The Prep and the Punk Imogene Kash

In this elite school... locked high away in the Colorado mountains... it's boys only.

He's a loner.

Sebastian "Bash" Lowell is used to not fitting in or going with the flow.

They call him a punk in the press, so he does his best to live up to the title.

He's practically a professional outcast at this point, having changed schools so many times he's lost count.

Bash learned long ago it's far better to stand out than it is to fit in, so he's made sure everything about him screams "back-off." Finding friends is more hassle than it's worth when he knows he's going to be gone again at his parents' next whim.

Bash fought to get into the elite, exclusive, private school to avoid his publicity-hungry parents who use him to fuel gossip and fend off far-reaching rumors.

Having learned a few tricks from his vicious, media-savvy mother, Bash broke a few laws, ruffled the right feathers, and was exiled to Castle Pines. Now he gets to finish his high school career in peace and quiet, and in the same damn place.

All Bash wants is to graduate and get on with his life outside the limelight. No attachments, school only, so he can focus on getting into his dream college.

Nothing prepared him for Rutledge Darby.

He's a legacy.

Rutledge "Edge" Alexander Darby IV has had everything in his life handed to him on a silver platter.

They call him the preppy-billionaire-heir in the press, although he resists his title at every possible opportunity.

Edge is American royalty, his last name synonymous with wealth and privilege. His family crest adorns the walls of the elite private school he's attended since before he could walk. Castle Pines is all he's ever known—a kingdom he's ruled since birth.

Everyone in his world wants something from him, and Edge isn't the type to give anything away for free. His life is simple. No attachments, no entanglements, and the only person he trusts to watch his back is his best friend.

For their senior year, they fully plan to do as they please and raise as much hell as possible.

Edge longs for something to surprise him. He's desperate for the unexpected. He's ready for something real. Nothing prepared him for Bash Lowell.

Please, PLEASE keep writing these books. As quickly as possible.

Tracie Payne says

4.5 Stars. Can't wait for more! This was really great.

I gotta say, i was attracted to read this book by the title and the cover. And hello, M/M? Count me in! I really liked almost everything about this book, except their age. I think if they would have been already in college would have been perfect. I think them still being teenagers was too much for all the seriousness of their relationship. I could see them in the future together, being already in college, but not high school. You don't really know what you want at 18. I might not make sense, but it just didn't feel right. Except this aspect, I really enjoyed reading this. Can you please hurry with the next book? Please?

4.5 stars!

I freaking loved this book! It was crazy good!

Castle Pine a Private all-boys school where the sons of the rich and powerful attend so of course, they had to be spoiled rotten. Edge the top alpha of the school has an interesting first encounter with new all tattooed student Bash. They couldn't have been more different but dam their chemistry was hot and undeniable. I love their banter and the chase Edge gave Bash. It's always fun to see the bad boy fall to his knees and give into love.

If I could describe this book with one word I would say **"entertaining"** and it sure was! Was it OTT? You bet. Filled with drama? Yup! Add to that betrayal and jealousy I'm telling there was never a dull moment. But there was also a beautiful I've fallen for you and I'll do anything for you kinda love that had me with hearts in my eyes.

Please please, dear author give us Mac's story **next I'm dying to read the little know it all book and Theo and Klein too, that particular story is going be interesting, to say the least. ♥?**

4.5 Stars!

Very addictive and entertaining read...and a quite good one at that.

The style was similar to the Damaged Like Us series by the Richie sisters, and had a definite Gossip Girl vibe. The characters are in high school...a very elite high school. But they didn't come off as high schoolers. At least not your typical high schooler.

I could've gone for a bit more build up before the main characters got together, as it started out a bit enemies to lovers. But I like how everything played out once they got together. And they were smoking hot together. **#buttvirginforthewin**

I certainly appreciate the lack of high school drama and angst...directly between the main characters anyways. There was some of that typical high school drama - petty jealousy, backstabbing and such. But that was all part of the entertainment.

I'm intrigued by several of the secondary characters. And I'm reaaaaaally hoping we get more books. Cutter and the cop? Mac? The other roommates?

This is apparently not a new author - as the authors note leads us to believe writing is something she does full time and she's no stranger to MM. However she chose to use a pseudonym with this particular type of book?! A few names come to mind but no definites. I'm sure I'll be completely shocked if I ever find out what other name(s) she writes under. *shrugs*

This is a pretty good sleeper hit. I randomly came across it and thought I would give it a try. The author looked new but according to the info in the back of the book, apparently the author is far from unknown or new... but who it might be is a question. The writing is distinctive but it wasn't familiar to me. Whoever it is has a good editor which is always a plus in this genre.

I think this book is in the vein of Damaged Like Us by Krista Ritchie in that it sorta tells and shows what's going on so time moves fast and slow depending on the paragraph and the characterization is similar. If you like that series, I think you'll like this one. The writing is also dual POV like DLU but both boys are the same age here. I expected more of a PG-13 vibe because of the YA element but that was not the case. This is full on erotica where necessary.

The author says she was inspired to write an LGBTQ Gossip Girl type series and although that was never a show I watched, I can easily see what she meant. This has all the hallmarks and similarities to every early Fox, WB or CW show...this one is just set in an all boys school for the gay kids of the richest of the rich to be stashed away at that includes explicit sexual situations and very little adult supervision.

I'll jump on the next book, happily. I'm ready to see what Mac accomplishes with his project boys and for Cutter to pull his head our of his ass.

5 adorable stars! This is something I would highly recommend and this truly is an undiscovered gem.

For the Plot, I give this a 5/5. It had a great build and didn't pressure the slow burn romance that I am usually inclined to. Not saying that it moved quickly. It was more like things snapped into place where they needed to, WHEN they needed to, without things feeling rushed.

Character development 5/5. This I REALLY don't want to spoil. Clearly this author knew what they were doing!

Supporting characters 5/5. I didn't see this coming, but oh man am I glad this came into play. It kept my intrigue of what I was getting myself into. And yes, there are a few laugh out loud moments that keeps you

heavily invested.

Happy For Now? That may be the only lingering question. The ending didn't quite have a cliff hanger ending, but it did leave the door wide open for other possibilities. There are few untied loose ends I would love to see taken care of, eventually. I do see this author has something cooking up, whatever may come next. I am looking forward to it!

Great read! I am so glad to have discovered and experienced this <3

3.75 High School Stars. I did really enjoy this one, it was a hot, fun coming of age story. Pretty light not too much angst, steamy & sexy

Found this one through KU early this morning and devoured it!!

One of the best M/M books I have read in a while and it looks like it will be a series which I am super excited about.

This is a fun, story about a PREP aka Rutledge "Edge" Alexander Darby IV who is just one of those guys that gets everything he wants, when he wants it except Sebastian "Bash" Lowell aka Punk.

Bash does not want to have anything to do with Edge, he just wants to keep his head down and get through the year at the all boys school.

But Edge is not having it and oh how he goes after Bash but when he catches him, he gets way more than he bargained for.

This book is sizzling hot and oh my gosh, the birthday party scene. The birthday scene took my heart and melted it completely into mush!! SOO GOOD!!

PERFECT book to start the weekend...!!

STRONGLY SUGGEST!!!

Texas Hugs and Happy Reading!!
