an atomic reactor to achieve his final solution?

Kevin Comfort says

A nice finish to another break off portion to this series. Fun to see the evolution of Cahill kids and how all the Cahill's work together to defeat a family member

Fluffy Unicorns says

I was waiting for a bigger twist on who was the Outcast, I thought it was too obvious that Nathaniel was the Outcast and thought it would actually be someone else but they disappointed me. Overall, a good series though and less depressing than the past two series were.

Caleb says

For this exciting book the Cahills are trying to stop the Outcast from recreating the disaster of Hurricane Katrina. They have a few clues to start investigating as the race against time starts and the fate of the world is on their shoulders. This book was fun to read and was full of tons of intensity to keep you on edge!

Elizabeth says

Wah. I am not ready to part with the Cahills.

Sally says

[I really enjoyed this series, but it still bugs me that the Chens were never mentioned again after book one! What the hell was the deal with that?! Nellie and Sammy were like in deadly peril and then suddenly in book two they're flying off somewhere to help the others, with no mention of the Chens ever again... argh wtf. Also no Jake and Atticus! I know the Outcast said no outsiders, and then Jake texted Amy in book one saying he'd be off the grid for

Nicole says

The last of the Doublecross spin-off of the 39 Clues, which is the third spin-off series! The series as a whole was fun, and I did like the resolution of this book, right before the ending. But I was disappointed that two of the main characters weren't mentioned at all in this book. It seemed just like a snapshot of the series instead of a really good conclusion for what was going to be the last book. Another thing I didn't like about this spin-off series is that it wasn't very educational like the original series, where the characters traveled the world and where you'd get little history lessons. Now I am reading (well, listening to, like I have the entire series) the very final 39 Clues book, and I like how so far it's done a re-cap of the characters and seems to get back to the roots of the series. The original 39 Clues are the best books, even though they get a bit predictable.

Megan says

audiobook with kids

Jackie says

This time, Dan and Amy, are out to thwart the Outcast's latest recreated disaster that occurred in April, 1986...the catastrophic accident known as Chernobyl. A nuclear meltdown that destroyed lives, vegetation, and cities, another disaster like that one is beyond comprehension. Yet, the Outcast is only using the recreation as a ruse. He has a much dastardly plot in mind, which will assure him of complete control of the Cahill family and all the others.

Mission Atomic is full of suspense and danger, yet we are hoping that good wins out in the end. Amy and Dan, along with Ian and Cara, Sammy and Nellie and a very surprising accomplice, will have a difficult time trying to stop the madman, known as the Outcast, aka, Nathaniel, Amy and Dan's grandfather. A tense, yet satisfying wrap-up to this off-shoot of *The 39 Clues* series, does it really end here, or is there something else in the works? Time will tell.

Kelly Carey says

Another book in the DoubleCross series of 39 Clues. This one connects to Chernobyl and the nuclear accident that occurred in 1986. The ending appears to wrap everything up, so this is probably the last book in the DoubleCross series. In fact, the ending was a bit too neat and easy.

Cas says

A nice plot line, the questions we've been asking since book one are finally answered in this shocking conclusion. Amy and Dan find some unlikely allies and shocking enemies in this well written conclusion.

Mason K. says

I started reading this series 10 years ago, and I think this book was the perfect end to that era. I loved the wild ride this series took me on.

david y biblioflick says

[mutated bees that is affected by radiation, and that will be disappointing (hide spoiler)]

Tarissa says

The battle against the Outcast is coming to an end... The final challenge looms ahead – one that can blow the entire Cahill family to bits.

This book introduces readers (young kids who may not know about it) to the Chernobyl incident, and the effects of radiation decades after its release. (We're still learning history and science facts here, just like the original 39 Clues series – excellent stuff!)

There's a lot of danger and high-stakes adventure in this epic (almost) finale. Dan has to contemplate murder, it's so definitely intense.

Now I await reading the alleged final book in the Cahill saga... (although I think there still might be another special and some ebook shorts I have yet to discover, so there's always those. Yay!).

Katlyn says

I must admit that I'm glad the series is ending soon. While I'm enjoying it, it is quite long! It's starting to drag a bit in my opinion. I really liked the ending though. I'm glad that they've finally reached the realization that Grace was kind of a bad person. Oh, and Kara and Ian are so cute! 4/5 March 30 2018
