**Tercero de la serie.** Sebastian Stone, príncipe heredero, empresario millonario y soltero viajero necesitaba que su secretaria, Tessa Banks, le organizara la vida, y ella lo hacía con facilidad desde su despacho de Manhattan. Por eso, cuando Tessa anunció que se iba, Sebastian recurrió a su mejor arma: la seducción. La encandiló con joyas y flores en su palacio bañado por el sol y le regaló placeres sensuales que hicieron las delicias de Tessa. Pero cuando terminaron las dos semanas de aviso, Sebastian descubrió que su plan había fracasado: se había enamorado de una mujer que nunca se casaría con él.

## Emily says

Tessa Banks knows she is in trouble, her feelings for her boss the Crown Prince, Sebastian Stone are growing and it is becoming unbearable seeing him with different women all the time when it's the place she wants to be. Doing what she has to, Tessa hands in her notice, Sebastian refuses, determined Tessa gives him two weeks notice.

Sebastian can't lose Tessa, she is irreplaceable. Coming up with a plan to whisk her away to Caspia for a working vacation seems like the best way to keep her from leaving him. While he plans to show her the benefits of being his assistant, he doesn't plan on the unexpected feelings of wanting her, nor that those feelings are reciprocated. Sebastian doesn't plan on letting her go anytime soon, but when another interferes he may just lose the best thing that ever happened to him.

Had possibility of being really good, the chemistry takes awhile to evolve. Sebastian is charming as he tries to coerce Tessa to stay but I wasn't quite sure what was his trigger moment where he begins falling for her. I wanted to like this one, but it slightly fell short.

## Ann Keller says

I loved Jennifer Lewis' descriptions of Caspia, her created island nation. It sounded lovely and terribly romantic.

I also enjoyed how Sebastian, a prince who had everything he'd ever wanted, found himself desiring a woman he could not obtain. Such a dilemma - that is, until he realizes that the woman of his dreams is in love with him, too!

## Booklover says

Good office romance, ploy was good, characters were well developed and best thing Tessa was shown head strong which we find so less in Harlequin and MB romances

Tessa Banks has served as Sebastian Stone's personal assistant for the past five years but at almost thirty years of age she's ready for a more fulfilling life. She dreams of a real life complete with a husband and children and that's simply not going to happen as long as she works for Sebastian. The fact is she's in love with him and he doesn't know she exists outside of their business relationship.

Sebastian Stone, Crown Prince of Caspia, or as the media has dubbed him, PRINCE OF MIDTOWN, is stunned that Tessa intends to 'abandon' him. He's come to rely on her and she couldn't have picked a worse time - Caspia Designs is in a huge financial mess and he's counting on her to help him straighten things out. It's the knowledge that she's actually seeing someone and intends to move to California with him that sends a pang to his heart.

Sebastian isn't at all happy to learn that Tessa's been seeing a snake in the grass divorce lawyer and intends to move with him to California. Sebastian insists on the customary two weeks notice and visit Caspia with him. Tessa's never been to Caspia and it's an opportunity she can't resist. Sebastian hadn't realized that Tessa has never been to Caspia but views it as the perfect opportunity to enlist her aid in solving the Caspia Designs issue while sharing the beauty of his country with her. Of course he quickly realizes that he's very attracted to her and when she lets her hair down and allows herself to have fun she's the most exciting and fun woman he's ever met.

There was minor issues like him being a prince and she is nothing but all is well and they will happily ever after

### **Tonya Warner says**

Tessa has the hots for her boss and knows it can never lead to anything. She is pushing thirty, she wants a husband and children, but her boss is the Crown Prince of Caspia, Sebastian Stone, and he does not want to let her go.

Sebastian takes Tessa to his home country to try and convince her to stay and help him turn around Caspia Designs around. Just the thought of her leaving, makes him realise how much he enjoys her company. He might be a future king, but he knows he will need a strong, intelligent wife to be his queen.

Showing Tessa around his country, Sebastian knows she loves it as much as he does and can feel the heart of the country calling. Winning her is what he desires most, and Tessa wants to be more than just another woman to him, but she is just herself and doubts that her upbringing will let her fit in to a royal lifestyle.

A great story.
