I don't care if I'm way beyond the age bracket of the target reader of this book series. What's important is that these mutts are making me laugh with their silly plans and adventures.

One particular part in this third book has made me teary-eyed. When Karen reminisced the days when her former owner used to read bedtime stories to her is a subtle message that dogs, either stray or not, has feelings too.

This book series could be a little bit silly but the message that the author wants to instill to us is on how sad is the life of stray dogs. We should be aware of this and trying to feed them or trying to rescue them will make a big change to their lives.

The story "Stick Dog Chases A Pizza" by Tom Watson is about when Stick Dog and his friends want to play

frisbee, when they realize they need a disk to play. Stick Dog and his stray dog friends a Dalmatian named Stripes, a Dachshund named Karen, a mutt named Mutt, and a Poodle named Poo-Poo search for one in a park. Stick Dog and his friends find a box with a delicious pizza inside. They eat the pizza and want to find more. They go on an epic quest to get the tasty meal. On the way, they get interrupted by a cat distracting the nice dogs, the plans to get the pizzas are below par, and an epic game of catch. Stick Dog's friends are not very good at coming up with strategies to get the food. Using teamwork, patience, and skill, will Stick Dog guide them to get the pizzas?

The genre of the book "Stick Dog Chases A Pizza" by Tom Watson can be classified as fiction, adventure, fantasy. There is a multitude of books in the Stick Dog series. This book isn't that long, about 200 pages. It's a quick and easy read, geared toward younger children. I like this book, because of the way the doggy's try to receive the food. It can hold the attention for me, which is rare because of my low attention span. Meaning that it would hold the attention of a younger audience. There is a lot of action and humor for people of all ages. The words are easily understandable and read, so that readers won't get lost throughout the amazing quest the dog's experience. I liked that it had a good plot, but I found the second half of the book two close to the last book. The thing I disliked about the story was that this book has pretty much the same plot as the two other books, but just with a new coat of paint. They followed the rules of story making and the quest was packed with a couple of ok characters that will probably only be mentioned once. For example, in the book before this one there was a raccoon that almost stopped them from getting the hot dogs. There was really a lot of style to this writing and this book is told in third person omniscient as seen from all the characters perspectives, and knowing everything. My favorite character in this book was still Stick Dog. Stick Dog is the main character in the book series. Stick Dog is a dog with a brain when he is in a group of people who usually don't listen and have not so great ideas. When he goes on a quest with his companions, he goes out of his way to help his companions learn to stop being stupid. He learns that humans are ignorant, and can be used to get more food. "They all began licking the cardboard" is my favorite line from the book, because it is an example of how dumb the dogs are. The fact that they are that dumb made me laugh for about 3 seconds. I can relate to Poo-Poo, because both him and I are quite dumb. I believe that this dog book is worth reading if you enjoyed the first one plot and characters.

I thought this Stick Dog book was mildly amusing and appreciated the few historical facts it sneaked into the story. The characters come up with very creative ways to solve problems though many of the solutions are pretty far fetched. My older daughter really likes Stick Dog and I think she will continue to read the books on her own.

This book was the amazing book about stick dog yet I love how they thought of plans on how to get their meal. I like the part where karen suggested a machine to get all the pizza. But what I really like about the book is that stick dog and his friends all work together. What a fabulous mind for cartoons Tom Watson has.

In this book "Stick Dog Chases a Pizza" it's about 5 dogs who were best friends. One day, they got really bored, so they wanted to play their favorite game, Frisbee. They remembered that there was an orange Frisbee at the park's basketball court, but one of the dogs remembered that they shouldn't even try to look for it because one of the dogs ate it. So they went to the park to look for a new Frisbee. They kept looking, and looking, but they couldn't find the right Frisbee. Until one of the dogs finds a cardboard circle from a pizza box. They try to use it but, they never had a Frisbee that tasted good. So they ended up eating the leftover pizza that was on the circle. They decided that they wanted more because it tasted good, and they could use it as a Frisbee. The dogs then look at the box to see and address to a place called "Pizza Palace". They soon take an adventure to the pizza place to get another one of those delicious circles. Once they got there they made a plan to get at least five pizza boxes so everyone could have their one circle for a Frisbee. So when they saw a pizza delivery girl bringing pizza boxes, and bringing them to the car, they created a plan to get the boxes while she's going back and forth to the store to the car to get the pizza. Finally they got their boxes, they were really excited because they finally got a Frisbee to play with. But in the end they just ate the pizza and the pizza circles. The main characters in this book are Stick Dog, Karen, Stripes, Mutt, and Poo-poo. These characters don't seem real to me because dogs wouldn't be able to read, and they wouldn't be able to know about the past like ancient history. In this book, Stick Dog said, "If we are going to make a plan, we should make one without anyone getting seriously hurt." This quote is significant because its telling the reader advice about how you should work together as a team without hurting anyone mentally or physically. In the beginning of this book, Karen tried really hard to try and get her tail. All the dogs were teasing Karen about how close she was and how they thought she would get it. So they tried to get Stick Dog into it by saying that if there was a medal for chasing their tail, and not getting it that Karen would get it, then they asked Stick Dog if he agrees. He tries to spare Karen's feelings by changing the subject, and saying that she's getting faster everyday, and that she'll definitely get her tail without a doubt. This shows that Stick Dog is very kind to Karen by not hurting her feelings, and by cheering her up. I liked this book because it was funny and enjoyable enough to recommend it to other people who are interested in this book.

I like the other books in the Stick Dog series, but the pacing in this one really got on my nerves and I didn't buy the fact that the dogs didn't know what pizza was despite the fact that they referred to the cardboard circles they pursued "pizza circles."

Not sure if this series has just run its course (it's very formulaic at this point) or if this food quest just didn't work, but I was disappointed by this installment in the series.

The characterization and dialogue makes for a good read aloud with K-3 classrooms. Usually, the endings are pretty funny/complicated/happy for the dogs, which is a nice pay-off.

Overall, I just found my favorite elements of this series to be weaker in this book.

Cute book! Trying to find a new series that my 2nd graders will enjoy.

"This is dumb!" That's what I kept saying to myself as I read this book, but I was too stubborn to abandon it. I thought Wimpy Kid was definitely more funny.

Another hilarious story!

### **Christine Rains says**

Stick Dog and his goofy buddies discover an empty pizza box. The crumbs and splotches are so good, they have to find some more.

This is my favorite one yet in this hilarious children's series. Stick Dog and friends try to make plans to steal pizza, and the plan they eventually do go with comes with a surprise. My seven year old son loves these books.

I'm a big fan of Stick Dog. These books make me hopefully that even I could draw! I enjoy that narrator who doesn't know as much as the reader. Besides being funny, it's great literary technique to teach to kids. I did want to eat a pizza after I finished this book.
